Abstract: The proposed rule will revise the 1983 definition of "coal preparation or coal processing" which was formulated on the basis of OSMRE's previous interpretation of Section 701(28)(A) of the Act. In accordance with the District Court of the District of Columbia decision, OSMRE would adopt a new definition which would include chemical or physical processing or cleaning, concentrating or other processing or preparation of coal. Facilities not involving separation of coal from its impurities would be included within this definition. The definition of coal preparation plant will be revised to track the new definition of "coal preparation." Also the definition of support facilities will be removed from this rule and proposed separately. The proposed rule for coal preparation plants would bring on a large number of additional facilities under the jurisdiction of SMCRA therefore adding to environmental protection and could impose added costs to industry.

Significance: Agency Priority

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 701.5; 30 CFR 773

Legal Deadline: None.

Abstract: This rulemaking action is in response to a Court Order by the U.S. District Court for the District of Columbia In re; Permanent Surface Mining Regulation Litigation II, July 15, 1985. The proposed regulation would amend the definition of previously mined area to include only those lands mined prior to May 3, 1978, or prior to January 1, 1979 for certain small operators exempted under 30 CFR 710.12, and not reclaimed to the standards of the Act. This rule may lead to a reduction of environmental benefits since there will be less incentive for remining and reclamation of mines abandoned after May 3, 1978. Otherwise, there is no significant increase or decrease in costs.

1295. CRITERIA FOR DESIGNATING AREAS AS UNSUITABLE FOR MINING OPERATIONS FRAGILE AND HISTORIC

Significance: Regulatory Program

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 762.5

Legal Deadline: None.

Abstract: The objection to the definitions of the terms "fragile lands" and "historic lands" in 762.5 is their requirement that damage from proposed mining to historic and other values must be irreparable or permanent before lands can be classified as fragile or historic and therefore, eligible for consideration as being unsuitable for mining. The court order requires only a finding of significant damage, in accordance with Section 522(a)(3)(b) of the Act. In as much as the required wording "significant damage" is used in 762.11(b)(2) in the fragile-or-historic-lands criterion for designating lands as unsuitable, rather than using the wording of the two definitions, the proposed rule change would remove the degree-of-damage requirement from the definitions and thereby remove the wording objected to. The cost and benefits would remain unchanged because a finding of only significant damage and the combined term are already in place in 762.11(b)(2).

Significance: Agency Priority

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 800-40(a)(2)

Abstract: This proposed rule would require that an applicant for bond release include the name of the permittee in the application. This action is being taken as a result of a commitment made during litigation on bonding requirements before the District Court for the District of Columbia where it was found that an explicit requirement for providing the name of the applicant was necessary. Also the proposed revision would allow certain third parties to guarantee self-bond. This action is being taken as a result of OSMRE on June 13, 1986 accepting a proposal to revise self-bonding regulations sought in a petition for rulemaking by the National Coal Association/American Mining Congress (NCA/AMC) Joint Committee on Surface Mine Regulations. There will be no increase or decrease in the cost/benefits of this rule.

Abstract: The rulemaking is in response to a challenge of this issue in District Court where the Office agreed to suspend 30 CFR 817.41(b)(2), concerning requirement to restore groundwater recharge capacity, and repromulgate the rule to develop the administrative records. OSM will propose two options: (1) removing 817.41(b)(2) and (2) retaining this paragraph while asking for comments concerning its legality, technological validity, and environmental impacts. Since this rule will be repromulgated with options, a determination of its potential costs and benefits cannot be assessed until comments are received and options chosen.

Significance: Regulatory Program

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 700.11; 30 CFR 704

Legal Deadline: None.

Abstract: The lack of review procedures for operations meeting the two-acre exemption under the Surface Mining Control and Reclamation Act has led to difficulty in enforcing this provision of the Statute. Therefore, OSMRE is proposing to implement rules to identify the procedures by which a surface mining operation will be exempted from the provisions of the Statute. The proposed rule will identify the qualification and operator notification requirements, verification procedures and recordation process. The rule would result in benefits to small operators and regulatory authorities in clarifying those operations clearly meeting the exemption criteria and they would be treated as such. No additional costs to the environment would occur because operations would not commence within a specified time of notice, for regulatory authority review. Rulemaking action deferred pending further review.

Abstract: This regulation addresses the result of a joint motion approved by the District Court for the District of Columbia on December 3, 1984. The final regulation will remove the definition of adverse physical impact; remove the limitations imposed by 30 CFR 816.106(b) and 817.106(b); and require that all reasonably available spoil in the immediate vicinity of the remining operation be used to backfill the highwall to the maximum extent technically practicable. In view of the joint motion this is the only alternative being considered. There will be little if any potential costs because of the very limited application of this rule. Therefore, benefits which will result will also be very limited. The proposed rule asks for public comment on this very issue.

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 784.20(d); 30 CFR 817.121(c)(2)

Legal Deadline: None.

Abstract: Following Permanent Surface Mining Regulation Litigation II, the court remanded Section 817.121(c)(2) of the subsidence control rule relating to the protection of surface structures and facilities to OSMRE to repromulgate the rule for notice and comment, holding that the final 1983 rule represented a radical change from the 1982 proposed rule. In remanding Section 817.121(c)(2) for further comment, the court also found that the 1979 rule requiring the subsidence control plan (Section 784.20(d)) to include the results of the pre-subsidence survey and description of proposed monitoring measures were deleted in the 1983 final rules without adequate notice. Because this rule related to Section 817.121(c)(2) concerning the protection of surface structures, the court ordered the Secretary to request additional public comments on this deletion in conjunction with the comments of 817.121(c)(2). No other alternative to the repromulgation of these rules is being considered because of the court order. Depending upon the number and types of comments received, the 1983 rules may or may not be changed. Consequently the action's potential costs and benefits cannot be assessed.

Abstract: Under the Reclamation Reform Act (RRA) of 1982, districts and individuals have the option of coming under the acreage limitation provisions of the new law or remaining subject to those of prior Reclamation law. Section 203(b) of the RRA provides that districts have 4 1/2 years from the date of enactment of the RRA to amend their existing repayment and water service contracts to come under the RRA provisions. After April 12, 1987, individuals in nonamending districts will be required to pay full cost for water supplied to leased land in excess of 160 acres.

The final rules published in December 1983 did not address implementation of section 203(b). The existing rules need to be revised in order to implement this provision, as required by law.

1356. ● NATURAL RESOURCE DAMAGE ASSESSMENTS

Significance: Regulatory Program

Legal Authority: 42 USC 9651(c) CERCLA

CFR Citation: 43 CFR 11

Legal Deadline: Judicial, March 15, 1987. Judicial deadline requires statement concerning special resources by 3/15/87

Abstract: In the natural resource damage assessment regulations, published as a proposed rule 12/20/85, there was an exception proposed to the general common law rule of damages (that damages are calculated as the lesser of: restoration or replacement costs; or diminution of use value) for a certain class of resources called "special resources," those resources were viewed as requiring special protection. Due to the large number of diverse comments on this issue, the "special resources" exception was deleted from the final type B rule (published on 08/01/86) and further comments were requested. This submittal is to address those comments and the issue of special resources.

1357. ● NATURAL RESOURCE DAMAGE ASSESSMENT - TYPE B AMENDMENTS

Legal Authority: 42 USC 9651(c)(1) CERCLA as amended

CFR Citation: 43 CFR 11

Legal Deadline: Statutory, April 17, 1987. SARA calls for any necessary amendments to be prepared within 6 months of enactment of SARA (Oct. 17, 1986).

Abstract: CERCLA allows trustees of natural resources that have been damaged by a release of a hazardous substance or a discharge of oil to bring a claim against the potentially responsible party of the Superfund. Section 301(c) requires the development of regulations for the assessment of damages to natural resources. Two sets of regulations are required by the Act: a set of simplified procedures that require minimal field investigations, referred to as the type A procedures, and a set of alternative procedures for the testing, sampling, and valuing of natural resource damages, referred to as the type B procedures. The Superfund Amendments and Reauthorization Act of 1986 (SARA), enacted on October 17, 1986, amended certain sections of CERCLA that pertain to natural resource damages and the Section 301(c) damage assessment regulations. This submittal covers the amendments required to the Section 301(c) damage assessment regulations.

CFR Citation: 8 CFR 292.3; 8 CFR 3.1

Legal Deadline: None.

Abstract: The contemplated regulation change would revise the procedure by which attorneys and representatives may be disbarred or suspended. It provides for a hearing and decision by an immigration judge, with appeal rights to the Board of Immigration Appeals and some limited review by the Attorney General. The change is desirable since it eliminates procedural entanglements between the Service and the immigration judges which exist in the current procedure.

Significance: Agency Priority

Legal Authority: 8 USC 1103; 8 USC 1362

CFR Citation: 8 CFR 292.1

Legal Deadline: None.

Abstract: The contemplated regulation change would limit practice of foreign-licensed attorneys outside the definition of attorney under 8 CFR 1.1(f) to matters arising outside the United States and to those instances where the Immigration and Naturalization Service allows such practice. This is designed to help assure the high quality of representation in immigration matters.

1365. MOTIONS TO REOPEN DEPORTATION PROCEEDINGS

Significance: Agency Priority

Legal Authority: 8 USC 1103; 8 USC 1252

CFR Citation: 8 CFR 242

Legal Deadline: None.

Abstract: The contemplated revision would delete the language allowing an application for adjustment of status under section 245 of the Immigration and Nationality Act, filed by itself, to be considered as a motion to reopen in deportation proceedings. The practice of allowing such applications to be treated as motions to reopen has resulted in confusion and administrative delay. This revision would treat motions to reopen for adjustment of status as any other motion to reopen. It is designed to eliminate the administrative difficulties involved with the filing of a bare adjustment of status application with no indication of whether or not it is a motion to reopen.

Legal Deadline: None.

Abstract: The changes would amend the present rules by (1) addition of supplementary definitions to those already found in the regulations; (2) establishment of procedures for expeditious processing of aliens convicted of offenses which render them deportable from the United States; and (3) establishment of procedures for making determinations necessary as to issuing detainers against aliens arrested for controlled substance violations. These changes are necessitated by the provisions of two recently passed statutes relating to criminal aliens and alien narcotics traffickers, which amended certain provisions of the INA: the Anti-Drug Abuse Act of 1986, Pub. L. 99-570; and the Immigration Reform and Control Act of 1986, Pub. L. 99-603. Prompt establishment of the procedures contained in this rule is necessary to ensure that Service operations are conducted in a manner consistent with the Congressional intent of both Acts.

Semiannual Agenda of Regulations

AGENCY: Office of the Secretary, Labor.

ACTION: Semiannual agenda of regulations selected for review or development.

SUMMARY: This document sets forth the Department's Semiannual Agenda of Regulations which have been selected for review or development during the coming one-year period. The agenda complies with the requirements of both Executive Order 12291 and the Regulatory Flexibility Act.

DATES: The agenda includes all regulations which are expected to be under review or development between April 1987 and April 1988.

FOR FURTHER INFORMATION CONTACT: Roland G. Droitsch, Acting Deputy Assistant Secretary for Policy, Office of the Assistant Secretary for Policy, Department of Labor, 200 Constitution Avenue, NW., Room S-2312, Washington, DC 20210, (202) 523-9058.

Note: Information pertaining to a specific regulation can be obtained from the Agency Contact listed for that particular regulation.

SUPPLEMENTARY INFORMATION: Executive Order 12291 and the Regulatory Flexibility Act require the semiannual publication in the **Federal Register** of an agenda of regulations.

Executive Order 12291 became effective February 17, 1981, and in substance requires the Department of Labor to publish an agenda, listing all the regulations it expects to have under active consideration for promulgation, proposal or review during the coming one-year period. It also requires the Department to conduct a Regulatory Impact Analysis for all "major" regulations being developed.

The Regulatory Flexibility Act became effective on January 1, 1981. It applies only to regulations for which a notice of proposed rulemaking was issued on or after January 1, 1981, and requires the Department of Labor to publish an agenda, listing all the regulations it expects to propose or promulgate that are likely to have a "significant economic impact on a substantial number of small entities" (5 U.S.C. 602). For any regulation that will have this impact, the Department must conduct a Regulatory Flexibility Analysis to gauge the economic consequences of the rule, and to analyze the availability of more flexible approaches for lightening the rule's regulatory burden on "small entities."

If a proposed regulation will not have a "significant economic impact on a substantial number of small entities," the Department of Labor must publish a certification to that effect at the time of the general notice of proposed rulemaking or at the time of the publication of the final rule. That certification must be accompanied by a succinct statement explaining the reasons for the agency's determinations.

As permitted by law, the Department of Labor is combining in this publication its agendas under the Regulatory Flexibility Act and Executive Order 12291.

The regulatory reform process, of which the unified agenda is a part, continues to be an extremely valuable aid in the development of better regulations by the Department. We believe that our regulatory reform program has resulted in improved regulatory management, more clearly written regulations and significantly less burdensome regulations.

Further improvement is certainly needed, and we are constantly seeking new and innovative approaches in pursuit of this goal. All interested members of the public are invited and encouraged to let Departmental Officials know how our regulatory reform process can be further improved and, of course, to participate in and comment on the review or development of the regulations listed on the agenda.

The Department of Labor's next semiannual agenda, under Executive Order 12291 and the Regulatory Flexibility Act, will be published in October 1987.

William E. Brock,

Secretary of Labor.

1393. RIGHT TO FINANCIAL PRIVACY ACT

Legal Authority: 12 USC 3401 et seq Right to Financial Privacy Act of 1978

CFR Citation: 29 CFR 19, (New)

Legal Deadline: None.

Abstract: These proposed regulations would authorize Department of Labor units to request financial records from a financial institution pursuant to the formal written request procedure established by the Right to Financial Privacy Act of 1978, 12 U.S.C. 3401 et seq., and would set forth the conditions under which such requests may be made. Section 1108(2) of the Right to Financial Privacy Act of 1978 requires that the formal written request be authorized by regulations promulgated by the head of the agency or department. These proposed regulations would thus, once implemented, enable Department of Labor units to utilize the formal written request procedure to obtain financial records.

1394. ● IMPLEMENTATION OF THE PROGRAM FRAUD CIVIL REMEDIES ACT

Significance: Agency Priority

Legal Authority: 31 USC 3801 to 3812

CFR Citation: 29 CFR 22

Legal Deadline: Statutory, April 21, 1987. The Act requires agencies to have implementing regulations within 180 days of the passage of the statute.

Abstract: This regulation will implement the Program Fraud Civil Remedies Act of 1986 (PL 99-509, Secs. 6101 to 6104). Specifically, this part will (i) establish administrative procedures for imposing civil remedies and assessment against persons who make, submit, or present, or cause to be made, submitted, or presented, false, fictitious, or fraudulent claims or written statements to authorities or to their agents, and (ii) specify the hearing and appeal rights of persons subject to allegations of liability for such penalties and assessments.

Abstract: These regulations will implement the Debt Collection Act of 1982 (P.L. 97-365). The Debt Collection Act gives Federal agencies new tools to collect on debts owed to the United States. These include the authority of Federal agencies to offset the current pay account of an employee ("Salary Offset") when the employee owes money to the United States. These regulations will establish the policies and procedures the Department of Labor will use to implement a salary offset, in conformance with the Office of Personnel Management Regulations on this matter (49 FR 27470).

Significance: Regulatory Program

Legal Authority: 29 USC 203

CFR Citation: 29 CFR 570

Legal Deadline: None.

Abstract: Section 3(1) of the Fair Labor Standards Act requires the Secretary of Labor to issue regulations with respect to minors between 14 and 16 years of age ensuring that the periods and conditions of their employment do not interfere with their schooling, health, or well-being. The Secretary also is directed to designate occupations that may be particularly hazardous for minors between 16 and 18 years of age. Child Labor Regulation No. 3 sets forth the permissible industries and occupations in which 14 and 15 year olds may be employed. In addition, this regulation specifies the number of hours in a day and in a week, and time periods within a day that such minors may be employed. The nonagricultural hazardous occupations orders which prohibit the employment of minors in such occupations are also contained in 29 CFR 570. Changes in technology and job content over the years require a review of these regulations. In order to increase job opportunities for such minors, while maintaining essential protection for their well-being, modifications to these regulations may be needed. Significance: Regulatory Program

Legal Authority: EO 11246, as amended; 38 USC 2012; 29 USC 793; 29 USC 1781

CFR Citation: 41 CFR 60-1; 41 CFR 60-2; 41 CFR 60-4; 41 CFR 60-20; 41 CFR 60-30; 41 CFR 60-50; 41 CFR 60-60; 41 CFR 60-250; 41 CFR 60-741

Legal Deadline: Statutory, October 1, 1983. Rules implementing Section 481 of the 1982 JTPA (29 USC 1781) are required to be published under the Act. The operational aspects of such rules need to be coordinated with the pending revisions discussed above, which has resulted in a delay.

Abstract: These provisions contain OFCCP's rules covering nondiscrimination and affirmative action obligations of Federal contractors under EO 11246, 38 USC 2012, the Vietnam Era Veterans Readjustment Assistance Act of 1974, and Sec. 503 of the Rehabilitation Act of 1973. The rule would be revised to make them more cost effective, reduce paperwork burdens and assure that contractors hire the best qualified person regardless of race, color, religion, sex, or national origin. Proposed changes to the regulations were published in the Federal Register on 12/28/79 and 02/22/80, and a final rule on these issues was published on 12/30/80 (45 FR 86215). The rule was stayed and reviewed in accordance with the President's Executive Order 12291 of 02/17/81. An ANPRM was published on 07/14/81 (46 FR 36213) and supplemented on 08/21/81 (46 FR 42490) to elicit comments on several issues pertaining to the regulation. A notice of proposed rulemaking was published on 08/25/81 (46 FR 42968) with comments due by 10/26/81. The proposal further suspended the effective date of the 12/30/80 regulation, and proposed revision of that regulation. A supplemental proposal (cont)

Significance: Regulatory Program

Legal Authority: 40 USC 276a to 276a7; 40 USC 276c; 40 USC 327 to 332; 5 USC Appendix Reorganization Plan No. 14 of 1950; 29 USC 259

CFR Citation: 29 CFR 1; 29 CFR 5

Legal Deadline: None.

Abstract: These regulations govern labor standards applicable to federally funded or assisted construction contracts subject to the Davis- Bacon and Related Acts (as well as contracts subject to the Contract Work Hours and Safety Standards Act). The Department plans to implement provisions in these regulations that would permit contractors to expand their use of semi-skilled "helpers" on Davis-Bacon covered projects at wages lower than those paid to skilled journeymen. Revised final rules were originally published 05/28/82 (47 FR 23658), but were deferred on 07/26/82 (47 FR 32070) due to an injunction issued by the U.S. District Court. Although the U.S. Court of Appeals for the D.C. Circuit has since upheld most of the key provisions published in 1982, the district court injunction remains in effect against certain provisions dealing with helpers. The Department intends to implement the helper provisions in accordance with the decisions of the district and appeals courts.

1399. DEFINING AND DELIMITING THE TERMS "ANY EMPLOYEE EMPLOYED IN A BONA FIDE EXECUTIVE, ADMINISTRATIVE, OR PROFESSIONAL CAPACITY. . ." (ESA/W-H)

Significance: Regulatory Program

Legal Authority: 29 USC 213(a)(1)

CFR Citation: 29 CFR 541

Legal Deadline: None.

Abstract: These regulations set forth the criteria used in the determination of the application of the Fair Labor Standards Act exemption for "executive," "administrative," "professional" and "outside sales employees" from the minimum wage and overtime requirements of the Act. The existing regulation was targeted for review by the President's Task Force on Regulatory Relief. A final rule increasing the salary test criteria was published on 01/13/81 (46 FR 3010) and was scheduled to become effective on 02/13/81. On 02/12/81 (46 FR 11972) an indefinite stay of the final rule was published. On 03/27/81 (46 FR 18998) a proposal to suspend the final rule indefinitely was published with comments due by 04/28/81. As a result of numerous comments and petitions received from industry groups regarding the duties and responsibilities tests as set forth in the regulations, as well as recent case law developments, the Department concluded that a more comprehensive review of these regulations was needed and decided to reopen the comment period and broaden the scope of the review to include all aspects of the regulations. An ANPRM was published on 11/19/85 and its comment period was (cont)

Abstract: These regulations establish the terms and conditions, pursuant to section 14(c) of the Fair Labor Standards Act (FLSA), under which handicapped workers may be employed, under certificate, at wage rates less than those otherwise required by statute. The 1986 Amendments to the FLSA substantially revised section 14(c) to simplify worker certification by eliminating separate certification for more productive workers, multiple handicapped individuals, and those in evaluation or training and work

activities centers. Three affected regulations (29 CFR 524, 525 and 529 will be combined into a single proposed new rule which will be published for public comments.

Legal Authority: 20 USC 954(i) and (j); 20 USC 956 (g)

CFR Citation: 29 CFR 505

Legal Deadline: Statutory, June 18, 1986.

Abstract: The National Foundation on the Arts and Humanities Act of 1965, as amended in 1976, requires the Secretary to determine the prevailing minimum compensation for professional performers and related or supporting professional personnel employed on projects or productions assisted by grants from the National Endowment for the Arts and the National Endowment for the Humanities. As originally enacted, these labor standards only applied to the Arts; the existing regulations do not reflect the amendments which applied the same labor standards to the Humanities. The Arts, Humanities, and Museums Amendments of 1985, which were enacted on December 20, 1985, require the Secretary of Labor to issue regulations to assure that prevailing minimum compensation is provided to all professional performers and related or supporting professional personnel employed on projects or productions financed in whole or in part by the National Endowment for the Humanities.

Abstract: The intent of this proposal was to make explicit the Department's policy that a lessor of a coal mine, who had never actually operated such a mine, would not be held liable for the payment of benefits for black lung contracted in the course of employment in that mine and, therefore, need not insure against that possibility. However, serious questions concerning the approach taken in the notice of proposed rulemaking have arisen. Because of these questions, further review of the problem sought to be resolved by this proposal is appropriate.

Legal Authority: 41 USC 38

CFR Citation: 41 CFR 50-201.101(b)(6); 41 CFR 50-201.1201

Legal Deadline: None.

Abstract: The proposed rule would revise the role of the Small Business Administration (SBA) in determining a small business concern's eligibility as a "manufacturer" or "regular dealer" under the Walsh-Healey Public Contracts Act (PCA). Current procedures for small businesses require SBA review of all contracting agency findings of ineligibility, as well as all protests which challenge an agency's findings of eligibility. SBA did not have an opportunity to comment when the current rules were first adopted following enactment of the 1977 Amendments to the Small Business Act (P.L. 95-89, 91 Stat. 561 (15 USC 637(b)(7)(B)). SBA believes its review authority under the Act is restricted to only executive branch agency findings

of noneligibility under PCA, and has requested revisions to the regulations which would eliminate SBA review in protest cases which challenge an agency's findings that a small business is eligible for award. Additional revisions requested by SBA would streamline the processing of cases between SBA and Wage Hour. An additional procedural change, which was published separately as a Final Rule on 03/02/87 (cont)

Additional Information: ABSTRACT CONT: (52 FR 6146) discontinued the reporting requirement for federal contracting agencies to submit Standard Form (SF) 99, Notice of Award of Contract, to the Wage and Hour Division for contracts subject to the Walsh-Healey Public Contracts Act (PCA). A similar rule change was promulgated under the Service Contract Act (SCA) regulations (29 CFR 4.8) published October 27, 1983 (48 FR 49770). The reduced administrative burden for the affected procurement agencies resulting from the rule change under both SCA and PCA is expected to produce estimated annual cost savings governmentwide of nearly $410,000, the majority of which is attributable to PCA contract awards.

1409. EMPLOYMENT OF HOMEWORKERS IN CERTAIN INDUSTRIES

Significance: Regulatory Program

Legal Authority: 29 USC 211

CFR Citation: 29 CFR 530

Legal Deadline: None.

Abstract: This regulation sets forth restrictions on industrial homework and governs the issuance of certificates authorizing the employment of homeworkers in certain industries, pursuant to Section 11(d) of the Fair Labor Standards Act (FLSA). As originally issued, these regulations restricted the employment of industrial homework in seven industries: knitted outerwear; women's apparel; jewelry; buttons and buckles; gloves and mittens; handkerchiefs; and embroideries. The ban was removed on homework in the knitted outerwear industry by the Department 11/9/81 following extensive hearings and public comment. This action was subsequently upheld by the District Court for the District of Columbia. However, on appeal the ban was reimposed 2/29/84 by the U.S. Court of Appeals for the District of Columbia Circuit. On 3/27/84 the Department published a proposed rule rescinding the ban on homework in the knitted outerwear industry only. In addition to soliciting comments on the proposed recission, the Department sought comments on various alternatives to such action (49 FR 11786). On November 5, 1984, a final rule was published lifting the ban on homework for employers (cont)

Abstract: States and other interested parties have questioned the adequacy of the existing method for financing and allocating SESA administrative resources in general and unemployment insurance (UI) administrative resources in particular. Problems identified include: (1) basis and methodology for allocating SESA administrative resources among States; (2) insufficient flexibility to meet State management needs; (3) excessive Federal intervention and prescription; (4) possible duplicative and unnecessary reporting requirements; (5) inadequate State accountability and authority; (6) disincentives for improving productivity; (7)inadequate resources for nonpersonal services. The framework for the basic UI system is outlined in the Social Security Act (SSA) and the Federal Unemployment TAx Act (FUTA). 1417. ● LABOR SURPLUS AREA PROGRAM POPULATION CRITERIA CHANGE AS REVISED BY PL 99-272

Significance: Agency Priority

Legal Authority: EO 12073; EO 10582; PL 95-89; PL 96-302; PL 99-272

CFR Citation: 20 CFR 654

Legal Deadline: Statutory, July 7, 1986.

Abstract: The Consolidated Omnibus Budget Reconciliation Act of 1985 (Public Law 99-272) Section 18003 amended the Small Business Act to require the Secretary of Labor to reduce the population criteria for labor surplus areas from fifty-thousand to twenty-five thousand. Section 18003 of Public Law 99-272 became effective on July 7, 1986. The Department of Labor is in the process of implementing the new requirements of the Law but such dta did not exist for such areas on a monthly basis at the time Public Law 99-272 was enacted. Implementation has, therefore, been hampered while the data for hundreds of areas were being developed on a monthly basis going back to January 1984.

1418. AIRLINE DEREGULATION: EMPLOYEE BENEFIT PROGRAM

Significance: Agency Priority

Legal Authority: 49 USC 1552

CFR Citation: 20 CFR 638

Legal Deadline: None.

Abstract: These regulations are being developed to implement the benefit provisions contained in Sec. 43 of the Airline Deregulation Act of 1978. The Act requires the Secretary of Labor to specify the percentage of prior salary which an "eligible protected employee" would receive as a benefit payment under the Act. An eligible protected employee is a person who has had at least 4 years of employment with a certificated air carrier as of October 24, 1978 and who loses his or her job during the ten years following such date in a bankruptcy or major employment contraction if and only if the Department of Transportation determines that the principal causes of such job loss was deregulation. On May 17, 1984 the U.S. District Court for the District of Columbia held that Section 43 of the Airline Deregulation Act was unconstitutional. On July 16, 1985, the U.S. Court of Appeals decided that the employee protection provisions of Section 43 were severable from the legislative veto provisions. Therefore, although the U.S. Supreme Court has accepted the case for review, rulemaking can proceed on the monetary benefit aspects of the employee protection provisions.

Significance: Regulatory Program

Legal Authority: 26 USC 3302; 42 USC 1302; PL 97-35, Sec 2408

CFR Citation: 20 CFR 608

Legal Deadline: None.

Abstract: The Omnibus Budget Reconciliation Act of 1981 amended the tax credit provisions of FUTA to authorize the placing of a "cap" on reductions in tax credits on a State-by-State basis in certain prescribed circumstances. The amendment requires these determinations to be made in accordance with regulations prescribed by the Secretary of Labor. The same Act also amended Title XII of the Social Security Act to assess interest on advances to States, the payment of which is prohibited from State unemployment funds. The proposal would implement these statutory changes.

Abstract: This regulation sets out Reed Act requirements for States. It covers: restoration of Reed Act funds used to pay unemployment benefits; appropriation by the States and use of funds for administration; and disposition, reduced usage, and replacement of Reed Act-financed property. The regulation implements P.L. 97-248 and updates existing material issued as manuals. Alternatives being considered include: (1) Issuing a regulation, another type of directive, or nothing; (2) Limiting the scope of the regulation to areas involving compliance with Federal law or not limiting scope; and (3) which rules, if any, should be issued regarding the calculation of Reed Act balances, restorations of Reed Act funds, program income, and sales, other dispositions, and reduced usage of property acquired with Reed Act funds. Issuing a regulation will benefit grantees by reducing their uncertainty as to the applicable rules. No significant additional costs will result.

Legal Authority: PL 97-300 Wagner-Peyser Act as amended by the JTPA

CFR Citation: 20 CFR 652; 20 CFR 653

Legal Deadline: None.

Abstract: In September 1986, the Department of Labor announced in the Federal Register its review of the public employment service, raising the concern of the employment service capability to meet the current and future labor market needs, particularly the labor market needs that will emerge in the year 2000. The announcement provided the public an opportunity to respond either orally at public meetings held in October, 1986 or in writing directly to the Department. The announcement described the concern of the questions concerning the purpose and role of the employment service. An analysis of the public response to the announcement, as well as other data available to the Department from other research, studies, and papers provides the basis for the Department to propose a refocus of the employment service to address current and emerging labor force trends. Regulations maybe proposed to the extent needed, to either implement any new legislation that may emerge or to achieve the new direction.

Significance: Regulatory Program

Legal Authority: 8 USC 1182(a)(14)

CFR Citation: 20 CFR 656

Legal Deadline: None.

Abstract: Physicians are currently on the Department's Schedule A precertification list if they are to be employed in a designated Health Manpower Shortage Area (HMSA) or an area which has an insufficient number of physicians as designated by the Public Health Service (PHS). The PHS has recommended removal of physicians from Schedule A, or in the alternative leave only those physicians on Schedule A that are to be employed in the HMSA's. According to the PHS: (1) neither Congress nor the Department of Health and Human Services recognizes the existence of a national shortage of physicians; (2) alien physicians after they are certified do not go to the HMSA's or the area with an insufficient number of physicians, or if they do go to these areas they leave shortly after starting work. Thus, the labor certification program has not had a significant effect in alleviating the shortage of physicians in the HMSA's or in the areas with an insufficient number of physicians. Consequently, ETA proposes to remove all physicians from Schedule A.

1432. ADMINISTRATIVE PROCEDURE

Significance: Agency Priority

Legal Authority: 42 USC 1302

Abstract: The regulation will provide States with administrative appeal rights before the Office of Administrative Law Judges for final determinations disallowing costs or imposing corrective actions as a result of all audits in the Federal-State unemployment compensation program and related Federal unemployment benefit and allowance programs. Currently, no such appeal rights exist and if a State seeks review of one of the above actions the only appeal forum is the Federal Court. Provision of these appeal rights before the Office of Administrative Law Judges should reduce the workload of the Federal Court system and allow the Department of Labor to adjudicate the issues in a more informal setting with the Administrative Law Judges, who are more accustomed to dealing with the particular issues involved. The regulation will also correct what is perceived as an inequity, since most Employment and Training Administration programs have administrative appeal rights.

Abstract: Governors are responsible for resolving audits of their JTPA subgrantees and subcontractors. Current ETA policy requires federal review and approval of these resolutions only in cases of fraud, gross mismanagement and abuse. More routine audit resolutions are only reviewed on a sample basis during onsite compliance reviews. However, a recent legal opinion stated that the JTPA regulations as presently written could be construed as requiring federal review and approval of all Governors' audit resolutions. Significance: Regulatory Program

Legal Deadline: None.

Abstract: Currently the Department of Labor only classifies civil jurisdictions (counties, cities over 50,000 population as well as townships and towns in certain selected States) as labor surplus areas. This policy has resulted in some employment centers in the nation's large metropolitan areas not being classified as labor surplus areas, even though the entire Metropolitan Statistical Areas or Primary Metropolitan Statistical Areas would meet the labor surplus area criteria if such geographic areas were classified. The proposed rule would grant the Assistant Secretary for Employment and Training the authority to classify Metropolitan Statistical Areas and Primary Metropolitan Statistical Areas as labor surplus areas to help alleviate unemployment in these areas. The change will add some additional labor surplus areas to the current list but it will not increase the funds going to such designated areas.

1438. TRADE ADJUSTMENT ASSISTANCE FOR WORKERS

Significance: Regulatory Program

Legal Authority: 19 USC 2320

CFR Citation: 20 CFR 617

Legal Deadline: None.

Abstract: These regulations would implement the 1981 and 1983 amendments to the Trade Act of 1974. The Trade Adjustment Assistance program provides adjustment assistance in the form of reemployment services, training, job search, relocation allowances, and cash benefits (adjustment assistance) to workers whose unemployment is linked to increased imports of foreign-made products. The amendments represent a fundamental shift in program emphasis from income maintenance to placement and employment services and benefits such as training, job search and relocation. The 1981 amendments are designed to assure that adjustment assistance and reemployment services are more appropriately targeted to trade impacted workers with emphasis placed on their return to work. The 1983 amendments extended the program to September 30, 1985. The 1984 amendments to the program are not included in these regulations but will be issued separately.

1440. TRADE ADJUSTMENT ASSISTANCE FOR WORKERS

Significance: Regulatory Program

Legal Authority: 19 USC 2320

CFR Citation: 20 CFR 617

Abstract: This regulation would implement provisions of the Deficit Reduction Act of 1984 amending the Trade Act of 1974. The legislation amends Section 233(a)(3), to enable workers to collect the extra 26 weeks of Trade Adjustment Assistance (TRA) beginning with the first week the worker enters training if the training has not been approved until after the last week of entitlement to basic TRA. It also amends Sections 237 and 238 of the Trade Act to increase the maximum job search allowance to $800 (from $600) and the maximum lump-sum relocation allowance to $800 (from $600).(Since the proposed rule is supplemental to proposed rule at 20 CFR Part 635, the actual date of issuance of this rule as a final rule is dependent upon publication as a final rule of the amendments to The Trade Act of 1974 in Title XXV of the Omnibus Budget Reconciliation Act of 1981 (Public Law 97-35).

Abstract: The regulation will provide Work Incentive Program grantees and contractors administrative appeal rights before the Office of Administrative Law Judges for the following: (1) an adjustment in payment; (2) termination of the contract or grant; (3) a final determination disapproving outstanding claims arising from terminations, disapproving unreimbursed costs, or rejecting the termination settlement proposal; (4) a final determination disallowing costs as a result of an audit; and (5) a final determination disallowing costs resulting from the closing out of the grant/contract. Currently, no such rights exists and a grantee/contractor's only appeal forum is Federal Court. Provision of these hearing rights should reduce the workload of the Federal Court system and allow the Department of Labor to adjudicate the issues in a more informal setting with Administrative Law Judges, who are more accustomed to dealing with the particular issues involved. The regulations will also correct a perceived inequity since most Employment and Training Administration programs have administrative appeal rights.

1461. DIESEL-POWERED EQUIPMENT FOR UNDERGROUND COAL MINES

Significance: Regulatory Program

Legal Authority: 30 USC 811; 30 USC 957

CFR Citation: 30 CFR 7; 30 CFR 70; 30 CFR 75

Legal Deadline: None.

Abstract: The atmosphere of underground coal mines contains methane gas which can quickly accumulate in explosive concentrations. To protect against gas ignitions and mines explosions, the Federal Mine Safety and Health Act of 1977 requires that electric mining equipment be built in accordance with certain performance standards. To administer these requirements, MSHA has established a mining equipment approval program, including evaluation criteria, and corresponding safety standards requiring the use of approved equipment. Existing approval regulations do not generally apply to the diesel equipment now being used in underground coal mines. The new regulations would update Agency approval criteria for diesel equipment, with an emphasis on performance-oriented standards. The Agency is also reevaluating the appropriateness of initiating an advisory committee.

1462. SURFACE COAL MINE ELECTRICAL STANDARDS

Significance: Regulatory Program

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 77.500; 30 CFR 77.600; 30 CFR 77.700; 30 CFR 77.800; 30 CFR 77.900; 30 CFR 77.1000; 30 CFR 77.1800

Legal Deadline: None.

Abstract: Existing electrical standards for surface coal mines would be substantially reorganized, clarified, and updated. General incorporations by reference of the National Electric Code would be eliminated and replaced with standards applicable to surface coal mining operations. The Agency is also currently developing a proposed rule for its underground electrical standards. Because of the common issues, the status of this rulemaking is, in part, contingent upon revisions now being developed for the underground proposal. A draft of the surface electrical standards is expected to be available in November 1987.

Significance: Regulatory Program

Legal Authority: 30 USC 957; 30 USC 813(d)

CFR Citation: 30 CFR 50

Legal Deadline: None.

Abstract: In response to concerns raised by members of Congress and the mining community about the nature and accuracy of existing reporting obligations, MSHA established an intra-agency task force to review its requirements for reports of accidents, injuries and illnesses in coal and metal and nonmetal mines. The task force submitted its report in February 1986 and recommended that the Agency pursue a non-regulatory approach in taking corrective actions. The Agency has adopted this recommendation and focused on several aspects of the reporting requirements including the definition of an occupational injury or illness, and an expanded audit program. In December 1986, MSHA issued Program Information Bulletin No. 86-6C and 86-3M on this subject to the mining community. The Agency will review the results of its efforts in order to evaluate whether the goal of accurate and reliable reporting has been effectively achieved. Should the Agency find that there is a need to further revise the reporting system through rulemaking, it is prepared to do so.

Abstract: As a result of certain court decisions and previous efforts at rulemaking, MSHA withdrew its 1980 proposal and issued an ANPRM which outlined new procedures for implementing the statutory provision for pattern of violations. Commenters to the ANPRM raised several critical issues, and MSHA subsequently reevaluated its approach for various aspects of the proposed rule which is

scheduled for publication in May 1987. The proposal will contain a meaningful procedure and appropriate criteria for identifying operators who are potential pattern violators.

Abstract: The Agency is developing a NPRM which would replace an incorporation by reference with updated permissible exposure limits which are specifically applicable to the hazards encountered in metal and nonmetal mining. The proposal would solicit comment on which means of control would provide the necessary protection from airborne contaminants. Standards for use of respiratory protective equipment would replace an outdated incorporation by reference. Other issues being considered are: requirements for exposure monitoring and precautions for handling restricted-use chemicals; notification of workers of overexposures, and access to exposure records. The Department is in the process of developing a uniform policy on air quality in the work place. The Agency anticipates publishing a proposal in August 1987.

1473. APPROVAL CRITERIA FOR RESPIRATORY PROTECTIVE DEVICES

Significance: Regulatory Program

Legal Authority: 30 USC 957

CFR Citation: 30 CFR 11

Abstract: Under the 1977 Mine Act, MSHA and the National Institute for Occupational Safety and Health (NIOSH) jointly approve respirators for use in hazardous atmospheres. New technology has been developed which has not been accommodated by the existing regulations. In addition, questions have been raised about laboratory testing and field performance of respirators. MSHA has reexamined its role in the joint approval process and will also consider replacing federal testing with private-sector testing according to federal specifications. Actual approval authority along with a mechanism for post-approval audits would continue to remain with the government.
The decision has been made for NIOSH to have the lead in approval of respirators. MSHA will be involved with these devices which are uniquely adapted or required for mining. The Agency's next step will be based on this decision.

1480. UPDATING FEES ASSOCIATED WITH EQUIPMENT APPROVALS

Significance: Regulatory Program

Legal Authority: 30 USC 957

CFR Citation: 30 CFR 11 to 36

Legal Deadline: None.

Abstract: By regulation, MSHA tests certain types of equipment submitted by manufacturers prior to the issuance of an Agency approval. A fee is charged for this service. Since most of the existing approval requirements have not been revised for nearly 20 years, fees do not reflect current charges to the government related to the approval process. MSHA's final rule establishes the general criteria to be used in determining costs to the government. These criteria will be used to compute fees, on an annual basis, so that fees will be current and relevant. The computation criteria will be published in the Federal Register. Fee schedules will be made available to manufacturers of an annual basis.

Abstract: Pursuant to the 1978 Amendments to Section 504 of the Rehabilitation Act of 1973, this final rule prohibits discrimination in all Department of Labor programs and activities requiring, among other things, that programs and activities when viewed in their entirety be readily accessible to the handicapped. That is to say, persons with handicaps, who are eligible for and who can achieve the purpose of a federally- conducted program or activity would be allowed access to that program or activity. In addition, the Department would also be required to ensure effective communications with applicants, participants, employees, other Federal personnel and members of the public. The rule provides, however, that the Department is not required to take actions which it can demonstrate would result in a fundamental alteration in the nature of a programs or activity or in undue financial and administrative burdens.

Abstract: 4,4'-Methylenedianiline (MDA) is a chemical used primarily to manufacture methylenediphenyl diisocyanate, which is used to make polyurethane foams and elastomers. Recent scientific data indicate that MDA is a carcinogen in animals and a potential carcinogen in humans. In 1983, OSHA and the Environmental Protection Agency participated in a joint effort to publish an advance notice of proposed rulemaking to solicit information on MDA production and use, estimates of environmental and occupational exposure, and studies of its toxic and carcinogenic effects. EPA has evaluated the data received in response to the advance notice and has concluded that the chemical presents an unreasonable risk of injury to the health of exposed workers. Under the provisions of section 9(a) of the Toxic Substances Control Act, EPA referred MDA to OSHA for action, giving OSHA until 2/20/86 to respond. OSHA responded to the EPA referral on 2/26/86. OSHA has established a mediated rulemaking advisory committee to assist the agency in developing a proposed standard. The committee expects to complete its work in April 1987. OSHA has agreed to publish the Committee's recommendations (cont)

Abstract: On May 20, 1986, the Environmental Protection Agency (EPA) issued a report to OSHA, under Section 9(a) of the Toxic Substances Control Act, stating that EPA has reasonable basis to conclude that the risk of injury to worker health from exposure to four glycol ethers during their manufacture, processing and use is unreasonable, and that this risk may be prevented of reduced to a significant extent by OSHA regulatory action. EPA gave OSHA 180 days in which to respond to its report. OSHA published its response on December 11, 1986, stating that OSHA had preliminarily concluded that occupational exposures to the subject glycol ethers at the current OSHA permissible exposure limits may present significant risks to the health of workers. OSHA announced that it would begin rulemaking proceedings for these chemicals.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: Not yet determined

Abstract: The Nation's number one injury problem is back injuries. These injuries account for one of five compensation claims and one of four dollars expended for compensation. The purpose of the proposed request for comments and information is to enable OSHA to determine a course of action--possibly either formal rulemaking or informal guidance-aimed at reducing the number of back-related injuries which result from improper manual lifting. The request will identify a number of approaches to improving manual lifting, and invite public comments and suggestions. Specific engineering and administrative controls should reduce the pain, suffering, and lost time of the workforce as well as reduce the associated economic costs.

Significance: Regulatory Program

Abstract: Existing OSHA standards are designed to protect employees who are engaged in work involving exposure to only a few toxic chemicals during relatively standardized, continuous or

repetitive processes. In contrast, laboratory workers are exposed to a multitude of toxic substances under frequently changing or unpredictable conditions. During this rulemaking, OSHA will examine whether prudent work practices and protective equipment, chosen for the specific facility and task, are more effective, feasible and economical for laboratory work than adhering to OSHA's current substance-specific standards. Accordingly, OSHA has proposed a special performance-oriented work practices standard that, if promulgated, would apply to laboratory workers and would contain provisions specifically designed for laboratory conditions.

Significance: Regulatory Program

Legal Authority: 29 USC 653; 29 USC 655; 29 USC 657

Abstract: The Carcinogen Policy describes the criteria and procedures OSHA will use to identify, classify, and then regulate carcinogens. The Policy also establishes a process for screening chemicals and for setting priorities for potential rulemaking activities. The Carcinogen Policy explicitly recognizes that periodic revisions are necessary in order to incorporate the latest scientific advances and techniques into the regulatory process. Hence, given the very rapid advances since 1980 in the understanding of the mechanisms of carcinogenesis, it is time for OSHA to review and modernize the Carcinogen Policy. The original standard was issued in 1980 before the Supreme Court "benzene" decision on significant risk. Thereafter, a final rule deleting provisions of the Carcinogen Policy that were inconsistent with the benzene decision was published on 1/19/81 (46 FR 4889). A proposal was published on 1/23/81 (46 FR 7402) to permit alternatives to the risk analysis section of the carcinogen policy to be addressed. The proposal was withdrawn on 3/27/81 (46 FR 19000). An advance notice of proposed rulemaking was published on 1/5/82 (47 FR 187) with comments due by 4/5/82. That document (cont)

Abstract: Following several years of rulemaking proceedings, OSHA, on June 20, 1986, published a revised final standard governing occupational exposure to asbestos, tremolite, anthophyllite and actinolite in general industry and a new standard covering these substances in the construction industry. Since the standards' issuance, OSHA has received letters and petitions containing additional comments and information which the rulemaking record may not fully reflect. These comments concern the appropriateness of regulating non-asbestiform tremolite, anthophyllite and actinolite as presenting the same occupational health risk as asbestos. In order to assure that these submissions are fully considered, and to permit public comment on relevant issues, OSHA has granted a temporary stay of the effective date of the revised standards insofar as they apply to non-asbestiform tremolite, anthophyllite and actinolite. The stay is effective from July 21, 1986, to April 21, 1987. During this period, OSHA will reopen the rulemaking record for the purpose of reconsidering the issue of whether non-asbestiform tremolite, anthophyllite and actinolite should continue to be regulated as presenting the (Cont'd)

Abstract: OSHA's policy concerning the use of engineering controls and respirators was targeted for review by the President's Task Force on Regulatory Relief in 1981. Current OSHA regulations require that employers implement feasible engineering controls to maintain air contaminant concentrations in the workplace at or below the prescribed permissible exposure limits. The use of respirators is permitted only in those cases where engineering controls are not feasible, not yet installed, or not adequate. This policy has been criticized as being inflexible, not cost-effective, and often unnecessary for employee health protection. OSHA believes that any changes to the policy for use of engineering controls must be closely coordinated with revisions in the respiratory protection regulations (29 CFR 1910.134). This rulemaking does not address the assessment and reduction of any absolute existing risks, but rather addresses the possible change in risk abatement associated with the use of respirators instead of engineering controls.

Abstract: The present Subpart H, Hazardous Materials, standard is out of date and in some respects is oriented towards public safety and property protection. OSHA has been petitioned to cover many other hazardous materials operations where presently it has no standards. It is the purpose of this revision to consolidate the existing standards for flammable and compressed gases by providing general requirements and specific requirements for selected gases which warrant special attention due to their hazards and uses within the industrial environment. The overall intended effect of the revision is to update and simplify the existing requirements while enhancing employee safety and health.

1499. OIL AND GAS WELL DRILLING AND SERVICING (PART 1910)

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.270

Legal Deadline: None.

Abstract: Employees in oil and gas well drilling and servicing are exposed to a variety of safety hazards which are not specifically covered by present OSHA safety standards. It has proved difficult to apply the existing general industry standards to control the unique nature of this industry. OSHA is considering a standard which will address the unique problems of oil and gas well drilling and servicing.

Abstract: This rule prescribes and recommends the minimum measures to be taken to protect employees from injury during excavation work. A revision of the existing rule is being considered because trench and excavation sidewall failures that have resulted in death and injury to workers continue in significant numbers. Claims that the standards are ambiguous and too restrictive, especially with respect to the type of soil involved, have also been made.

1505. LOGGING (PART 1910)

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.266, (Revision)

Legal Deadline: None.

Abstract: Logging is a very hazardous industry. It has an incidence rate nearly twice that of manufacturing, and reflecting the seriousness of the injuries incurred, a lost workday rate nearly four times as high. The purpose of the standard will be to protect workers from the ever-present hazards of chain saw operation, falling objects (trees, branches), rolling or sliding logs, falls from trees, and materials handling accidents. At present there is no OSHA standard specifically applicable to logging in general. There is a standard, 29 CFR 1910.266, applicable only to pulpwood logging; however, pulpwood logging is estimated to account for less than half of the logging activity in the United States. Development of a national OSHA standard addressing all types of logging will provide coverage for those loggers not now protected. The new regulation will provide coverage where there is no approved state regulation and will set a minimum safety level for those states that chose to develop a state regulation.

1506. CONTROL OF HAZARDOUS ENERGY SOURCES (LOCKOUT/TAGOUT) (PART 1910)

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.147, (New)

Legal Deadline: None.

Abstract: The proposed standard will fill a major gap in our current regulations which now depend for enforcement on the general duty clause, 5(a)(1). It will apply to those situations where the unexpected energization, start up or the release of stored energy would cause injury to employees. Providing comprehensive and uniform control procedures is also expected to reduce significantly the potential for injury and death of employees because the hazards targeted for control exist in virtually every workplace. Further, the proposed standard will respond to the concerns of organized labor who petitioned OSHA in 1979 and again in 1982 for regulatory action to protect employees and to the American National Standards Institute's petition for OSHA to adopt its consensus standard ANSI Z244.1-1982. Regulatory options involve developing a comprehensive standard covering all potentially hazardous energy sources or limiting the scope and application to those certain machines or industries that are causing most of the injuries.

CFR Citation: 29 CFR 1910.16; 29 CFR 1918, (Revision)

Legal Deadline: None.

Abstract: The purpose of this regulatory action would be to update and revise a standard first issued in 1960. The current language in many instances addresses the hazards to cargo handling involving methods long since abandoned, and fails to address the serious hazards of newer methods. Because so much of the current standard is out of date, compliance is minimal. These revised guidelines will provide both employers and employees with a blueprint for effective and safe workpractices in the cargo handling industry. No alternative other than revision is contemplated. The current standard is too outdated to serve as a basis for increased consultation, training or education. The annual cost of the revision is expected to be minimal -- less than five million dollars.

Significance: Regulatory Program

Abstract: A major area of coverage not addressed in the current OSHA electrical standards for general industry (29 CFR 1910) involves the maintenance and operation practices associated with electrical transmission and distribution lines, substations and generating stations. It is intended that the proposed standard fill this void by establishing minimum requirements for electrical safety work practices for employees working on or near facilities whose purpose is the generation and distribution of electricity.

Abstract: On October 10, 1985, EPA referred 1,3-butadiene (BD) to OSHA for possible regulatory action under section 9(a) of the Toxic Substance Control Act. On April 11, 1986, OSHA responded to the EPA referral indicating that the Agency has preliminarily concluded that BD poses risk to the occupationally exposed population at the current OSHA permissible exposure limit and that the risk can be reduced or prevented through the promulgation of a revised standard. Legal Deadline: None.

Abstract: This regulatory action will revise the existing shipyard standard covering explosive and other dangerous atmospheres. This revision will develop, in part, a performance-oriented standard, address any gaps in coverage, recognize new technology, and eliminate outmoded or redundant standards. It will consolidate 29 CFR 1915 standards and applicable 29 CFR 1910 standards into one set of provisions.

Significance: Regulatory Program

Legal Authority: 29 USC 655; 29 USC 657

CFR Citation: 29 CFR 1910.1000

Legal Deadline: None.

Abstract: In July 1985, OSHA was petitioned by the United Automobile, Aerospace and Agricultural Implement Workers of America (UAW) to issue a hazard alert; issue an emergency temporary standard; and to begin work on a new permanent standard for methylene chloride (DCM). This request was based on information obtained from the Environmental Protection Agency and the National Toxicology Program indicating that DCM is an animal carcinogen and may have the potential to cause cancer in humans. In November 1986, OSHA notified the UAW that its petition has been granted,

in part, and denied, in part. Specifically, OSHA has issued a set of guidelines for controlling occupational exposure to DCM and has decided to proceed with rulemaking to develop a new permanent standard. OSHA denied that portion of the petition requesting the issuance of an emergency temporary standard.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b); 29 USC 657

CFR Citation: 29 CFR 1910.1200

Legal Deadline: None.

Abstract: On May 24, 1985, the U.S. Court of Appeals for the Third Circuit directed the Secretary of Labor to reconsider application of the Hazard Communication standard and to consider extending the application of the standard to employers in industries other than manufacturing unless he can state reasons why such application would not be feasible. Because the public rulemaking record for the Hazard Communication standard developed prior to OSHA's promulgation of the rule on November 23, 1983 does not contain sufficient information on industries other than those in the manufacturing sector, OSHA has initiated rulemaking action and related data-gathering activities to determine whether extension of the standard to cover other industry sectors is feasible.

Abstract: The purpose of this regulatory action is to revise three provisions in Part 1926, Construction Safety and Health Regulations, to allow employers to prepare a record to certify that regulatory requirements have been met instead of requiring employers to maintain extensive and burdensome records of the results and findings of various tests and inspections required in the standards. Abstract: Recent scientific studies have reported that ethylene dibromide causes cancer when administered orally, by inhalation and by skin application in laboratory animals. In addition, other studies have shown the chemical to be a mutagen, teratogen and testicular toxin in experimental animals. On the basis of these reports, OSHA has determined that its current permissible exposure limit of 20 ppm does not provide exposed workers adequate protection against cancer and other adverse health effects. A proposed standard for ethylene dibromide was published 10/07/83 (43 FR 45956). Public hearings were held in February 1984. OSHA is currently in the process of decisionmaking on the provisions to be included in the final standard.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b); 29 USC 657

Abstract: The regulation, promulgated in May, 1980 (45 FR 35212), requires employers to preserve and maintain exposure and medical records pertinent to an employee's occupational exposure to toxic substances, and to assure access to these records by employees, designated employee representatives, and OSHA. OSHA has reviewed the regulation and has proposed certain modifications including revision of the definitions of "toxic substance" and "exposure records", changes in the scope and application of the regulation and additional trade secret protection provisions. OSHA is currently reviewing the information received and developing a final standard.

Abstract: One of the greatest hazards associated with concrete and masonry structures in the construction industry is the collapse or failure of the entire structure or its forms and shoring. The catastrophic failures of recent years indicate that revision of the existing standard applicable to such construction operations is necessary. The current concrete standard contains outdated referenced standards, gaps in coverage, redundant provisions, and provisions which may need clarification. The referenced standards are being updated and placed in the body of the standard. New standards are being added to cover precast concrete erection and masonry wall construction. The provisions that were identified as being redundant are being removed and the ambiguous provisions are being clarified.

Abstract: Hazards associated with fires and explosions in grain handling facilities have existed for many years. These hazards continue to exist, and pose a risk of harm to employees working in these facilities. Based on an extensive rulemaking record resulting from a proposed standard for grain handling facilities, OSHA is developing a final rule to mitigate the hazards associated with these facilities. OSHA is carefully considering the record to assure that the scope, application and other provisions of the standard appropriately address the hazards.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.66

Legal Deadline: None.

Abstract: The present standard, which requires positive engagement of a powered platform with a building face to provide stabilization, may need to be revised because many variance designs have been submitted which do not provide positive engagement of the platform, yet claim equal stability. The agency believes there may be merit to this claim. The proposal provides flexibility in compliance through performance-oriented provisions as alternatives to positive engagement. It would also expand the scope of the current standard to include requirements covering additional suspension equipment, fall protection, and employee training.

CFR Citation: 29 CFR 1907, (Revision); 29 CFR 1910, (Revision); 29 CFR 1935, (New); 29 CFR 1936, (New)

Legal Deadline: Judicial, March 30, 1985. Deadline established pursuant to settlement agreement with MET Electrical Testing Company, Inc.

Abstract: This proposal addresses various requirements in the General Industry standards (Part 1910) for either "safety testing" of certain workplace equipment and materials or the use of equipment/materials "certified for safety." It would include many self-regulatory and standards-developing efforts in the private sector and use already existing systems (in private sector or Government) for (1) the accreditation of testing laboratories and third-party certification programs, and (2) the certification for safety of workplace equipment. New Part 1936 would affect only applicants seeking system recognition by OSHA. New Part 1935 would contain those test methods/procedures already specified in OSHA standards or adopted through 6(b) rulemaking. Amended Part 1910 would (1) clarify employer responsibilities, (2) require valid test results or certifications, and (3) provide uniformity in OSHA terminology for several already-existing requirements and definitions. The remainder of Part 1907 would be revoked.

Abstract: The use of cranes and derricks to suspend personnel in platforms is a hazardous operation that is not currently covered by OSHA Construction Standards. OSHA has issued administrative instructions on this practice, but this alternative to rulemaking has not been successful. This NPRM has been developed to reduce the number of accidents, many of which involve multiple fatalities, that result from equipment inadequacies and failures or improper work practices.

Data to determine the potential costs and benefits from this rulemaking are currently being evaluated by OSHA's Office of Regulatory Analysis.

Abstract: OSHA has proposed to amend the existing standard for occupational exposure to benzene by reducing the permissible exposure limit from 10 parts benzene per million parts of air (10 ppm) to an eight-hour time-weighted average of 1 ppm and by adding appropriate industrial hygiene and medical surveillance provisions necessary for the protection of employee health. This action is based on OSHA's preliminary determination that the proposed standard is needed to reduce the risk of leukemia and other adverse health consequences of exposure to benzene. The D.C. Abstract: This regulatory action will remove an existing provision which prohibits presence sensing device initiation of mechanical power presses, and will add provisions which will enable the presence sensing device initiation to be done safely. Presence sensing device initiation has been identified as presenting potential increases in safety and productivity with an ergonomic advantage of less worker fatigue. A preliminary regulatory impact analysis has been completed. It is estimated that the discounted savings over the first 10 years the standard will be in effect will be approximately $535 million.

1541. STAIRWAYS AND LADDERS (PART 1926)

Significance: Regulatory Program

Legal Authority: 29 USC 655(b); 40 USC 333

CFR Citation: 29 CFR 1926.450; 29 CFR 1926.452; 29 CFR 1926.501; 29 CFR 1926.502; 29 CFR 1926.1050; 29 CFR 1926.1051

Legal Deadline: None.

Abstract: The existing standard is being proposed for revision because it contains references to non-government voluntary regulations by topic. The proposal raises several significant issues including: (1) what is the appropriate height limit where the use of ladders as a means of access should be required, and (2) what are appropriate field tests for determining ladder strength. Significance: Regulatory Program

Legal Authority: 33 USC 941; 29 USC 655

CFR Citation: 29 CFR 1917.44(o) (Revision)

Legal Deadline: None.

Abstract: OSHA intends to revise 1917.44(o) to include the servicing of single piece rim wheels. When the general industry rule for single piece rim wheels was issued (02/03/84), the Agency spoke of its desire to extend the same type of coverage to the maritime industry. The Agency has been petitioned by maritime labor and management groups to initiate this action.

CFR Citation: 29 CFR 1910.1000; 29 CFR 1910.1048; 29 CFR 1910.19

Legal Deadline: None. There is currently no applicable legal deadline. However, OSHA has submitted documents to the U.S. Court of Appeals for the District of Columbia Circuit indicating its intention to complete this regulatory action in September 1987.

Abstract: Studies indicate adverse health effects in humans and animals exposed to airborne formaldehyde at concentrations permitted by OSHA's present standard. In humans, formaldehyde causes reversible sensory irritation of the eyes, nose, and throat of some persons at concentrations of about 1 ppm. As concentration increases, the prevalence and severity of effects increase. A chronic study in animals suggests that formaldehyde may also pose a carcinogenic risk since a statistically significant excess risk of cancer occurred at 5.6 and 14.3 ppm, and benign tumors and cytotoxic changes occurred at 2 ppm. This information indicates that the present OSHA standard for formaldehyde may need revision. On December 10, 1985, OSHA published a proposed standard. Public hearings were held in May 1985. OSHA is currently in the process of decisionmaking on the provisions to be included in the final standard.

CFR Citation: 29 CFR 1915.97, (Revision)

Legal Deadline: None.

Abstract: As the shipbuilding and ship repairing industries (SIC 37) are covered under the scope of the Hazard Communication Standard (29 CFR 1910.1200), duplication of regulations exist due to similar requirements in Section 1915.97 dealing with informing employees about hazardous materials. This action would eliminate this duplication in the shipbuilding and ship repairing industries by deleting from 29 CFR 1915.97 those regulations (paragraphs (a), (b) and (c) of section 1915.97) dealing with hazard communication and referencing the Hazard Communication Standard. Shipbreaking, (SIC 44), would remain under the coverage of coverage of section 1915.97(a), (b) and (d). The mandatory use of the OSHA Form 20 (MSDS), currently required by section 1915.97 (c), would be eliminated for all three shipyard industries.

1546. ESTABLISHMENT OF REGISTRY IN STATE DEPARTMENT FOR INFORMATION ABOUT EXECUTION OF INTERNATIONAL WILLS

Legal Authority: Eventual U.S. ratification of 1973 Convention; Providing a Uniform Law on the Form of an International Will; will provide basis for establishing Registry

CFR Citation: 22 CFR 92.81(3), amendment to

Legal Deadline: None.

Abstract: By resolution of the international diplomatic conference that adopted the final text of the Convention (see 3, above), there was a recommendation that States establish an internal system to permit the optional registration of information to facilitate the discovery of international wills. The President transmitted the Convention to the Senate on July 2, 1986 with the recommendation that the Senate give its advice and consent to U.S. ratification of the Convention, and information about the intention to establish the Registry in the Department of State (Senate Treaty Doc. 99-29).

Significance: Regulatory Program

Legal Authority: 22 USC 4301 et seq; 22 USC 254(e)

CFR Citation: 22 CFR 151

Abstract: The Foreign Missions Act creates certain authorities for the

STATE **Proposed Rule Stage**

Secretary of State relating to the regulation of foreign missions, diplomatic, consular, and international organizations. Exercise of those authorities could involve restricting or controlling the access of such missions to American vendors of goods and services. Exercise of other authorities in the Foreign Missions Act could affect the location of premises of foreign missions. Exercise of authority in the Diplomatic Relations Act, 22 USC 254(a) et seq., as amended by Title VI of P.L. 98-164, will have an impact on the acquisition of liability insurance coverage for the operation of motor vehicles, vessels, and aircraft by personnel of foreign missions, and could in certain situations, subject foreign missions to surcharges or fees. The regulations under consideration would provide procedures for exercise of these authorities. These regulations are at the stage of preliminary consideration. No timetable has been established other than that established in Title VI of P.L. 98-164.

Significance: Regulatory Program

Legal Authority: None, until ratification of treaty.

CFR Citation: 22 CFR Not yet determined

Legal Deadline: None.

Abstract: The 1980 Hague Convention provides for the prompt return of children habitually resident in one contracting State who have been wrongfully abducted to another, including wrongful retention by a non-custodial parent. When the United States ratifies the Convention and Congress enacts the federal legislation, the Bureau of Consular Affairs will be tasked by executive order to serve as U.S. Central Authority (CA) under the Convention. Thus it will receive applications for the return of children wrongfully abducted to or retained in the United States. In conjunction with cooperating authorities in the U.S. State where the child is believed to be located, the CA's task will include seeking to locate the child, facilitating the initiation of a court action to require the child's return, arranging for the provision of information about the child's circumstances in the country of its habitual residence, and arranging for the child's return transportation if return is ordered. The President transmitted the convention for advice and consent to ratification by the Senate on October 30, 1985 (Senate Treaty Doc. 99-11). The Senate gave its advice and consent on October 9, 1986.

Legal Authority: 5 USC 301; 22 USC 2658; 40 USC 486(c)

CFR Citation: 48 CFR 601 to 653, (New)

Legal Deadline: None.

Abstract: The Department of State is publishing the Department of State Acquisition Regulation (DOSAR) as part of the Federal Acquisition Regulations System, which consists of the Federal Acquisition Regulation (FAR) and agency acquisition regulations that implement or supplement the FAR. This action is necessary to provide regulatory guidelines not otherwise found in the FAR for Department of State acquisitions. There are no other alternatives for addressing the problem; the DOSAR must be established in accordance with FAR Subpart 1.3. By this action, the Department of State will establish a single regulation for its acquisition policies, procedures, contract clauses, solicitation procedures, and forms that govern its relationship with its contractors and prospective contractors.

1553. GUIDELINES FOR EXTRAORDINARY PROTECTION OF FOREIGN MISSIONS

Significance: Agency Priority

Legal Authority: 22 USC 4314; PL 99-93, Sec 126

CFR Citation: 22 CFR 2(a)

Legal Deadline: None.

Abstract: In some cases where the Secretary of State has requested extraordinary protective services, such as fixed guardposts at a building or residence, or dedicated bodyguard protection for a foreign official who has been specifically threatened, some local authorities have had difficulty in providing protection.

Through the Foreign Missions Act and the Foreign Missions Act Amendments of 1985, Congress has authorized the Secretary of State to provide, among other benefits, protective services to foreign missions. Thus, the Secretary may arrange with State and local authorities for extraordinary protection for foreign officials where necessary, either by request of local authorities or on the Secretary's initiative.

For fiscal year 1986, $2.5 million was provided in addition to amounts for reimbursement to New York, a program previously administered by the Treasury Department.

Department Regulations Agenda; Semiannual Summary

AGENCY: Department of Transportation.

ACTION: Department regulations agenda.

SUMMARY: The Regulations Agenda is a semiannual summary of all current and projected rulemakings, reviews of existing regulations and completed actions of the Department. These are matters on which action has begun or is projected during the succeeding twelve months or such longer period as may be anticipated, or for which action has been completed since the last agenda. The agenda provides the public with information about the Department of Transportation's regulatory activity. It is expected that this information will enable the public to be more aware of, and allow it to more effectively participate in, the Department's regulatory activity.

ADDRESSES: The mailing address for the initiating offices of the Department which appear in the agenda is 400 Seventh Street, SW., Washington, DC 20590, except for the Federal Aviation Administration which is located at 800 Independence Avenue, SW., Washington, DC 20591; the U.S. Coast Guard, which is located at 2100 Second Street, SW., Washington, DC 20593; and the Saint Lawrence Seaway Development Corporation, which is located at 400 Seventh Street, SW., Room 5424, Washington, DC 20026-4090.

Agenda

Background

Improvement of government regulations is a prime goal of the Reagan Administration. There should be no more regulations than necessary, and those that are issued should be simpler, more comprehensible, and less burdensome. Regulations should not be issued without appropriate involvement of the public; once issued, they should be periodically reviewed and revised, as needed, to assure that they continue to meet the needs for which they originally were designed.

To help the Department of Transportation ("Department") achieve these goals, and in accordance with Executive Order 12291 ("Federal Regulation"; 46 FR 13193; February 19, 1981) and the Department's Regulatory Policies and Procedures (44 FR 11034; February 26, 1979), the Department prepares a semiannual Regulations Agenda for publication in the **Federal Register**. The agenda summarizes all current and projected rulemaking, reviews of existing regulations and completed actions of the Department. These are matters on which action has begun or is projected during the succeeding twelve months or such longer period as may be anticipated or for which action has been completed since the last agenda.

The agendas are based on reports submitted by the initiating offices in January and July each year. After these reports are consolidated for, and reviewed by, the Department Regulations Council, the Department's Regulations Agenda is prepared and published in the **Federal Register**. The Department's last agenda was published in the **Federal Register** on October 27, 1986 (51 FR 38613). The next one is scheduled for publication in the **Federal Register** in October, 1987.

Regulatory Flexibility Act

In 1980, Congress passed the Regulatory Flexibility Act (RFA), Pub. L. 96-354, which requires the designation of those regulations for which a Regulatory Flexibility Analysis will be prepared, i.e., those regulations that would have a significant economic impact on a substantial number of small entities. The heading "Small Entity" will indicate whether a Regulatory Flexibility Analysis is required by a "yes" or a "no." If a Regulatory Flexibility Analysis will be prepared for a particular rulemaking, that fact also will be noted under the heading "Analysis."

The RFA also requires that each year the Department publish a list of those regulations that have a significant economic impact on a substantial number of small entities and are to be reviewed under the Act during the succeeding twelve months. The agenda includes those regulations to be reviewed under the RFA or those for which review has been concluded since the last agenda. A "yes" or "no" will be found under the heading "small entity," for each such regulation. It should be noted, however, that after a preliminary assessment of the regulations listed for RFA review, it may be found that the regulations, in fact, do not have a significant economic impact on a substantial number of small entities and a full RFA review will be unnecessary.

Definitions

The agenda covers all rules and regulations of the Department, including

DOT

those that establish conditions for financial assistance. The following definitions are provided for ease in understanding the information in this document.

(1) *Initiating office* means an operating administration or other organizational element within the Department, the head of which is authorized by law or delegation to issue regulations or to formulate regulations for issuance by the Secretary.

(2) *Significant regulation* means a regulation that is not an emergency regulation and that in the judgment of the head of the initiating office, or the Secretary, or the Deputy Secretary

(a) Is a major regulation;

(b) Concerns a matter on which there is substantial public interest or controversy;

(c) Has a major impact on another operating administration or other parts of the Department or other Federal Agency;

(d) Has a substantial effect on State and local governments;

(e) Has a substantial impact on a major transportation safety problem;

(f) Initiates a substantial regulatory program or change in policy;

(g) Is substantially different from international requirements or standards; or

(h) Otherwise involves important Department policy.

(3) *Major regulation* means a significant regulation for which a Regulatory Impact Analysis is required to be prepared.

(4) *Emergency regulation* means (a) a regulation that, in the judgment of the head of the initiating office, circumstances require to be issued without notice and opportunity for public comment or made effective in less than 30 days after publication in the Federal Register; or (b) is governed by short-term statutory or judicial deadlines.

(5) *Nonsignificant regulation* means a regulation that, in the judgment of the head of the initiating office, is neither a significant nor an emergency regulation.

A preliminary and final Regulatory Impact Analysis is required for each proposed and final regulation, respectively, that

(1) Is likely to result in:

(a) An annual effect on the economy of $100 million or more;

(b) A major effect on the general economy in terms of costs, consumer prices, or production;

(c) A major increase in costs or prices for consumers; individual industries; Federal, State, or local government agencies; or geographic regions;

(d) Significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets; or

(2) The Secretary or head of the initiating office determines requires such an analysis.

Explanation of Information on the Agenda

The format for this agenda is required by Office of Management and Budget Bulletin No. 86-16 (July 2, 1986).

First, the agenda is divided by initiating offices. Then, in accordance with the OMB Bulletin, for each initiating office the agenda is divided into four categories: (1) prerule stage, (2) proposed rule stage, (3) final rule stage, and (4) completed actions. For each entry, the agenda provides the following information: (1) the "significance" of the action (i.e., whether it is significant because it is on the Regulatory Program or because of agency priority; or whether it is nonsignificant or routine and frequent); (2) a short descriptive title; (3) the legal basis for the action being taken or the regulation being reviewed; (4) the related regulatory citation in the Code of Federal Regulations; (5) an indication of any legal deadline; (6) an abstract of the review or the proposed or final regulation; (7) a timetable, including the earliest expected date for a decision on whether to issue the proposed or final regulation, or complete the review and determine the corrective action to be taken. (The action taken can be revocation or revision of the regulation, or it can be a determination that no regulatory action is necessary because the regulation is found to be achieving its goals and the goals and objectives of Executive Order 12291 and the Department's Regulatory Policies and Procedures.); (8) a statement as to whether the Regulatory Flexibility Act applies because of the rulemaking's effect on small entities; (9) if there is information that does not fit in the other categories, it will be included under a separate heading, entitled "Additional Information"; (10) a listing, where determined, of any analyses an initiating office will prepare or has prepared for the rulemaking document; e.g., a Regulatory Impact Analysis or Evaluation, an Environmental Impact Statement (EIS), a Regulatory Flexibility Analysis, or an Urban Impact Analysis. (It should be noted that, even though a Regulatory Impact Analysis is not required for some items on the agenda, the Department requires an economic analysis for all of its regulations. This economic analysis is contained in the Regulatory Evaluation if a Regulatory Impact Analysis is not prepared); (11) an agency contact office or official who can provide further information, including advice on how to obtain documents referenced in the agenda; and (12) a "RIN" number assigned solely to identify an individual action in the agenda.

For nonsignificant regulations issued routinely and frequently as a part of an established body of technical requirements (such as the Federal Aviation Administration's Airspace Rules) to keep those requirements operationally current, only the general category of the regulations, the identity of a contact office or official, and an indication of the expected number of regulations are included; individual regulations are not listed.

If a regulatory docket number has already been established, it may be provided under the "Additional Information" heading. If a member of the public desires further information regarding a particular proposal or regulation, reference should be made to this docket number.

In the "Timetable" column, abbreviations are used to indicate the particular documents being considered for issuance by that date. ANPRM stands for Advance Notice of Proposed Rulemaking, SNPRM for Supplemental Notice of Proposed Rulemaking, NPRM for Notice of Proposed Rulemaking, and FR for Final Rule. Listing a future date in this column is not an indication that a proposed or a final rule will be issued on that date; it is the earliest date on which a decision is expected to be made on whether to issue the document listed. Submittal of any proposed or final rule to the Office of Management and Budget for review, under Executive Order 12291,

must follow such a decision. For major rules, this review could take 60 days or more. If any document is issued, publication in the **Federal Register** would follow within a few days. In addition, these dates are based on current schedules. Information received subsequent to the issuance of this agenda could result in a decision not to take regulatory action or in changes to proposed publication dates. For example, the need for further evaluation could result in a later publication date; evidence of a greater need for the regulation could result in an earlier publication date.

Finally, a dot (●) preceding an entry indicates that the entry appears in the agenda for the first time.

Mailing Lists for Regulatory Documents

To assist the public in obtaining regulatory documents issued within the Department of Transportation, an Appendix A has been included in this document. The appendix contains instructions on how to be placed on mailing lists for copies of regulatory documents, including the Department's Semiannual Regulations Agenda, issued by the operating administrations of the Department and the Office of the Secretary. There is no charge for this service; however, because of the costs involved, the number of copies of a document forwarded to an individual requestor may be limited. Persons already on mailing lists for particular documents within the Department will remain on those lists and should not reapply.

By following the instructions specified in the appendix, a person can be placed on a mailing list for future copies of the Department's Regulations Agenda, which will be updated and published in the **Federal Register** every year during April and October. By using the agenda, individuals can determine which Notice or Advance Notice of Proposed Rulemaking, to be issued by elements of the Department, is of interest to them. Then, using the instructions in the appendix, such persons also can be placed on a mailing list to ensure that, after the document of interest is issued, a copy will be mailed to them for their review and comment. In this way, individuals will be relieved of the burden of having to review the **Federal Register**, perhaps on a daily basis. The Department expects that this process will ensure that those people placed on mailing lists will receive early notice so that their views on the document can be adequately prepared and presented within the established comment period.

General Rulemaking Contact Persons

To assist persons desiring to obtain general information concerning the rulemaking process within the Department's operating administrations, an Appendix B has been added to the agenda. This appendix sets forth the addresses and the telephone numbers of the persons who can respond quickly to requests for general rulemaking information. Please note, however, that questions related to particular rulemaking actions should still be referred to the contact person listed with the particular rulemaking on the agenda.

Public Rulemaking Dockets

To facilitate the inspection of docket files and the submission of comments by the public, an Appendix C sets forth the addresses and working hours for the Rules Docket for each operating administration.

Request for Comments

Agenda

Our agenda is intended primarily for the use of the public. Since its inception, we have made modifications and refinements that we believe provide the public with more helpful information as well as make the agenda easier to use. We would also like you, the public, to make suggestions or comments on how the agenda could be further improved. For example, do you find the information presented in an easily understandable manner? Do you find it easy to follow a regulation's development from agenda to agenda? Do you find that the format for setting out the information enables you to use the agenda easily? Do you find that the explanation of the information in the agenda is clearly explained in the preamble to the agenda? Your responses to these questions or any other comments or suggestions you may have should be sent to Neil R. Eisner, whose address appears above.

Reviews

In an effort to comply further with the spirit of Executive Order 12291 and the Regulatory Flexibility Act, we are also seeking suggestions on existing regulations that should be included in our review of existing regulations list; that is, which existing regulations issued by an operating administration of the Department or the Office of the Secretary do you believe need to be reviewed to determine whether they should be revised or revoked? The Department is particularly interested in obtaining information on requirements that have a "significant economic impact on small entities" and therefore, must be reviewed under the Regulatory Flexibility Act. If you have any suggested regulations, please send them, along with your explanation of why they should be reviewed, to the concerned operating administration or the Office of the Secretary, at the appropriate address noted in the "Addresses" paragraph above.

In accordance with the Regulatory Flexibility Act, comments are specifically invited on regulations that are targeted for review under the RFA. Those comments should be addressed to the "contact" person of the operating administration involved, at the appropriate address noted in the "Addresses" paragraph above.

Purpose

The Department is publishing this Regulations Agenda in the **Federal Register** to share with interested members of the public the Department's preliminary expectations regarding its future regulatory actions. This should enable the public to be more aware of the Department's regulatory activity. Knowledge of the nature and scope of this activity, as well as the specific proposals and reviews being considered, should result in more effective public participation in the Department's regulatory activity. For example, awareness of the dates when notices may be issued seeking public comment should allow appropriate planning and more efficient use of the comment period. By providing the expected date for a decision on whether to issue a final rule, the Department expects that more appropriate planning by those concerned with the regulation will also be possible. This publication in the **Federal Register** does not impose any binding obligation on the Department, or any of the offices within the Department, with regard to any specific item on the agenda or the Review List. Regulatory action in addition to the items listed is not precluded. If further information is desired on any of the items listed in the agenda or the Review List, the public is encouraged to contact the individual listed for the particular item. Additional information concerning

the agenda, in general, or the Department's Regulatory Policies and Procedures may be obtained from Neil R. Eisner, whose address and telephone number appear above.

Issued in Washington, DC on March 12, 1987.

Elizabeth Hanford Dole,

Secretary of Transportation.

Appendix A - Instructions for Obtaining Copies of Regulatory Documents

United States Coast Guard (USCG)

Persons who desire to obtain a copy of any regulatory document to be issued by the USCG that is listed in this agenda should communicate with the contact person listed with the regulation either by telephone or by letter to the contact person at the following address: (Name of contact person), United States Coast Guard, 2100 Second Street, SW., Washington, DC 20593.

Federal Aviation Administration (FAA)

The FAA has a mailing list system for Notices and Advance Notices of Proposed Rulemaking (NPRMs and ANPRMs). Persons interested in obtaining future copies of all of those documents to be issued by the FAA or only of those concerning certain parts of the Federal Aviation Regulations should request a copy of Advisory Circular No. 11-2, which describes the application procedure, by calling 202-267-3479 or by writing to: Federal Aviation Administration, Office of Public Affairs. Attention: Public Information Center, APA-200, 800 Independence Avenue, SW., Washington, DC 20591.

Federal Highway Administration (FHWA)

The FHWA has in the past maintained a consumer mailing list for individuals and agencies wishing to routinely receive Federal-aid highway related rulemaking actions. Due to staff and budgetary constraints, it has become necessary to discontinue the availability of this service.

Persons who desire to obtain a copy of any regulatory document to be issued by the FHWA that is listed in this agenda should communicate with the contact person listed with the regulation either by telephone or by letter to the contact person at the following address: (Name of contact person), Federal Highway Administration, 400 7th Street, SW., Washington, DC 20590.

Federal Railroad Administration (FRA)

Persons who desire to obtain a copy of any regulatory document to be issued by the FRA that is listed in this agenda should communicate with the contact person listed with the regulation either by telephone or by letter to the contact person at the following address: (Name of contact person), Federal Railroad Administration, 400 7th Street, SW., Washington, DC 20590.

National Highway Traffic Safety Administration (NHTSA)

Persons who desire to obtain a copy of any regulatory document to be issued by the NHTSA that is listed in this agenda should communicate with the contact person listed with the regulation either by telephone or by letter to the contact person at the following address: (Name of contact person), National Highway Traffic Safety Administration, 400 7th Street, SW., Washington, DC 20590.

Urban Mass Transportation Administration (UMTA)

Persons who desire to obtain a copy of any regulatory document to be issued by UMTA that is listed in this agenda should communicate with the contact person listed with the regulation either by telephone or by letter to the contact person at the following address: (Name of contact person), Urban Mass Transit Administration, 400 7th Street, SW., Washington, DC 20590.

Saint Lawrence Seaway Development Corporation (SLSDC)

Persons who desire to obtain a copy of any regulatory document to be issued by SLSDC that is listed in this agenda should communicate with the contact person listed with the regulation either by telephone or by letter to the contact person at the address specified below: (Name of contact person), Saint Lawrence Seaway Development Corporation, 400 7th Street, SW., Room 5424, Washington, DC 20590.

Research and Special Programs Administration (RSPA)

Persons wishing to be placed on mailing lists for regulatory documents to be issued by RSPA should contact: Mr. David A. Watson, Training Unit, DHM-51, OHMT/RSPA, 400 7th Street, SW., Washington, DC 20590.

Maritime Administration (MARAD)

Anyone desiring a copy of a MARAD regulatory document referred to in the agenda may request a copy of that document by contacting James Saari, Secretary, Maritime Administration, 400 Seventh Street, SW., [Room 7300B], Washington, DC 20590, (202) 366-5746.

Office of the Secretary (OST)

Persons desiring to receive future copies of the Regulations Agenda should submit their request to: Assistant General Counsel for Regulation and Enforcement, C-50, Office of the General Counsel, Department of Transportation, Washington, DC 20590, (202) 366-4723.

Persons who have an interest in specific regulatory documents to be issued by the Office of the Secretary should forward requests for copies of those documents to the same address. These requests should fully identify the document desired. Persons requesting a rulemaking document on an aviation matter (of the kind formerly handled by the CAB) will be placed on a mailing list for all OST aviation-related rulemakings.

Appendix B - General Rulemaking Contact Persons

The following is a list of persons who can be contacted within the Department for general information concerning the rulemaking process within the various operating administrations.

Significance: Agency Priority

Legal Authority: Not yet determined

CFR Citation: Not yet determined

Legal Deadline: None.

Abstract: The Department will review existing regulations to determine whether changes are necessary for each of the Modal Administrations' drug regulations. The Department seeks to address the use of drugs through its regulatory authority. The review will encompass each Modal Administration's program.

1555. + CONSUMER PROTECTION FOR DEFAULT BY SCHEDULED AIR CARRIERS

Significance: Regulatory Program

Legal Authority: 49 USC 1371; 49 USC 1372; 49 USC 1381

CFR Citation: 00 CFR None

Legal Deadline: None.

Abstract: Transamerica petitioned the CAB to investigate ways to protect consumers against service defaults by scheduled air carriers in domestic, overseas, and foreign air transportation. Transamerica suggested that the Board condition the award of operating authority to perform direct carrier scheduled service on air carriers developing a default protection plan. For foreign air travel, it suggested that the obligation be limited to outbound flights. The petitioner argued that prompt action is necessary in order to ensure continued public confidence in scheduled air service and to protect passengers from unnecessary financial hardship. DOT is considering what action should be taken on the petition.

DOT—OST

Prerule Stage

CFR Citation: Not yet determined

Legal Deadline: None.

Abstract: This petition, filed by Mr. Theodore Harris, addresses the problem of airline passengers whose airline goes bankrupt after they bought their ticket but before they use it. The petitioner asks that airlines be required to protect such "unearned revenue" by escrowing it or by posting a bond in an amount equal to 150% of average unearned revenue. Exemptions could be granted to airlines which file evidence of ticket insurance plans or which enter into agreements with other airlines to accept the tickets of bankrupt carriers.

CFR Citation: 14 CFR 221.171; 14 CFR 221.173

Legal Deadline: None.

Abstract: This petition proposes to amend the requirement that air carriers post cargo tariffs at stations, offices, and locations other than their principal office. The petitioners proposed to allow carriers to maintain a memorandum tariff at each location and have a toll-free number for shippers to obtain access to complete tariff information. Petitioners alleged that such a change would substantially reduce the cost and time burden of maintaining and continually updating voluminous files of current and past tariffs at each location.

Significance: Nonsignificant

Legal Authority: 49 USC 1373; 49 USC 1386

CFR Citation: 14 CFR 372

Legal Deadline: None.

Abstract: The reference to tariffs in the rule governing Overseas Military Personnel Charters (OMPC) has become obsolete, at least with respect to domestic air transportation. The CAB was considering whether to eliminate the tariff requirement for all OMPC's and replace it with consumer-protection requirements similar to those in its Public Charter rule in Part 380. This proposal is still being considered by DOT.

Significance: Nonsignificant

Legal Authority: 49 USC 1373

CFR Citation: 14 CFR 221.160

Legal Deadline: None.

Abstract: This rule would amend regulations to allow cargo tariffs which are within the zones established under 14 CFR 399.41 to be filed on 30 days' notice. There are two alternatives: either maintain the status quo (60 days' notice) or change cargo tariff filing regulations to 30 days' notice to be consistent with passenger tariff-filing requirements. Standardization of the regulatory tariff-filing requirements for both cargo and passenger tariffs would benefit the industry.

Legal Deadline: None.

Abstract: The Civil Aeronautics Board was an independent agency; its rules

have now been transferred to DOT, a cabinet department. This review will identify any CAB rules which are not consistent with Department or Administration regulatory criteria, such as those that impose an unnecessarily high cost or those with paperwork burdens that can be reduced or which involve a level of benefits or costs which are either higher or lower than necessary. The review will examine all alternatives, from strengthening a given rule to eliminating it. Nonregulatory approaches, including the supplying of information by the Government, or regulation by another level of government, will be also considered. The benefits and costs will be known only after these alternatives have been developed. This review is a priority because it involves important departmental policy.

Abstract: The DOT rules cited above state that any price stated for air transportation, a tour or a tour component must be the entire price for that transportation, tour or component. In this petition, Mr. Donald Pevsner complains that some tour operators advertise prices which do not include additional features which must be purchased and which cost extra. He asks that the rules be amended to state that such additional features may only be priced separately if they may be purchased separately, i.e., if they are optional rather than mandatory.

1563. + ELECTRONIC FILING OF TARIFFS

Significance: Regulatory Program

Legal Authority: 49 USC 1373

CFR Citation: 14 CFR 221

Legal Deadline: None.

Abstract: DOT will examine whether conversion from a paper document system to a computerized system of filing and monitoring air carrier tariffs can reduce paper flow, speed up processing, and allow the industry to utilize computer and telecommunications technology to communicate with DOT. The alternative is to maintain the current paper tariffs system. Potential savings to the industry may be greater than to the Government, since airlines already utilize automated fare and rate systems. In addition, airlines may be able to implement changes faster, thus responding more quickly to market conditions, and may be less burdened with the cost of producing and transmitting paper documents. The Department may reduce paper flow, experience savings in processing time and staffing, and improve the accuracy and control of tariff data. In order to assure that users' needs are taken into consideration and that the private sector is involved to the maximum extent in the design, implementation, and operation of such a system, the Department established an Advisory Committee to make continuing recommendations on technical, operational, and policy objectives of the electronic tariff system.

Significance: Agency Priority

Legal Authority: 29 USC 794; Section 404(a) of the Federal Aviation Act of 1958, as amended.

CFR Citation: 49 CFR 27; 14 CFR 382

Legal Deadline: None.

Abstract: The Civil Aeronautics Board (CAB) has a regulation providing protection of the rights of handicapped air travellers. Based on recent Congressional action, DOT began enforcing this regulation on January 1, 1985. The Supreme Court's decision in U.S. Department of Transportation v. Paralyzed Veterans of America held

that Section 504 of the Rehabilitation Act of 1973 does not apply to nonsubsidized air carriers. This decision left the existing regulation intact. The Air Carrier Access Act of 1986 directed DOT to publish new regulations prohibiting disability-based discrimination in air travel. The Department will use comments received in response to its August 1986 information notice on issues reflecting blind passengers as part of the record for this rulemaking. The Department is proposing to use regulatory negotiation to draft proposed and final rules on this subject.

Significance: Agency Priority

Legal Authority: PL 98-575, Sec 16 Commercial Space Launch Act

CFR Citation: 00 CFR None

Legal Deadline: None.

Abstract: Persons authorized to conduct commercial launch activities by a license issued by DOT are statutorily required to have in effect at least that amount of third-party liability insurance prescribed by DOT for the licensed activity. The rulemaking addresses alternate approaches to setting the appropriate amount of third-party liability insurance licensees must carry. The Department has determined that because of the climate of uncertainty currently affecting the space launch and space insurance industries, further action on the rulemaking is not appropriate at this time. Such insurance determinations as the Department is required or requested to make in this area will be handled on a case-by-case basis.

Significance: Agency Priority

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1372; 49 USC 1381; 49 USC 1386

CFR Citation: 14 CFR 207; 14 CFR 208; 14 CFR 212; 14 CFR 298; 14 CFR 380

Legal Deadline: None.

Abstract: The CAB proposed new charter rules for direct and indirect air carriers. The proposed rules retain the financial protections of existing rules for direct air carriers while eliminating rules restricting the types of groups (such as "affinity" or "single-entity") to whom charters may be sold. The proposal would also retain a security instrument and depository system for indirect air carriers, along with contract rules for public protection. The proposal also highlights depository bank and travel agent responsibilities in handling passenger funds. The proposal replaces one made earlier. DOT is considering what action should be taken.

Significance: Agency Priority

Legal Authority: 49 USC 1324; 49 USC 1374; 49 USC 1377; 49 USC 1381; 49 USC 1386

CFR Citation: 14 CFR 252; 14 CFR 253

Legal Deadline: None.

Abstract: This rule would inform passengers of their right to a seat in a nonsmoking section of an aircraft by one of two proposed alternatives. The first would require airlines to include a prescribed notice on or with their tickets. The second would include smoking in the list of subjects incorporated by reference in the contract of carriage, which would inform passengers that additional information may be obtained from the place of ticketing.

Significance: Nonsignificant

Legal Authority: Federal-Aid Highway Act of 1968, as amended, Sec 22(a); RR Revitalization & Regulatory Reform Act of 1976, Sec 905; 49 USC 1615 Urban Mass Transportation Act of 1964, as amended; 29 USC 794 Rehabilitation Act of 1973, Sec 504

CFR Citation: 49 CFR 1.48(c); 49 CFR 2.49(u); 49 CFR 1.51(a)

Legal Deadline: None.

Abstract: The proposed regulation would set forth requirements and procedures for all State Departments of Transportation (DOTs) equal employment opportunity compliance programs. It would also consolidate FHWA, FRA, and UMTA responsibilities in this area. This proposed regulation is significant because it would affect the equal opportunity employment programs of all State transportation agencies. It is needed because OST, FHWA, FRA, and UMTA each have responsibility for implementing the equal employment opportunity programs of State DOTs. This proposed rule would assure full coordination among these departmental elements, reduce the burden on the recipients, simplify reporting requirements, and eliminate duplication of effort.

Abstract: This regulation would implement the 1978 amendments to section 504 of the Rehabilitation Act of 1973 which made its prohibition of discrimination on the ground of handicap applicable to the directly conducted programs of Federal agencies as well as to their financial assistance programs. The rule would apply to DOT facilities, personnel practices, and regulatory programs. It would be based on a model rule developed by the Department of Justice. The rule would also apply to DOT activities and functions transferred from the Civil Aeronautics Board after that agency's "sunset." A CAB NPRM that was being developed on this subject will be subsumed in this project. A draft NPRM is now being reviewed by the Department of Justice.

Alternatively, the Board proposed to declare it to be an unfair and deceptive practice to divert a passenger without arranging and paying for alternate transportation to the destination airport named on the passenger's ticket. Abstract: The American Association of Airport Executives, the Airport Operators Council International and the Air Transport Association of America petitioned the CAB to simplify its counter-sign requirements. Presently, airlines are required to display four different consumer protection notices on their ticket counters. The petitioners alleged that the current notices are hard to read and, therefore, do not provide much notice to passengers. They proposed replacing the four notices with one simplified counter sign. The CAB adopted an NPRM that proposed a number of alternatives, such as a long and/or short notice, where the notices would be required to be posted and whether a smoking notice should be included. DOT is now considering what action to take in response to the notice and comments filed.

Abstract: The Department must now routinely decide issues of name similarity whenever an airline wishes to use a different name for its operations or a new applicant wishes to use a name for its proposed operations. The issue arises even where there is no evidence that use of a certain name will cause or has caused confusion with an existing name. The current rule is duplicative of other statutes. The issue can be decided privately without routine, active government intervention, or can be handled on a case-by-case basis. The proposed rule would 1) delete specific criteria for decisions on name cases, 2) emphasize ad hoc enforcement, and 3) change the rule to make it a form of registration. Removal of routine intervention would reduce delay in applications for name changes. It would not result in less protection for travelers when there is a real need for action.

Abstract: The rulemaking addresses the general organization and procedures of the Office of Commercial Space Transportation and the review procedures and information requirements pertaining to launch license applications. The final regulations will identify the general factors the government will consider, in the absence of published technical standards, in the course of determining whether to grant a launch license request. The process identified in the final regulations will set out in greater detail the two-part process initially described in the Department's Notice of Policy published in the Federal Register on February 25, 1985. That process consists of a Mission Review, focusing on national security and foreign policy issues, and a launch Safety Review, focusing on public safety issues. The final regulations will contain revisions that will respond to comments received by the Department on the interim regulations published February 26, 1986. These regulations are significant because they involve issues of substantial interest to the public and important DOT policies.

Abstract: The Department is reviewing its regulation establishing a minority business enterprise (MBE) program in its financial assistance programs (49 CFR Part 23). This regulation has been controversial, is of interest to most DOT grant recipients and contractors, and affects the operations of all DOT financial assistance programs. As part of the Administration's program of reviewing regulations that are costly or controversial, the Department has decided that it is necessary to consider revisions of the existing rule. The aim

of the revisions would be to reduce regulatory burdens associated with the present rule and clarify the administration of some provisions about which questions have been raised. On the basis of this review, the Department intends to publish, from time to time, proposed rules to improve various aspects of the way the program is administered. This review is to improve the administration of the existing program, and it is not intended to affect the major policy provisions of the regulation.

Abstract: This involves a revision of DOT's Freedom of Information Act regulations. Specific areas to be addressed include fees to be charged for search and reproduction costs and the establishment of more precise criteria to enable the Department to determine when a waiver of fees is in the public interest. It would also address records relating to those functions of the Civil Aeronautics Board that were transferred to the Department. This rulemaking is significant because of substantial public interest. It is needed because the Freedom of Information Regulations need periodic revision to keep current with changes in case law, policy, and implementation costs.

However, because of the program established by Public Law 95-507, these proposed rules became unnecessary, and were never finalized. That program provides for subcontracting plans and goals in certain direct Federal contracts as well as for disadvantaged business set-asides under the Small Business Administration 8(a) program. 1589. ZONES FOR AIRLINE MAIL RATES

Significance: Nonsignificant

Legal Authority: 49 USC 1302; 49 USC 1324; 49 USC 1376; 49 USC 1551(b)(1)(D)

CFR Citation: 14 CFR 233, (Proposed)

Legal Deadline: None.

Abstract: This proposed rule would end the current practice of prescribing fixed rates for the transportation of mail by air, and in its place establish zones for each category of mail. Each zone would be defined by maximum and minimum rates prescribed by DOT, and airlines would be free to contract with the Postal Service for the carriage of mail at any price within the zone. The rule is now moot with regard to domestic mail rates except in Alaska.

1590. AIR TRAVELERS: AGE DISCRIMINATION

Significance: Nonsignificant

Legal Authority: 42 USC 6102

CFR Citation: 14 CFR 376, (Proposed)

Legal Deadline: None.

Abstract: This rule will prohibit discrimination against air travelers on the basis of age and implement the Age Discrimination Act of 1975. A final rule was adopted by the CAB on April 10, 1980, and was forwarded to the Secretary of HHS for approval, as required by the Age Discrimination Act. The rule was approved by HHS on July 13, 1984, with changes. However, these changes have not been incorporated. DOT is considering combining this rulemaking with a broader DOT age discrimination rule on which work is now under way.

Abstract: This rule will set out Department policies for regulation of the rates, routes, and services of airlines that have interstate authority. The CAB concluded that under section 105 of the Federal Aviation Act of 1958 it, not the States, was responsible for economic regulation (or deregulation, as the case may be) of all the routes, rates, or services of any airline holding either (i) a certificate of public convenience and necessity to provide interstate air transportation, or (ii) an exemption under section 416 of the Act from the requirement for such a certificate.

Abstract: This rule would set the minimum per-person aircraft accident liability insurance limits for U.S. and Canadian on-demand air taxi operators at $150,000, instead of at $300,000 as it is for other air carriers. The NPRM further includes alternative proposals to set the per-person limit at $75,000 or $100,000 or to eliminate all minimum amounts, requiring a public notice instead. Other rules for insurance coverage for these carriers would be as in 14 CFR Part 205, including the prohibition on safety-related exclusions.

1597. + 14 CFR PARTS 204 AND 291, LIMITATION ON FITNESS DETERMINATION: REVOCATION OF OPERATING AUTHORITY

Significance: Agency Priority

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1377; 49 USC 1386; 49 USC 1388; 49 USC 1389

CFR Citation: 14 CFR 204; 14 CFR 291

Legal Deadline: None.

Abstract: The rule as finalized will automatically revoke the authority of carriers who do not begin operations within one year of being found fit or who, having begun and then ceased operations, remain dormant for any subsequent one-year period. The rule replaces the existing continuing-fitness regulation, which called for new fitness determinations only after a two-year period of dormancy--and even then, only if a dormant carrier actually intended to start operations. The new rule, by reducing the number of dormant certificated carriers, should greatly enhance our ability to monitor carriers under the continuing-fitness function. The costs should be negligible because, under the Department's streamlined certification procedures, carriers needing to reapply for certificate authority by virtue of the rule would face filing requirements and procedures closely comparable to those that already exist under the Department's current continuing-fitness regulations.

Significance: Nonsignificant

Legal Authority: 49 USC 1371

CFR Citation: 14 CFR 399

Legal Deadline: None.

Abstract: This action establishes criteria upon which carriers will be selected to serve those markets where the number of US-flag carriers is restricted under current bilateral arrangements. The rule establishes that all certificate authority in limited-designation markets will be awarded on an experimental basis, for five-year terms. This rulemaking is significant because it considered alternatives that could establish new policy and legal precedent in the selection of carriers for limited designation markets and the duration of the authority which these carriers are awarded. The rule also establishes a requirement that carriers operating under pendente lite exemptions provide 90 days notice prior to withdrawing from a market.

Abstract: The Compact of Free Association between the U.S. and the governments of certain territories in the Trust Territory of the Pacific Islands was adopted by the U.S. Congress, and entered into effect for the Federated States of Micronesia and the Marshall Islands on November 3, 1986. The Compact of Free Association and related Article IX of the Federal Programs and Services Agreement makes provision for payment of subsidy, if necessary, to maintain essential air transportation to the Federated States of Micronesia and the Marshall Islands and Palau when the Compact becomes effective for Palau. The Compact and Agreement also permit the Department under certain conditions to pay subsidy to Freely Associated States air carriers and to authorize these carriers to carry local air traffic between Guam, the Commonwealth of the Northern Mariana Islands, and Honolulu, Hawaii. This rule establishes the requirements and procedures for implementing these provisions.

Abstract: The Coast Guard is proposing regulations that will establish safety standards for self-elevating offshore service vessels commonly known as liftboats. The high rate of casualties which have been experienced by these vessels has emphasized the need for specific regulations addressing the hazards inherent in their operations. These vessels support the offshore mineral and energy industry by performing a multitude of services such as dive support, painting, sandblasting and well servicing, among others. In performing these services, these vessels fall within the statutory definition of Offshore Supply Vessels (OSV) and are therefore subject to inspection as OSVs. The Coast Guard will consider using existing standards wherever possible, particularly those that have and are being applied to conventional OSVs. However, because of the unique design and operating characteristics exhibited by these liftboats, many of the current regulations used to inspect and certificate conventional OSVs are inadequate to ensure the safe operation of these vessels. The Coast Guard believes that development and enforcement of standards specifically addressing these (CONT)

The information in the ANPRM presents the Coast Guard's overall approach with respect to developing comprehensive standards for conventional offshore supply vessels as contrasted with liftboats and other nonconventional OSVs. On March 7, 1985, the Coast Guard published an ANPRM on Revision of the Regulations on Outer Continental Shelf Activities (50 FR 9290). Significance: Regulatory Program

Legal Authority: 33 USC 1231; 43 USC 1331; 46 USC 6101; 46 USC 6103

CFR Citation: 46 CFR 4; 46 CFR 16

Legal Deadline: None.

Abstract: This notice proposes regulations which would: 1) require the owner, charterer, managing operator, agent, master, or person in charge of a commercial vessel (designated the "marine employer") to obtain blood, urine, and breath samples as appropriate from persons directly involved in certain serious marine incidents, within prescribed time limits; 2) define the serious marine incident criteria for which this requirement would be applicable; 3) require the marine employer to ship blood and urine samples to a laboratory designated by the Coast Guard for appropriate chemical analysis; and, 4) establish procedures regarding accountability for and processing of blood and urine samples from the time of sampling to the time of receipt of samples at the laboratory. The Coast Guard believes that these proposed regulations are necessary to better identify the extent of alcohol and drug involvement as primary or contributing causes of serious incidents, i.e., those which result in death, injury or significant property or environmental damage; to emphasize the seriousness with which the Federal Government views the problems of alcohol and drug use and abuse in the marine (cont.)

Legal Deadline: None.

Abstract: Would redefine and establish qualifying criteria for certifying individuals engaged in the carriage and transfer of the various categories of dangerous cargoes in bulk. This is considered significant because of passage of the Port and Tanker Safety Act of 1978 and the fact that the International Convention on the Standards for Training, Certification and Watchkeeping for Seafarers of 1978 entered into force on April 28, 1984. This rulemaking is necessary because most pollution incidents are the result of personnel error; consequently, the minimum qualifications of persons involved in handling polluting substances should be specified.

CFR Citation: 33 CFR 26

Legal Deadline: None.

Abstract: Recreational boat use of Channel 16, a distress and safety frequency on the Great Lakes, has become so great that commercial vessels have been having difficulty communicating navigational information. The Coast Guard is considering making modifications to the existing radiotelephone requirements. Draft changes have been exchanged between the Canadian and U.S. Coast Guards to change the technical regulations of the Great Lakes Radio agreement. Review and re-exchange of drafts currently being considered. Both governments agree on channel 13. Sequential monitoring will not be accepted by either government as filling the requirements of a "continuous watch." Which size and type of vessels that will be required to monitor channel 13 needs to be clarified.

Abstract: The purpose of this proposal is to eliminate safety risks posed by the use of dangerous drugs by merchant marine personnel. The option being considered is a requirement that individuals applying for licenses, certificates of registry, and merchant mariners' documents provide the results of drug tests before issuance or renewal. The proposal will also address random drug-testing programs.

Abstract: This rulemaking would require marine dealers to furnish boat and engine manufacturers with serial numbers of new boats and engines sold and the names and addresses of retail first purchasers of those products. Manufacturers would use the information to locate purchasers of boats and engines recalled for defects which create a substantial risk of personal injury to the public and for failures to comply with applicable regulations. Significance: Nonsignificant

Legal Authority: 43 USC 1333(d)(1); 43 USC 1348(c); 43 USC 1356; 43 USC 1.46(z)

CFR Citation: 33 CFR 140; 33 CFR 143

Legal Deadline: None.

Abstract: Would modify 33 CFR Subchapter N by requiring owners/operators of fixed OCS facilities to conduct an annual inspection for compliance with Coast Guard regulations and report the results of the self-inspection to the Coast Guard on a Coast Guard-provided form. This proposal would shift to the industry, at an estimated cost of $.53M, a function that would require a government expenditure of $.76M. Increased oversight inspections to ensure program reliability would require government expenditures estimated to be initially $.19M. This proposal minimizes cost to the industry and, by allowing available Coast Guard resources to be concentrated in critical areas, would improve safety in the OCS.

Abstract: Limited visibility from the navigation bridge of vessels has been identified as a factor in vessel casualties and near-misses. This action would establish standards for acceptable limits of visibility based on existing international guidelines. Because the primary focus is on new vessel design, costs are estimated to be minimal compared to potential benefits in casualties prevented.

Additional Information: This is the first in a series of projects, numbered 85-200 to 85-211, which have been split off from Coast Guard 84-069 which implemented the 1983 Amendments to SOLAS 1974. So many revisions were necessary that it was better to make several small and easily identifiable projects rather than a large and confusing one. Because of staffing assignments, the projects may not be completed in numerical order, and many cannot be given estimated completion dates.

1673. + INTERVALS FOR DRYDOCKING AND TAILSHAFT EXAMINATION ON INSPECTED VESSELS (84-024)

Significance: Regulatory Program

Abstract: Various Coast Guard regulations specify the intervals for drydocking and tailshaft examinations on inspected vessels. The Coast Guard has proposed to extend the interval between drydockings because extension of the interval can result in significant savings to vessel operators without diminishing overall vessel safety. This regulation is significant because it involves important departmental safety policy.

Abstract: Would amend the licensing regulations to simplify administration and improve readability to the public. Also to provide a license structure for all mariners with which to advance in an orderly career pattern. Will also delete many unnecessary and outdated licenses. This regulation has been made significant because of its far-reaching impact on all licensed officers of the merchant marine.

1677. ● + IMPLEMENTATION OF THE NORTH AMERICAN DATUM OF 1983 (NAD 83) (CGD 86-082)

Significance: Agency Priority

Legal Authority: 14 USC 633

CFR Citation: 33 CFR 3; 33 CFR 80; 33 CFR 100; 33 CFR 110; 33 CFR 147; 33 CFR 150; 33 CFR 161; 33 CFR 162; 33 CFR 165; 33 CFR 166; 33 CFR 167; 33 CFR 177

Legal Deadline: None.

Abstract: By NAD 83, geologists changed the datum used to calculate points of latitude and longitude. Geographic positions listed in 33 CFR are referenced to horizontal datums rather than NAD 83. Implementation of NAD 83 makes these positions incorrect. Because the positions, which are used in charts and for aids to navigation, are now incorrect, there is an increased chance for groundings, marine accidents, and misinterpretation of Coast Guard boundaries and areas of search and rescue responsibilities. All Coast Guard districts were advised of this issue on December 12, 1986. Mariners were then informed through Notices to Mariners published by the respective districts.

CFR Citation: 46 CFR 10; 46 CFR 15

Legal Deadline: None.

Abstract: This project resulted from comments received on Coast Guard proposed rulemaking 81-59, Licensing of Officers and Motorboat Operators and Registration of Staff Officers which is contained in this agenda under another listing. The comments suggested that licensing of officers on Mobile Offshore Drilling Units be discussed in a separate rulemaking. This project is the result of those suggestions; it would establish licensing requirements for officers on Mobile Drilling Units.

1698. REVIEW: VESSEL REPORTING REQUIREMENTS

Significance: Nonsignificant

Legal Authority: 46 USC 391a

CFR Citation: 33 CFR 160

Legal Deadline: None.

Abstract: These regulations were developed and promulgated pursuant to the Port and Tanker Safety Act. They require vessel owners to report their locations, arrivals, and departures when carrying certain hazardous cargoes. The barge industry and certain boat owners in the past have opposed these regulations. These regulations have

been reviewed because of their controversy and impact on the barge and towing industry. The information from advance notice of arrival regulations is a basis for Coast Guard management of vessel movements within U.S. ports and waterways. Consequently, these regulations are deemed appropriate and the priority review is considered complete.

Abstract: This project amends the information required to be addressed in Mobile Offshore Drilling Unit (MODU) Operating Manuals. Investigative reports on the sinkings of the MODUs Ocean Ranger and Glomar Java Sea recommended that the regulations for MODU operating manuals be more precise and arranged in a manner that is easily understood by operating personnel. Feedback from Coast Guard and industry personnel on improving operating manuals was being considered. The overall effect of this project is to enable the operating manual to be more useful to operating personnel.

Significance: Nonsignificant

Legal Authority: 33 USC 180; 33 USC 258; 33 USC 322

CFR Citation: 33 CFR 81

Legal Deadline: None.

Abstract: Annex I of the International Regulations for Preventing Collisions at Sea, 1972. (COLREGS), contains technical requirements for navigation lights on vessels which proceed beyond the COLREGS demarcation lines. Lights on unmanned barges may not be able to meet the vertical sector requirements due to lack of electricity-producing equipment on board these vessels. The Coast Guard considered exempting unmanned barges from the requirements, and addressed this matter at IMO. The general consensus of that body was to handle the issue through alternative compliance as provided in rule 1 of the COLREGS. Because of this, the Coast Guard is no longer considering a permanent exemption. The industry will be advised to meet the requirements or apply for alternative compliance as provided for in 33 CFR 81.

1717. + REVIEW OF MEDICAL STANDARDS AND CERTIFICATION PROCEDURES

Significance: Agency Priority

Legal Authority: 49 USC 1354(a) Federal Aviation Act of 1958, Sec. 313(a); 49 USC 1355 Federal Aviation Act of 1958, Sec. 314; 49 USC 1421 Federal Aviation Act of 1958, Sec. 601; 49 USC 1427 Federal Aviation Act of 1958, Sec. 607

CFR Citation: 14 CFR 67

Legal Deadline: None.

Abstract: These regulations specify the medical standards which must be met before a medical certificate is issued to an airman. For example, a medical certificate is required before a person can obtain a pilot license. During a recent rulemaking involving these regulations, a considerable number of commenters expressed the belief that the current standards should and could be revised to state, in generally applicable objective terms, all those circumstances in which the FAA will issue medical certificates. In the past, some certificates have been issued on a case-by-case basis, with appropriate limitations, under exemption and waiver provisions where strict compliance with the existing standards was not essential in the interest of safety. A comprehensive review of these regulations is necessary to determine if the commenters' arguments are correct. If they are and the requested regulatory changes are possible, it could greatly reduce burdens, both on the FAA and airmen, associated with the processing of medical certificates.

Significance: Agency Priority

CFR Citation: 14 CFR 36; 14 CFR 91

Legal Deadline: None.

Abstract: Would revise both noise certification standards and operating noise rules to ensure that aircraft certificated within certain broad noise groups or "stages" remain within those stages. Those proposals would apply to transport category large aircraft and to turbojet powered aircraft regardless of category. The proposed rule would prohibit modification of both individual airplanes and whole airplane types where those modifications would result in the growth of noise beyond the limits of the airplane's current stage. While the proposal would not restrict airplane changes that result in lower noise, it would in some cases prohibit re-modification of those aircraft to return to their original noise levels. The FAA believes that these rules are necessary to correct a defect in the current regulations and to protect airports, aircraft operators and the public from the effects of that defect. This rulemaking is significant because of intense public interest.

Abstract: This action would amend various sections of the regulations. Some of the amendments are clarifying or editorial in nature or correct improper or obsolete references. Others relax certain existing requirements. Others allow issuance of special flight permits for an additional purpose, relax a requirement for passenger information signs, and eliminate the bulk erasure device on cockpit voice recorders. This action is in response to numerous complaints, suggestions, and petitions for exemption concerning several regulatory requirements received from users of the National Airspace System. These users state that these sections contain obsolete references and vague, complex, and inadequate language and that, in some instances, the cost of compliance is not justified by the benefits derived.

Abstract: Part 36 prescribes noise standards for type certification of airplanes. A new generation of aircraft powered by prop fan engines may present a noise problem that is not currently addressed by Part 36 in that enroute noise at cruise altitude (25,000 to 30,000 ft) may require a new standard. This proposal would establish a new standard to control high altitude flyover noise from these new types of aircraft.

CFR Citation: 14 CFR 135

Legal Deadline: None.

Abstract: This notice proposes to require that all turbojet-powered airplanes operated in accordance with Part 121 have airborne systems that warn a flightcrew of the presence of low-altitude windshear conditions and then provide flight guidance to follow that would produce the optimal flight path for a missed approach procedure. This proposal would require that any Part 121 operator using an approved simulator as a part of its training program develop a specific windshear-related simulator flight training course for its flightcrews. This proposal would require that Part 121 and 135 operators using an approved training program include training concerning the low-altitude windshear phenomenon as a part of their normal ground training. Low-altitude windshear has been a prime causal factor in numerous air carrier accidents and possibly has contributed to a number of general aviation accidents.

CFR Citation: 14 CFR 21; 14 CFR 36

Legal Deadline: None.

Abstract: Would revise noise certification standards for aircraft to add provisions applicable to helicopters. These would apply to civil helicopters in the normal, transport, and restricted categories, and would provide noise-level limits and test procedures for the issuance of new and amended type certificates. It would also prohibit changes in type design of helicopters that might increase their noise levels beyond certain limits. Although this notice contains several provisions similar to those in an earlier notice, which was withdrawn in 1981, it differs from that notice in several important aspects. One is the absence of any limit on manufacture of older non-conforming types; another is the increased commonality between these proposed standards and those adopted by the International Civil Aviation Organization (ICAO).

Additional Information: Part 36 of the Federal Aviation Regulations (14 CFR Part 36) contains noise standards for aircraft type and airworthiness certification. As the part is currently organized, Subparts B and C and Appendices A, B, and C apply to transport category large airplane and subsonic turbojet-powered airplanes regardless of category. Appendix F contains the provisions applicable to propeller-driven light airplanes. This notice proposes to prescribe noise levels and test procedures for civil helicopters certificated in the normal, transport, and restricted categories. These proposals include rules governing the issuance of new and amended type certificates for helicopters for which application is made on and after the publication date of this notice. The proposed rule would prohibit certain growth or other design changes if those changes might result in noise levels beyond prescribed limits. The proposed rule also provides the test conditions and procedures for conducting helicopter noise tests to demonstrate compliance with the prescribed noise levels.

Abstract: This project proposes to amend the rotorcraft airworthiness standards in Parts 27 and 29 of the FAR. Abstract: The proposed establishment or modification of prohibited airspace over these sites is one segment of a Department of Energy (DOE)

comprehensive effort to enhance the protection of vital nuclear weapons research, development, and production facilities. If established, helicopter operations at any altitude over the designated sites would be prohibited without prior DOE authorization. This rulemaking is significant because it may be controversial. A summary of written and oral comments received in response to notices and hearings was sent to the DOE February 22, 1985, for them to address. DOE is presently conducting an indepth review of security requirements at each of their sites. Results of this review will be used by DOE in making a decision to proceed with, modify, or withdraw part or all of their request for prohibited airspace.

Abstract: This proposed rule is designed to alleviate increased delays throughout the air traffic system. If implemented, the FAA would alter current airline scheduling through a lottery process to more evenly space arrivals and departures throughout the day. 1751. + LOCATION OF PASSENGER EMERGENCY EXITS IN TRANSPORT-CATEGORY AIRPLANES

Significance: Agency Priority

Legal Authority: 49 USC 1344; 49 USC 1354(a); 49 USC 1355; 49 USC 1421; 49 USC 1423; 49 USC 1424; 49 USC 1425; 49 USC 1428; 49 USC 1429; 49 USC 1430; 49 USC 106(g); PL 97-449

CFR Citation: 14 CFR 21; 14 CFR 25; 14 CFR 121

Legal Deadline: None.

Abstract: NPRM will propose to establish standards for transport category airplanes, to limit the distance a passenger seat may be from an exit, and the distance between adjacent exits. Purpose is to ensure passengers do not have to traverse excessive distances to escape the aircraft in an emergency, and to prevent U.S. carriers from deactivating the overwing exits of the Boeing 747. Escape-path distance was a major issue of the recent Emergency Evacuation Task Force. Current regulations do not limit escape-path distance. Action is significant because of substantial public interest associated with issues involving aircraft passenger safety.

1752. ● + FLIGHT ATTENDANT REQUIREMENTS DURING DEPLANING AND BOARDING

Significance: Agency Priority

Legal Authority: None

CFR Citation: 14 CFR 121

Legal Deadline: None.

Abstract: This action proposes to revise the regulation dealing with the required number of flight attendants to clarify the original intent of the regulation. The current regulations are confusing and not clearly understood. The proposed amendments would clarify the number of flight attendants required when passengers are on board an airplane, including during boarding and deplaning. The proposals would allow for a reduced number of flight attendants on board an airplane during specified periods. The proposals would specify the conditions to be met to reduce the number of flight attendants at these stops. Additionally, the proposals would allow other authorized persons to be substituted for the required flight attendants at these stops, and the proposals would clearly establish the requirements for training for those authorized persons. The FAA proposes a new rule that would clarify where the required flight attendants and other persons must be located when they are onboard the airplane.

1753. ● + CONTROL OF DRUG AND ALCOHOL USE FOR PERSONNEL ENGAGED IN COMMERCIAL AND GENERAL AVIATION ACTIVITIES

Significance: Agency Priority

Legal Authority: None

CFR Citation: 14 CFR 91

Legal Deadline: None.

Abstract: This notice invites comments on drug and alcohol abuse by personnel in the aviation industry and the options available for regulatory or other actions in the interest of aviation safety. It is intended to gather additional information on the extent to which abuse of drugs or alcohol is impairing the performance of personnel in the aviation community, such as commercial and general aviation pilots and mechanics, and on the costs and effectiveness of various drug and alcohol countermeasures. The rulemaking will cover mandatory random testing.

Abstract: This notice supplements NPRM 81-14, which proposed to permit the operation of powered aircraft with certain inoperative instruments and equipment that are not essential for the safe operation of the aircraft. After further review of the comments from the public, the FAA concluded that provisions in that notice could be accomplished with less paperwork, and the concept could be further modified to conform to other pertinent regulations. This supplemental notice proposes to permit rotorcraft and nonturbine powered airplanes (for which a master minimum equipment list has not been developed), that are not being utilized in an air carrier operation, to be operated with certain inoperative instruments and equipment. Furthermore, this supplemental notice proposes to permit flight operations with certain inoperative instruments and equipment for small multiengine rotorcraft and nonturbine-powered small multiengine airplanes (for which a master minimum equipment list has been developed and that are not being utilized in an air carrier operation) the option of selecting the minimum equipment (cont)

CFR Citation: 14 CFR 36

Legal Deadline: None.

Abstract: Part 36 prescribes noise type certification standards for turbo jet powered airplanes and propeller driven small airplanes regardless of category. This review will examine the need to reorganize and realign the noise standards to make them more understandable and easier to use. This review would reorganize existing material into several new subparts, and utilize an improved numbering system to provide for the easier inclusion of future changes. Other improvements would be made by deleting redundancies, obsolete compliance dates, and making other minor changes. Additionally, Part 36 will be reviewed in accordance with Executive Order 12291 to reduce regulatory burdens on the public, including the preparation of both a Regulatory Evaluation and a Regulatory Flexibility Analysis.

1772. MISCELLANEOUS OPERATIONAL AMENDMENTS

Significance: Nonsignificant

Legal Authority: 49 USC 1354 Federal Aviation Act of 1958 Sec. 313(a); 49 USC 1421 Federal Aviation Act of 1958 Sec. 601; 49 USC 1423 Federal Aviation Act of 1958 Sec. 603; 49 USC 1424 Federal Aviation Act of 1958 Sec. 604

CFR Citation: 14 CFR 121; 14 CFR 91; 14 CFR 125; 14 CFR 135

Legal Deadline: None.

Abstract: This notice will propose to amend the regulations that deal with passenger information, safe passenger egress, child restraint, and emergency equipment. The proposals would prohibit smoking at any time in any location displaying a "no smoking" sign or placard. They would require that passengers wear safety belts at any time a "fasten seatbelts" sign is turned on. They would require that the "fasten seatbelts" sign be turned on during taxi. They would clearly establish a requirement for an assisting means of egress and the stowage of passenger service equipment prior to taxi. They would make the pilot in command or, in the case of operations under Part 121, the certificate holder responsible for informing the passengers that they may be liable for a civil penalty should they fail to comply with FAA regulations. They would require that supplementary child restraint devices be accepted by a certificate holder when requested by the child's attendant.

Abstract: Action will propose to establish a new category of aircraft for type, production, and airworthiness certification. These aircraft will be designed for pleasure and personal use, and classified as a primary category aircraft. In addition, the notice will propose simplified type, production, and airworthiness certification procedures, special maintenance criteria, and associated changes to pilot requirements for this category of aircraft.

Abstract: Action would propose to establish airman certification requirements for persons operating powered ultralight aircraft. These mandatory certification standards are being considered because the response by ultralight operators to voluntary training programs has not been adequate. These proposed certification requirements are intended to achieve an acceptable level of safety in the operation of these aircraft.

CFR Citation: 14 CFR 21

Legal Deadline: None.

Abstract: This notice would propose to amend the Federal Aviation Regulations to permit certain aircraft product changes to be accomplished under amended type certification or supplemental type certification procedure in lieu of applying for a new type certificate. The granting of several exemptions emphasized the need for a review of established criteria mandating an application for a new type certificate. The availability of advanced, high performance, light-weight engines and superior

replacement systems requires this rule change for the upgrading of older seasoned designs to increase safety, utility, performance, and reliability, and reduce operational cost. The rule remains unchanged for aircraft product modifications which are so extensive that a substantially complete investigation of compliance is required.

Abstract: The FAA proposes to update and clarify the certification and operations specifications requirements for persons who operate aircraft for compensation or hire by (1) codifying the Special Federal Aviation Regulation pertaining to the certification requirements and (2) consolidating into one part the certification and operations specifications requirements for persons who operate under Part 121 or Part 135. The proposal responds to the termination of the Civil Aeronautics Board (CAB) and to changes in the air transportation industry since the Airline Deregulation Act of 1978. The proposal would provide a guide enabling persons who operate aircraft for compensation or hire to determine the certification and operations requirements with which they must comply.

Abstract: Part 150 of the Federal Aviation Regulations prescribes requirements for airport operators who voluntarily choose to submit compatibility planning programs to the FAA. Operators of airports whose maps and programs have been accepted by the FAA as meeting the Part 150 standards are then eligible to apply for funding noise-control projects under the Airport Improvement Program and are further afforded certain legal rights under the law. Recent delays have occurred due to industry concerns over aviation fueling responsibilities. FAA has reviewed proposals presented by a group of aviation organizations and changes have been made to the NPRM. The NPRM was published in the Federal Register on October 23, 1985. CFR Citation: 14 CFR 61

Legal Deadline: None.

Abstract: This final rule would establish a recreational pilot certificate

which would allow a student pilot to receive certification to fly certain aircraft after fewer hours of training than are currently required of a private pilot applicant. The recreational pilot certificate is intended to be a low-cost alternative to a private pilot certificate for persons interested in flying basic, experimental, or homebuilt aircraft in close proximity to a home airport that is not in airspace in which communication with an air traffic control facility is required. The rule would also establish an annual flight review requirement for noninstrument-rated private pilots with fewer than 400 flight hours.

CFR Citation: 14 CFR 121

Legal Deadline: None.

Abstract: This rule would amend the regulations applicable to PBE by; (1) incorporating the requirements of Section 25.1439 into current Section 121.337, (2) providing new standards for PBE for crewmembers that may fight smoke or fire in the airplane while in flight, (3) requiring the performance of an approved firefighting drill using PBE; (4) requiring that additional PBE be located within 3 feet of each required band fire extinguisher in passenger compartments when possible; and (5) clarifying certain recommendations of the NTSB, which found during an accident investigation that smoke goggles used by several air carriers did not adequately protect the flight crew and that some goggles restricted the user's vision.

1796. + PROPOSED REVISION TO NOISE CERTIFICATION STANDARDS FOR PROPELLER-DRIVEN SMALL AIRPLANES

Significance: Agency Priority

Legal Authority: 49 USC 1354 Federal Aviation Act of 1958, Sec. 313; 49 USC 1421 Federal Aviation Act of 1958, Sec. 601; 49 USC 1423 Federal Aviation Act of 1958, Sec. 603; 49 USC 1431 Federal Aviation Act of 1958, Sec. 611

CFR Citation: 14 CFR 21; 14 CFR 36

Legal Deadline: None.

Abstract: Would revise noise certification standards for propeller-driven small airplanes to substitute the use of actual takeoff tests for the level flyover tests currently specified. This proposal would revise test procedures applicable to noise certification tests conducted on or after January 1, 1988. It would also revise the noise-level limit numbers to approximate the equivalent of the sound levels measured and corrected in accordance with the current standard. These proposals result from industry requests for certification to be more directly based upon typical inservice noise measurements and from studies conducted in several nations over a three-year period under the auspices of the International Civil Aviation Organization. In addition, the FAA proposes to exempt antique airplanes and changes involving the addition of floats or skis from the acoustical change measurement and documentation requirements of Part 21. This regulation is significant because of substantial public interest.

CFR Citation: 14 CFR 91

Legal Deadline: None.

Abstract: This review deals with the air traffic and general operating rules in Part 91 - the most fundamental aviation regulations. This action would reorganize and rearrange the rules without substantive change, to make them easier to use and understand (Phase I). A later action will review and revise them to eliminate unnecessary burdens in keeping with E.O. 12291 (Phase II). AOPA withdrew its petition on November 20, 1980, so the FAA could proceed with this two-step review. ANPRM 79-2 published the original AOPA petition for comment on January 22, 1979 (44 FR 4571). NPRM 79-2A proposing reorganization of Part 91 was published on September 10, 1981 (46 FR 45256). NPRM 79-2B extended the comment period to April 9, 1982 (December 10, 1981; 46 FR 60461). Comments received on NPRM 79-2A will form a basis for proceeding with Phase II.

Abstract: Since its inception, the PMA program has been controversial, and that controversy was underscored by several attempts by FAA to change the regulations. Public comment to previous NPRM's suggested FAA disparity in applying PMA rules and confusion among aviation industry members and other Federal agencies concerning both the PMA process as it existed and FAA's proposed changes. The agency withdrew its proposals and issued a contract to study all aspects of the controversy and suggest alternatives for future rulemaking. The contractor's report titled "Parts Manufacturer Approval Program Evaluation, Phase I Report" proposes (1) standardizing PMA procedures with or without rulemaking, (2) formalizing the data comparison approval method, (3) pursuing property right legislation for certain data, (4) deregulating aircraft replacement parts, or (5) delegating certain approval aspects back to industry. Regulatory Flexibility Act and Executive Order 12291 analyses are being done as part of Phase II of the contract.

Additional Information: Docket No. 17147. This project was initiated December 23, 1975. NPRM No. 77-19 was published in the Federal Register (42 FR 43985). Comment period later reopened until January 4, 1978 (NPRM No. 77-19A, 42 FR 61048) and again reopened until May 15, 1978 (NPRM No. 77-19B, 43 FR 15432). Portions of NPRM 77-19 dealing with other subjects were handled separately. Supplemental Notice of Proposed Rulemaking (SNPRM) was published January 15, 1981 (46 FR 3775). Initial comment period closed April 15, 1981; reply comment period closed May 15, 1981. NPRM 77-19D reopening the comment period until August 24, 1981, and the reply comment period until September 21, 1981, was published July 23, 1981 (46 FR 38062). NPRM's 77-19 through 77-19D withdrawn October 12, 1984 (49 FR 40154). Phase I Report available to the public January 15, 1985 (50 FR 6303). Phase II of the contract initiated May 1985 to prepare Regulatory Flexibility Act and other analyses required to pursue future NPRM.

Significance: Regulatory Program

Legal Authority: 49 USC 1354 Federal Aviation Act of 1958, Sec. 313; 49 USC 1421 Federal Aviation Act of 1958, Sec. 601; 49 USC 1424 Federal Aviation Act of 1958, Sec. 604

CFR Citation: 14 CFR 121; 14 CFR 125

Legal Deadline: None.

Abstract: This action changes the regulations to expand the minimum flight data recorder (FDR) requirements for existing and newly manufactured pre-1969 type certificated aircraft operating under Part 121. This action also amends Part 135 to require cockpit voice recorders (CVR) on multi-engine-powered, fixed-wing aircraft manufactured after a certain date if the aircraft requires two pilots and is certificated to carry six or more passengers. This is in response to an NTSB recommendation.

Additional Information: JAR-25 is a document developed jointly and accepted by the airworthiness authorities of various European countries for type certification of large airplanes. JAR-25 is based on FAR Part 25; however, there are certain specified differences in the requirements of the two documents. The original intent of this rulemaking project was to resolve differences between FAR and JAR requirements. However, the JAR Study Group is now proposing changes to the JAR which will bring those requirements more in line with the FAR, thereby eliminating the need for this rulemaking. Regional decision made to cancel project.

Abstract: This amendment will revise Part 21 to the FAR to provide procedures for the type certification of special classes of aircraft. Special classes of aircraft include gliders (including self-launching gliders), airships, and other kinds of aircraft that would be eligible for a standard airworthiness certificate but for which no airworthiness standards have as yet been established as a separate part of subchapter C of the FAR. An example of such standards are those designated by advisory circular (AC) 21.23-1 for the type certification of fixed-wing gliders under Section 21.23. This amendment broadens the concept presently applied to gliders to include airships and nonconventional aircraft as the need may arise.

concentration (BAC) standard. This action is in response to Congress' enactment of the Commercial Motor Vehicle Safety Act of 1986 (Act). Section 12008 of the Act calls for the National Academy of Sciences (NAS) to conduct a study of the appropriateness of selecting one of several alternative BAC levels as the level at which a person operating a commercial motor vehicle would be deemed to be driving under the influence of alcohol. Based on the results of the study and the rulemaking comments, the Secretary of Transportation must promulgate a commercial driver BAC standard. States would be required to enact laws providing that any driver who operates a commercial motor vehicle at the Federal BAC level or above it is deemed to be driving under the influence of alcohol. States not enacting a BAC-level law for commercial motor vehicle drivers risk the loss of Federal-aid highway funds. The comments received will be made available to the NAS and will serve as the docket comments, along with the NAS study for a future Notice of Proposed Rulemaking.

DEPARTMENT OF TRANSPORTATION (DOT) — Proposed Rule Stage

Federal Highway Administration (FHWA)

1835. + FEDERAL MOTOR CARRIER SAFETY REGULATIONS: GENERAL

Significance: Regulatory Program

Legal Authority: 49 USC 3102; PL 98-554, Sec 206

CFR Citation: 49 CFR 390

Legal Deadline: None.

Abstract: This rulemaking action will address the general provisions regarding the Motor Carrier Safety Regulations (FMCSR) contained in Part 390 of 49 CFR. This rulemaking is being undertaken to implement section 206 of the Motor Carrier Safety Act (MCSA) of 1984 which mandated the reissuance of the FMCSR. Part 390 deals with motor carrier definitions and general provisions regarding motor carrier operations. This entry appeared in the April 1985 Regulatory Agenda under "Retail Fertilizer Distribution Exemption." Pursuant to section 206 of the MCSA, the ANPRM on retail fertilizer distribution exemption (2/10/82, 47 FR 5273) was withdrawn on 1/23/85 (50 FR 2998). This rulemaking action will incorporate the comments made to the 2/10/82 ANPRM since the provisions relating to exemptions for retail fertilizer equipment are contained in Part 390.

Significance: Regulatory Program

Legal Authority: 49 USC 3102; 23 USC 315

Legal Deadline: None.

Abstract: The FHWA is requesting comments on a proposal to amend the Federal Motor Carrier Safety Regulations (FMCSR) to make commercial motor vehicle drivers subject to alcohol and drug testing following involvement in a fatal accident, and to make the drug abuse regulations applicable to certain nondriving motor carrier personnel. Prior to this supplemental advance notice of proposed rulemaking (SANPRM), the FHWA issued a combined final rule and advance notice of proposed rulemaking (ANPRM) 51 FR 17568; May 13, 1986). The ANPRM requested comments and information on the following questions: (1) should drug screening for drivers be mandated or be a recommended industry practice; (2) should the prohibited nonalcoholic drugs list include all controlled substances on the Drug Enforcement Administration's Schedules of Controlled Substances; and (3) should confirmatory drug testing be mandated. This SANPRM gives notice that the FHWA is broadening the scope of its anti-drug proposal affecting all interstate or foreign commercial drivers. A single notice of proposed rulemaking will be published on this subject after the responses (cont)

Abstract: The FHWA is seeking public comment concerning the development of Federal commercial motor vehicle inspection standards which would be applicable to motor carriers engaged in interstate or foreign commerce. This action is required by section 210 of the Motor Carrier Safety Act of 1984. The proposed revisions will require motor carriers to comply with Federal inspection standards, a State inspection program or an authorized self-inspection program. The FHWA also proposes to add two definitions contained in section 204 of the Motor Carrier Safety Act of 1984.

Additional Information: The NPRM will propose revisions after having fully taken into account the public comments received to the ANPRM (01/10/85, 50 FR 1245). The 1/10/85 ANPRM also solicited comments on the provisions relating to the parts and accessories necessary for the safe operation of commercial motor vehicles. Significance: Regulatory Program

Legal Authority: 42 USC 3102; PL 98-554, Sec 206

CFR Citation: 49 CFR 390 to 399

Legal Deadline: Statutory, April 30, 1986.

Abstract: Section 206 of the Motor Carrier Act of 1984 (Pub. L 98-554) (the Act) directs the Secretary of Transportation to issue regulations pertaining to commercial motor vehicle safety. The Department has issued regulations, the Federal Motor Carrier Safety Regulations (FMCSR), on this subject under earlier authority (49 U.S.C. 3102). The purpose of this advance notice of proposed rulemaking (ANPRM) is to identify and solicit comment on specific changes which should be made to the FMCSR prior to reissuance in order to effectuate the purposes of the Act. The purposes of the Act are to ensure that: commercial motor vehicles are safely maintained, equipped, loaded and operated; the responsibilities of drivers do not impair their ability to drive safely; the physical condition of drivers is adequate to enable them to drive safely; and the operation of the vehicles does not have

deleterious effects on drivers. This rulemaking will be a comprehensive effort, and thus the Agency will incorporate certain other regulatory actions which have been proposed but have not yet been completed. There is no alternative to the overall reissuance of the FMCSR. However, (cont)

Additional Information: (ABSTRACT CONT:) the agency intends to propose specific changes to the FMCSR which will then be fully analyzed, including a full range of alternatives to each proposal. Similarly, potential costs and benefits cannot now be identified, but rather must await the development of a notice of proposed rulemaking. This rulemaking is significant because of substantial public interest. Due to the amount of subject matter which this rulemaking action addresses, each Part (390-399) will be addressed in separate rulemakings. Comments received in response to this action will be considered as appropriate regarding the separate rulemaking actions. See "Proposed Rule Stage" and "Final Rule Stage" portions of the agenda for actions resulting from this entry.

Significance: Regulatory Program

Legal Authority: 49 USC 3102; PL 98-554, Sec 110

CFR Citation: 49 CFR 393

Legal Deadline: None.

Abstract: This rulemaking action responds to section 210 of the Motor Carrier Safety Act of 1984. Section 210 requires the Department to open Part 393 of the Federal Motor Carrier Safety Regulations (FMCSR), which concerns the parts and accessories necessary for the safe operation of commercial motor vehicles for public comment and review. In essence, Part 393 is the basis for the vehicle inspection currently performed on vehicles operated by motor carriers subject to the jurisdiction of the DOT. Public comment has been requested pursuant to an ANPRM 01/10/85.

Significance: Regulatory Program

Legal Authority: PL 98-554, Sec 206; 49 USC App 2505

CFR Citation: 49 CFR 399

Legal Deadline: None.

Abstract: The Federal Highway Administration (FHWA) is considering proposing to revise Part 399 of the Federal Motor Carrier Safety Regulations (FMCSR) to implement Section 206 of the Motor Carrier Safety Act of 1984. This proposal would establish the duties of employers and drivers regarding employee safety and health. A motor carrier would be responsible for furnishing to each driver a place of employment that is free from recognized hazards that cause or are likely to cause death or injury to drivers. A driver would be responsible for cooperating with a motor carrier's safety program. It is anticipated that this general duty rule will cover those aspects of the driver environment (such as hot surfaces, lack of insulation, and broken equipment in or on the vehicle) that are not covered by present standards under the FMCSR.

Abstract: The Federal Highway Administration (FHWA) is proposing to amend Part 392 of the Federal Motor Carrier Safety Regulations (FMCSR) to (1) relax the requirement concerning a spare set of corrective lenses, (2) add language to include pretrip inspection of hazardous materials-laden vehicles and cargo tanks, (3) require drivers of hazardous materials-laden vehicles to notify emergency response personnel anytime a vehicle is disabled because of an accident or if the driver suspects an unintentional release of hazardous materials, (4) strengthen the disqualification criteria of drivers of hazardous materials-laden vehicles, (5) require a means of communication between the driver and passengers on an articulated vehicle, (6) delete the time requirement for the operation of head lamps, and (7) delete the prohibited practice rule concerning unauthorized passengers.

Significance: Regulatory Program

Legal Authority: 23 USC 315; 23 USC 2311(d)

Legal Deadline: None.

Abstract: The FHWA is seeking comments on a request to designate boat transporters as specialized equipment under provision of section 411(d) of the Surface Transportation Assistance Act of 1982 (STAA). Of prime concern are comments and information on the following issues relating to boat transporters: maneuvering characteristics, safety, control, offtracking, crosswind effects, and the need for overall length limits on boat transporters. Information on the similarities and dissimilarities between boat transporters and auto transporters would be most helpful as would information on the consistency of truck configurations used for hauling boats. The FHWA would also appreciate comments regarding the need to preempt current State regulation of this vehicle, as well as an actual definition and description of boat transporters. Comments are also being sought on the types of vehicles that should be considered as specialized equipment as well as an actual definition.

Abstract: This regulation proposes to consolidate and amend existing air quality requirements for transportation projects into a single amended air quality regulation. The amended regulation is intended to streamline and simplify (1) the process of determining which highway projects are exempt from the Federal assistance limitations of section 176(a) of the Clean Air Act (CAA), and (2) the conformity and priority procedures contained in 23 CFR 770. The amendments are also intended to provide more authority and flexibility to State and local agencies and to meet the objectives of the CAA in the most cost-effective and expeditious manner. The amendments are significant because they involve important departmental policy.

Abstract: The FHWA is considering proposing revisions to the requirements for private motor carriers of passengers and the drivers of private motor vehicles of passengers. The proposed revisions would require private motor carriers of passengers and drivers of private motor vehicles of passengers to operate under the Federal Motor Carrier Safety Regulations (FMCSR). However, the paperwork burden of these requirements will be minimized and several parts of the FMCSR will not apply to either private motor carriers of passengers or to drivers of such vehicles. This rulemaking is significant in that it is controversial, involving bringing new carriers under the regulatory scheme.

Abstract: The FHWA has determined that the issues associated with its authority to permit motor carriers to self-insure need to be examined in light of the insurance crisis affecting the motor carrier industry. The FHWA is seeking public comment from interested parties concerning self-insurance as a viable and effective mechanism for demonstrating financial responsibility as required by the Motor Carrier Act of 1980. This rulemaking action is considered significant because of the public interest in the issue being considered. This rulemaking action will also address the issue of requiring all for-hire motor carriers of passengers to carry evidence of having obtained financial responsibility meeting the statutory minimums in any motor vehicle being operated in for-hire service. A petition was filed by the American Bus Association (ABA).

permit States to increase the maximum time interval between the inspections for certain types or groups of bridges, as opposed to retaining the mandatory 2-year interval as required by regulations currently in effect. The proposed revisions would also require that States identify those bridges having fracture critical members or bridges which warrant underwater inspection consideration. The proposed revisions would provide State highway agencies greater flexibility with which to use available inspection resources in a cost-effective manner. It is intended that the proposed revisions would encourage efficient use of resources while ensuring that the safety of the traveling public is protected.

Significance: Regulatory Program

Legal Authority: 49 USC 2314; 49 USC 3102; Section 414 of STAA of 1982

CFR Citation: 49 CFR 393

Legal Deadline: None.

Abstract: Section 414 of the Surface Transportation Assistance Act of 1982 (Pub. L. 97-424) states that Congress declares the visibility on wet roadways in the Interstate System should be improved by reducing splash and spray from truck tractors, semitrailers and trailers. Congress instructed the Secretary to establish, by regulation, minimum standards with respect to the performance and installation of splash and spray suppression devices on truck tractors, semitrailers and trailers. Further, Congress mandated that all vehicles in use 5 years from date of enactment be equipped with such devices. The revisions to 49 CFR 393 will implement this mandate. This rulemaking is considered significant because of its economic impact on the motor carrier industry.

Abstract: The FHWA is proposing to provide a statement of FHWA interpretation and policy addressing the size and weight provisions contained in the Tandem Truck Safety Act of 1984 (TTSA) which amended the Surface Transportation Assistance Act of 1982 (STAA). This action addresses (1) conditions under which segments of the National System of Interstate and Defense Highways may be deleted from the National Truck Network, (2) conditions affecting the designation of new routes on the Federal-Aid Primary System as part of the National Truck Network, and (3) new provisions for 102-inch wide 28 1/2-foot semi-trailers. Significance: Regulatory Program

Legal Authority: 49 USC 3102; PL 98-554, Sec 206

Abstract: Section 206 of the Motor Carrier Safety Act of 1984 (Act) directs the DOT to reissue regulations pertaining to commercial motor vehicle safety. On November 23, 1984, the FHWA published a final rule at 49 FR 46145 regarding Hours of Service in order to comply with an opinion of the United States Court of Appeals for the District of Columbia Circuit. A docket was opened (MC-99-1) in order to request comments for further consideration of revisions to the requirement of the driver's record of duty status. Pursuant to section 206 of the Act, an ANPRM was issued (1/23/85; 50 FR 2998) and again requested comments regarding the requirement for recorded hours of service. This rulemaking action will incorporate all comments received to the above mentioned published rulemaking actions. This document will consider the possible elimination of certain items required on the driver's record of duty status and extending the 12-hour limitation in the 100 mile radius exemption to 15 hours or permitting a 50 mile radius rule as an option with the 15 hour rule. Abstract: The FHWA is proposing revisions to certain provisions established by the final rule on truck size and weight published at 49 CFR 23302 on June 5, 1984. This action proposes: (1) a definition for an automobile-transporter; (2) a minimum 75-foot overall length for a stinger-steered automobile-transporter; (3) the allowance of triple saddlemount combinations with a minimum length of 65 feet; and, (4) no overall length limitations for conventional tractor-semitrailer automobile transporters when the semitrailer is 48 feet in length. The purpose of this rulemaking action is

to clarify and further define certain issues contained in the June 5, 1984, final rule.

Abstract: By this action, the FHWA is taking steps to implement the 12-foot-wide lane provisions contained in the Surface Transportation Assistance Act of 1982 (STAA) as amended by the Tandem Truck Safety Act of 1984 (TTSA). An ANPRM published 4/1/85 at 50 FR 12825 identified for re-examination specific routes on the National Network containing sections with lanes less than 12 feet wide in those States which do not otherwise permit 102-inch wide vehicles on the National Network, pursuant to State law. These States are Alabama, Florida, Kentucky, Maryland, Missouri, New Hampshire, New Jersey, New York, North Carolina, Puerto Rico, South Carolina, Tennessee, and Virginia. After a review, FHWA intends to propose the deletion of highways with lane widths less than 12 feet wide if such designation is found to be inconsistent with highway safety. The FHWA is soliciting information, data and comments concerning these routes that may assist in the review.

Significance: Regulatory Program

Legal Authority: PL 98-554, Sec 215; 49 USC 3102

CFR Citation: 49 CFR 385

Abstract: Section 215 of the Motor Carrier Safety Act of 1984 requires the FHWA, in cooperation with the Interstate Commerce Commission, to establish a procedure to determine the safety fitness of owners and operators of commercial motor vehicles including persons seeking new or additional operating authority as motor carriers. Comments are being requested regarding the proposed changes in the current safety rating procedures and a new proposal for those carriers who have not previously been assigned a safety rating or who intend to be a new entrant into the motor carrier industry. It has been determined that this rulemaking action is a significant regulation under the regulatory policies and procedures of the Department of Transportation because of the total estimated indirect benefits that may result.

Abstract: An ANPRM had been issued requesting public comment on a petition to designate a particular combination of vehicles as specialized equipment under the provisions of section 411(d) of the Surface Transportation Assistance Act of 1982 (STAA). The FHWA is now issuing a final rule to implement section 324 of the Act Making Continuing Appropriations for Fiscal Year 1987, Pub. L. 99-591. This section amended section 411(f) of the Surface Transportation Assistance Act (STAA) of 1982 (Pub. L. 970424) to authorize the "maxi-cube" vehicle to operate on the National Network in the same way as vehicles authorized by section 411(d) of the STAA of 1982. The maxi-cube is a particular combination of vehicle described in the law. The ANPRM will be withdrawn.

Significance: Regulatory Program

Legal Authority: 23 USC 109; 23 USC 116; 23 USC 315

CFR Citation: 23 CFR 645

Legal Deadline: None.

Abstract: The FHWA is proposing to revise its regulation on the accommodation of utility facilities and private lines on the right-of-way of Federal-aid and direct Federal highway projects to clarify requirements regarding utility use of Federal-aid highways and to modify the conditions under which certain types of utilities may be located longitudinally on Federal-aid freeways (Interstate highways). This action considers the interest expressed by the telecommunication industry to gain access to the Interstate System for installation of underground fiber optics cable systems.

Significance: Regulatory Program

Legal Authority: PL 99-570, Sec 12003; PL 99-570, Sec 12004; 49 USC 2505; 49 USC 3102

CFR Citation: 49 CFR 391

Legal Deadline: Statutory, July 1, 1987.

Abstract: Sections 12003 and 12004 of Pub. L. 99-570 require certain requirements to be in place by July 1, 1987, regarding motor vehicle traffic violations (other than parking). The State and employer must be notified within 30 days of violations committed by commercial vehicle drivers. Also no employer, effective July 1, 1987, shall knowingly allow, permit, or authorize an employee to operate a commercial motor vehicle in the United States during any period in which an employee has more than one driver's license, or has a driver's license suspended, revoked, or cancelled by a State.

Legal Deadline: None.

Abstract: This regulation covers the preparation of environmental impact statements and related documents and compliance with other Federal environmental requirements under FHWA and UMTA grant programs. The changes are intended to streamline the project development process and provide increased decisionmaking authority to agency field offices. The amendments are significant because they involve important departmental policy. They are needed to reduce burdens associated with the environmental review process.

Additional Information: An interim policy statement was published 6/6/83 (48 FR 25181) to implement acceleration methods for selected projects within existing regulations. Initially, FHWA had considered issuing a new regulation as a vehicle for accelerating Federal-aid projects pursuant to Section 129 of the STAA of 1982. However, it has been determined that the objectives of Section 129 can be best implemented by revisions to existing regulations. Therefore, separate regulations will not be issued regarding the acceleration program. This approach received the concurrence of Deputy Administrator Lamm on April 11, 1984. This regulation will be withdrawn.

Significance: Nonsignificant

Legal Authority: 49 USC 10927 note

CFR Citation: 49 CFR 387

Abstract: The FHWA issued an interim final rule to redefine "environmental restoration" as that term is used in FHWA's financial responsibility regulations. This action was taken in response to a joint petition filed by the American Insurance Association (AIA) and the American Trucking Associations (ATA), and because of the current insurance crisis facing the motor carrier industry. This action made clear the motor carriers are required to provide evidence of financial responsibility to satisfy claims for damage to human health and to the environment including necessary restoration costs, but not for potential or speculative damages for which they would not otherwise be found liable.

Significance: Regulatory Program

Legal Authority: 49 USC 3102; 49 USC App 2509

CFR Citation: 49 CFR 393

Legal Deadline: Statutory, January 25, 1987.

Abstract: This rulemaking action amends the Federal Motor Carrier Safety Regulations (FMCSR) by revising the brake rules which currently allow trucks and truck tractors having three or more axles to be operated with no brakes on the front wheels. This action is intended to enhance the operational safety of commercial motor vehicles on the Nation's highways by establishing rules that are consistent with those of the National Highway Traffic Safety Administration (NHTSA) that govern the manufacture of new motor vehicles. It is significant because of public interest involved.

CFR Citation: 23 CFR 658

Legal Deadline: None.

Abstract: FHWA is revising certain provisions established by the final rule on truck size and weight published in 49 FR 23302 on June 5, 1984. This notice proposes to: (1) list length exclusive devices under 23 CFR 658.13(e) and (2) list width exclusive devices under 23 CFR 658.15(c). The purpose of these revisions is to clarify confusion among trailer manufacturers and carriers as to how trailer length and width are to be measured in order to comply with the Federal size limits. Length and width exclusive devices are defined in the June 5, 1984, final rule as any device attached to either the sides, front, or rear of a semitrailer or trailer whose function is related to the safe and efficient operation of the unit. However, in keeping with the Surface Transportation Assistance Act of 1982, no device excluded from length or width determination is permitted to be designed or used for carrying cargo. FHWA issued a notice of interpretation regarding length and width exclusive devices.

CFR Citation: 49 CFR 571.301

Abstract: This standard, which is applicable to passenger cars, light trucks, and school buses, specifies requirements for the integrity of motor vehicle fuel systems. The purpose of the standard is to reduce deaths and injuries caused by fires which result from fuel spillage after motor vehicle crashes. This evaluation follows up and expands on a prior study on passenger cars which showed that while the regulation was effective in preventing deaths and injuries, the incidence of crash fires appeared to be increasing. This evaluation will also provide the initial assessment of the regulation as it applies to light trucks. A review has determined that this rule has minimal effects on small entities, and therefore a Regulatory Flexibility Act Review is not required. The rule will still be reviewed as a priority review item. Subsequent to completion of the study and provision for public comment, the Agency will consider whether changes should be made in the standard's requirements.

Significance: Regulatory Program

Legal Authority: 49 USC 2314

Abstract: In accordance with the mandate of section 414 of the Surface Transportation Assistance Act of 1982, would establish minimum standards with respect to the performance of splash and spray suppression devices on truck tractors, semitrailers and trailers. Would also establish minimum standards with respect to the installation of splash and spray suppression devices on new vehicles. Additional Information: NHTSA's rulemaking would only affect new vehicles and equipment. However, section 414 of the Surface Transportation Assistance Act also mandates that the Department of Transportation establish minimum standards with respect to the installation of splash and spray devices for vehicles already in service. The Federal Highway Administration will conduct the rulemaking to satisfy that mandate. The Federal Highway Administration has classified its rulemaking as major. The costs of that rulemaking are expected to be much greater than NHTSA's rulemaking since (1) the population of vehicles in service is many times the annual production of new trucks, (2) a truck manufacturer will pay less per unit for each splash and spray suppression device when ordered in large quantities, and (3) the labor time to install the devices is far less for a new truck manufacturer, since it can be done at the assembly plant. In 1984, the Surface Transportation Assistance Act was amended to change the implementation date from 1/1/85, for new vehicles and 1/1/88, for vehicles in service, to one year after publication of the Final Rule for new vehicles & 3 years later for vehicles in service.

Abstract: Proposes a comprehensive review of headlighting requirements of FMVSS No. 108 which may be simplified, while being consistent with motor vehicle safety. The agency has concentrated its efforts into five principal areas. The first is the feasibility of a standard directed toward on-board original equipment headlighting performance rather than toward performance of individual aftermarket headlamps in a laboratory environment. The second is the desirability of specifications for headlamp life. The third concerns the necessity of dimensional specifications for headlamp equipment. The fourth is the issue of headlamp aim. The fifth is the elimination of obsolete photometric requirements.

Abstract: A petition was received from the Insurance Institute for Highway Safety (IIHS) on November 8, 1985. It requests that the Federal lighting regulation (FMVSS No. 108) be changed to allow installation of daytime running lights (DRLs) by original equipment manufacturers. Although the existing standard does not specifically prohibit DRLs, some changes to FMVSS No. 108 would be required to accommodate various suggested DRL configurations. NHTSA has exchanged information with Transport Canada on DRLs, and on the evaluation of effectiveness of various DRL configurations. Canada issued a proposed regulation which would require that new vehicles be equipped with DRLs. The agency would like to ensure that changes made in FMVSS No. 108 are compatible with the final technical specifications of Transport Canada. NHTSA plans to take action on the IIHS petition now that the Canadian NPRM is published. Proceeding is significant because of the importance of keeping pace with the Canadian action.

Legal Deadline: None.

Abstract: Would establish a new brake standard for all trucks, buses and trailers with a Gross Vehicle Weight Rating (GVWR) over 10,000 pounds. This standard would replace Standard No. 121, Air Brake Systems, and that portion of Standard No. 105, Hydraulic Brake Systems, that applies to vehicles with a GVWR over 10,000 pounds. It would also establish new requirements for heavy trailers having other than air-actuated brakes. In developing the standard, the agency will consider compatibility with international regulations. Research programs in support of this new standard and possible future upgradings of the standard will investigate such long-term advanced braking system concepts as automatic brake adjustors, load-sensing proportioning valves, air driers, and retarders for heavy trucks, buses and trailers. This rule is considered significant because of the level of public and Congressional interest. It is necessary to prevent and reduce the severity of accidents involving heavy vehicles by providing increased accident avoidance capability.

Significance: Nonsignificant

Legal Authority: 15 USC 1392; 15 USC 1407

CFR Citation: 49 CFR 571

Legal Deadline: None.

Abstract: In response to a petition for rulemaking, the agency is proposing a new regulation to add a requirement that 102-inch wide trailers be equipped with axle tracks having a minimum axle width of 77 inches. An advanced notice of proposed rulemaking seeking comments on the safety issue raised by the petition was published on May 22, 1984 (49 FR 21551). This rulemaking is significant because of the possible substantial impact on the industry and because it is a joint venture involving two operating administrations.

1929. VOLUNTARY VEHICLE IDENTIFICATION STANDARD (THEFT PREVENTION STANDARD)

Significance: Nonsignificant

Legal Authority: 15 USC 2033

CFR Citation: 49 CFR to be determined

Legal Deadline: None.

Abstract: NHTSA will promulgate a voluntary vehicle identification standard under which any person may elect to inscribe or affix an identifying number or symbol on major parts of any motor vehicle manufactured or owned by such person for purposes of section 511 of Title 18, United States Code, and related provisions. Compliance with this standard shall not relieve any manufacturer of motor vehicles from compliance with the requirements of the Federal motor vehicle theft prevention standard (49 CFR Part 541), or any other applicable regulation. Action is significant because it supplements the statutory requirement of 15 USC 2033 by allowing consumers to protect their vehicles and parts by identifying them.

1933. + POST-1986 PASSENGER CAR FUEL-ECONOMY STANDARDS

Significance: Regulatory Program

Legal Authority: 15 USC 2002

CFR Citation: 49 CFR 531

Legal Deadline: Statutory. Amendments reducing the fuel economy standard for a particular model year are required to be made by the beginning of a model year.

Abstract: General Motors (GM) and Ford have petitioned for reduction of the passenger car average fuel economy standards for Model Year 1986 and beyond. The Center for Auto Safety and the Environmental Policy Institute petitioned to raise the standards for Model Years 1987 through 1990. All of these petitions were addressed in rulemakings which reduced the standard from 27.5 miles per gallon (mpg) to 26.0 mpg for Model Years 1986 through 1988 (10/06/86, 51 FR 35594) Further rulemaking action, for Model

Years 1989 and beyond, is undetermined at this time, pending potential legislative action to repeal or amend the CAFE legislation.

Significance: Agency Priority

Legal Authority: 15 USC 2025

CFR Citation: 49 CFR 543

Legal Deadline: None. Statute requires petitions for exemption to be submitted 8 months before start of production of passenger vehicle line.

Abstract: Establishes procedures to be followed by manufacturers in preparing and submitting petitions for exemptions from the vehicle theft prevention standard. Passenger motor vehicle manufacturers may petition NHTSA for these exemptions for vehicle lines whose standard equipment includes an antitheft device that is likely to be as effective as compliance with the vehicle theft prevention standard in deterring and reducing vehicle theft. Procedures are also established which the agency will follow in processing these petitions and in reaching determinations on whether they should be granted. These procedures have been issued as an interim final rule for MY 1987 and as a proposed rule for MYs 1988 and thereafter.

Significance: Nonsignificant

Legal Authority: 15 USC 1392; 15 USC 1407

CFR Citation: 49 CFR 571.101

Legal Deadline: None.

Abstract: Final rule amends Standard No. 101 to permit greater flexibility in the illumination and identification of controls and displays. The rule allows gauges to have a two-level lighting intensity, rather than being continuously variable over a wide range. It distinguishes between critical telltales, such as the turn signal indicators, which must be visible under all lighting conditions, and less significant telltales, such as the water temperature indicator, which are permitted the same range of intensity as gauges. The term, "informational readout display" is eliminated as no longer useful. To accommodate new display technologies, the rule permits the cancellation of messages, but requires them to be retrievable by the driver. The use of specified words to identify controls is permitted, as an alternative to the symbols now required for many controls. This action was initiated in response to several petitions for rulemaking.

Legal Authority: 15 USC 1392; 15 USC 1407

CFR Citation: 49 CFR 571.208

Legal Deadline: None.

Abstract: Final rule allows compliance with standard 208 by means of vehicles equipped with driver-side-only air bags, with dynamically tested manual safety belts at the front-seat passenger position, for four additional years (1989-1993), after which time each vehicle must comply with both outboard front seats. The rule is intended to encourage the orderly development of full front-seat air bags.

Abstract: Adoption of amendments to safety standard No. 108 to allow motor vehicles including motorcycles to be equipped with Type A and Type E headlamps with a simplified mounting system intended to improve the incidence of correct headlamp aim. The headlamps are designated Type G and Type H. The retaining ring and mounting ring assembly used to hold the headlamp in place are eliminated. The new mounting system incorporates integral mounting aiming tabs on the body of the headlamp and permits the headlamp to attach directly to the aiming screws and thus the car body. Legal Authority: 45 USC 431; 45 USC 438

CFR Citation: 49 CFR 219

Legal Deadline: None.

Abstract: FRA is actively supporting legislation that has been introduced in the Congress that would require random testing of railroad employees and enhance FRA's authority in this area. In the meantime, FRA has held an informal safety inquiry to secure information from the public that will assist FRA in drafting a random-testing rule and in evaluating all other issues surrounding FRA's rule on the control of alcohol and drug use in railroad operations. At such time as random-testing legislation is enacted, FRA will be in a position to quickly issue an NPRM. If, for any reason, random-testing legislation is not enacted, FRA will nevertheless proceed with an NPRM dealing with random testing and any other appropriate amendment to FRA's rule.

Significance: Agency Priority

Legal Authority: 49 USC 1602; 49 USC 1607

CFR Citation: 49 CFR 636

Legal Deadline: None.

Abstract: This regulation would require each transit agency that receives Federal financial assistance to have a maintenance program that states maintenance goals and objectives, provides for adequate maintenance for both fixed facilities and equipment, and provides for adequate personnel to meet the goals and objectives of the program. The proposed rule would also require that each transit agency retain or assemble information necessary for UMTA to review the transit agency's actual maintenance activities and make determinations on compliance as required by statute. This rule is significant because it concerns a matter on which there is substantial controversy. UMTA is reviewing this initiative to determine if rulemaking is practicable.

Additional Information: The Surface Transportation Assistance Act of 1982 (1982 STAA) included maintenance provisions in both sections 3 and 9 of the UMT Act. In the new section 9 block grant program, Congress provided that all recipients must certify that they will maintain facilities and equipment. UMT Act section 9(e)(3)(B). Section 9(g)(1) authorizes UMTA to determine by review or audit whether the recipients have complied with the maintenance requirement. The 1982 STAA also amended the section 3 discretionary grant and loan program by adding a provision that requires applicants to have sufficient capability to maintain facilities and equipment obtained with Federal assistance. UMT Act 3(a)2(A)(iii). This proposed regulation would provide UMTA with the information necessary to implement these provisions.

Abstract: This rulemaking, which implements Section 165 of the Surface Transportation Assistance Act of 1982 (P.L. 97-424) would amend the existing regulations which were published in 1983. Additional Information: When the regulation was published in 1983, UMTA requested comments on how it should treat both domestic and foreign subcomponents in calculating the cost of components in rolling stock procurements. UMTA proposed using an existing Bureau of Customs procedure to trace subcomponents produced in the U.S. which are shipped abroad and then assembled into another article and returned to the U.S. Foreign-made subcomponents which are imported into the U.S. can also be traced using Customs documentation. The amended regulations would reflect comments received on the 1983 NPRM and experience to date.

Legal Authority: 49 USC 1607(e); 49 USC 1602(e); 49 USC 1607a(f)

CFR Citation: 49 CFR 614

Legal Deadline: None.

Abstract: UMTA had considered proposing regulations which would encourage, to the maximum extent feasible, the participation of private enterprise in plans and programs that receive Federal funding under the UMT Act. However, on January 29, 1986, UMTA published a Notice in the Federal Register providing more specific guidance to its grantees relating to private enterprise participation for fiscal year 1986. That Notice stated that it would be followed by a Circular establishing guidance for future years. The Circular, issued on December 5, 1986, reflects specific congressional guidance in the 1987 DOT Appropriations Act (Pub. L. 99-500) relating to private enterprise participation, and provides guidance to UMTA grantees on the private sector provisions of the UMT Act. A Notice of the availability of the Circular was published in the Federal Register on December 10, 1986.

Abstract: The current regulations require reports of hazardous material incidents. The objective of this review is to determine if the current data requirements can be modified to reduce the burden on industry but still result in the collection of the information needed for the hazardous materials safety program. Although safety programs, such as the one covered by these regulations, require data in order to function properly, it is possible that the data collection can be made less burdensome.

Significance: Agency Priority

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1387

CFR Citation: 14 CFR 241; 14 CFR 298; 14 CFR 399

Legal Deadline: None.

Abstract: The threshold for the aviation-information program for regulatory flexibility analysis is 60 seats or maximum payload of 18,000 pounds or less. Carriers operating aircraft under these limits are considered small carriers. FAA, on the other hand, uses a threshold based on the operational certificate requirements (Part 121 versus Part 135) with the threshold established at 30 seats or maximum payload of 7,500 pounds for a Part 135 certificate. FAA regulatory analysis for safety, congestion, etc., centers around the lower threshold which means much of the aviation economic information that they use has to be manipulated to fit their needs. This proposal of standardizing the threshold within the Department would save considerable resources and would eliminate much confusion in the air transportation industry. Most carriers, especially the newer ones, are familiar with FAA's requirements.

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1374; 49 USC 1386

CFR Citation: 14 CFR 298

Abstract: Currently commuter air carriers providing scheduled passenger service file two quarterly traffic schedules. One schedule summarizes nine traffic elements while the other schedule provides the origination and destination for all the carriers' on-line passengers. The Department is considering proposing a new traffic and market data system for certificated and foreign air carriers. This system could be used for commuter air carriers providing the Department with one automated traffic and market data system for all carriers. This system would be less burdensome for the commuter air carriers and be more efficient for the user.

Abstract: The present definition of revenue and nonrevenue passengers for aviation reporting purposes is stated in terms of the exemptions for free and reduced-rate transportation in section 403(b) of the Federal Aviation Act of 1958. These definitions have become outmoded in the process of air-fare deregulation. In addition, first class and coach passengers are defined in terms of the type of fare paid with premium or standard fares being the benchmark for first class. With deregulation and the proliferation of new air fares in the marketplace, these definition may also be outmoded. The DOT is considering several options for revising these definitions.

Abstract: To develop performance-oriented packaging standards and hazardous material classification based on the United Nations Committee of Experts on the Transport of Dangerous Goods. Also includes former non-significant rulemakings entitled "Consolidation of Specifications and Establishment of Performance Standards for Specification Bags" (Docket No. HM-153), "Specifications for and use of Specification 17 Steel Drums" (Docket No. HM-182), and "Organic Peroxide Requirements" (Project 186-72). The rulemaking is significant because a large number of specifications for packaging in the Hazardous Materials Regulations would be affected by this project. To a large extent the complexity and mass of the present Hazardous Materials Regulations are due to the detailed specification-type packaging standards contained in these regulations. To replace these with standards based on the U.N. system would both simplify the present regulations and facilitate international trade.

Abstract: DOT is proposing a rule that would require submission to DOT of nonstop market data from foreign carriers providing scheduled service between their home countries and the United States. This information is needed to evaluate existing bilateral agreements and reciprocity between U.S. and foreign countries. In addition international charter data currently collected from carriers may also be incorporated with service-segment reporting. This information may very well replace some of the data currently collected by the Immigration and Naturalization Service (INS) on Form I-92. Although there will be some start-up costs, it is anticipated that over the long run there will be substantial savings for both the industry and the government. Significance: Regulatory Program

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1377; 49 USC 1387

CFR Citation: 14 CFR 241

Legal Deadline: None.

Abstract: Large U.S. air carriers file detailed service segment data in ADP format for scheduled operations, while smaller carriers file a condensed version on a hardcopy form. Charter data is filed on another form. The Department will issue a rulemaking proposing to incorporate all three systems onto one automated data system by standardizing the reporting between scheduled and charter operations. Much of the data currently collected will be proposed for elimination. Also, much of the data reported on the hardcopy Form 41 T-Schedules can be eliminated, since the foreign air carrier traffic and market reporting (2137-AA97) will be incorporated into this automated system providing a uniform traffic and market system for the Department.

Legal Authority: 49 USC 1803; 49 USC 1804; 49 USC 1805; 49 USC 1806; 49 USC 1807; 49 USC 1808

CFR Citation: 49 CFR 172.101; 49 CFR 173.420

Legal Deadline: None.

Abstract: RSPA proposes to incorporate the existing industry packaging standards for Uranium Hexafluoride (UF6), specifically, American National Standards Institute Standard N 14.1 - 1982, into the Hazardous Materials Regulations (49 CFR Parts 100-179). Additionally, the requirement that UF6 be shipped in solid form is believed necessary to reduce the possibility of packaging failure and/or accidental release of UF6 during transportation. Because of the safety record exhibited by packagings filled and maintained in accordance with the ANSI Standard, development of new standards would be impractical. Incorporation of existing standards believed to be currently followed by industry is the most cost-effective method of establishing Federal standards and increasing conformity and safety in transportation of UF6. In response to numerous petitions for reconsideration from industry dealing with the use of existing packagings, the Department will reopen this specific issue in the new NPRM.

Significance: Agency Priority

Legal Authority: PL 99-499, Sec 202

CFR Citation: 49 CFR 171; 49 CFR 172; 49 CFR 173

Legal Deadline: Statutory, November 17, 1986. Section 202 of Pub. L. 99-499, the Superfund Amendments and Reauthorization Act (SARA) amended CERCLA on October 17, 1986 and required the Secretary to list and regulate hazardous substances as hazardous materials within 30 days.

Abstract: This final rule amends the Hazardous Materials Regulations (HMR) by incorporating into these regulations as hazardous materials, substances designated as hazardous substances under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA; Pub. L. 96-510).

Significance: Regulatory Program

Legal Authority: 46 USC 1114(b); 46 USC 1117; 46 USC 1204; 46 USC 1156

CFR Citation: 46 CFR 276.3

Legal Deadline: Judicial, July 16, 1987.

Abstract: The Department issued a rule in 1985 allowing vessels built with construction-differential subsidy (CDS) to repay that CDS in exchange for permission to operate in the domestic trade. Section 506 of the Merchant Marine Act of 1936, as amended, prohibits CDS vessels from operating in the domestic trade. This action will address the decision by U.S. Court of Appeals for the District of Columbia which vacated the Department's CDS Repayment rule (50 FR 19170, May 7, 1985). The court delayed the effective date of its order to vacate the rule until July 16, 1987, to allow the Department to undertake further proceedings to address the problems of the merchant marine trade. The Department is initiating a rulemaking proceeding to replace the vacated rule by the deadline established by the court.

Abstract: This regulation would require provision of rate and cost data to MARAD so it can determine fair and reasonable rates for carriage of preference cargo in bulk vessels at the request of concerned Federal agencies. MARAD would calculate guideline fair and reasonable rates using a methodology which would base those rates on a vessel's actual or constructed costs as determined from data submitted by the operator. It would establish requirements for submission of data on which the methodology would be based. This rulemaking is significant because it concerns a matter on which there is substantial public interest. It would clarify the meaning of a statutory term.

Abstract: The Maritime Administration intends to redesignate U.S., foreign trade routes determined to be essential for the promotion, development, expansion and maintenance of the foreign commerce of the United States, under authority in the Merchant Marine Act, 1936. There have been no substantial changes in essential trade route designations since the Act's enactment, other than inclusion of the U.S. Great Lakes. This action recognizes that in recent years major changes in shipping technology and U.S. trade patterns have emerged. It would consolidate the present 29 essential trade routes and essential trade areas into fewer essential trade areas.

Significance: Agency Priority

Legal Authority: 46 USC 1171 to 1176; 46 USC 1178 to 1181

CFR Citation: 46 CFR 252

Legal Deadline: None.

Abstract: Under the current system for determining subsidy for bulk vessels as set forth in 46 CFR 252, final payments are delayed an average of three years. The current system precludes the operators from timely receipt of monies due them, thereby hindering the companies' cash management capability and the government's ability to forecast accurate budget obligations. The amended rule prescribes new procedures for determining subsidy. The new system provides payment of ODS as a fixed and final daily amount so the operators and the government can firmly establish the amounts of subsidy receivable on a current basis.

Legal Authority: 46 USC 1295g

CFR Citation: 46 CFR 310

Legal Deadline: None.

Abstract: MARAD proposed to implement a provision in the Maritime Education and Training Act of 1980 to make excess or surplus vessels, shipboard equipment and other marine equipment available to the USMMA, State Maritime Academies and other nonprofit training institutions approved jointly by MARAD and the Coast Guard. Action has been suspended.

2053. MERCHANT MARINE TRAINING; REGULATIONS AND MINIMUM STANDARDS FOR STATE, TERRITORIAL OR REGIONAL MARITIME ACADEMIES AND COLLEGES

Significance: Nonsignificant

Legal Authority: 46 USC 1114(b); PL 97-31

CFR Citation: 46 CFR 310

Legal Deadline: None.

Abstract: The Maritime Administration is considering amending its merchant marine training regulations to rescind a 10-percent reduction in the number of student incentive payments offered to incoming students at the state maritime academies/colleges. The reduction which is being rescinded was published in the Federal Register on April 4, 1984, as one of a number of amendments to 46 CFR Part 310 (49 FR 13364). This action was considered necessary because the 1985 and 1986 funding levels for maritime training, contained in appropriation legislation, exceeded the funding level that had been reflected in the April 1984 MARAD rulemaking action.

Timetable:

Action	Date	FR Cite
Withdrawn	12/31/86	

Small Entity: No

Additional Information: Rulemaking withdrawn because 1987 maritime training appropriation was consistent with existing regulation.

Affected Sectors: 822 Colleges, Universities, Professional Schools, and Junior Colleges; 44 Water Transportation

LIST OF PUBLIC LAWS

Last List April 23, 1987

Note: No public bills which have become law were received by the Office of the **Federal Register** for inclusion in today's **List of Public Laws.**

Last List April 24, 1987

CFR CHECKLIST

This checklist, prepared by the Office of the Federal Register, is published weekly. It is arranged in the order of CFR titles, prices, and revision dates.

An asterisk (*) precedes each entry that has been issued since last week and which is now available for sale at the Government Printing Office.

New units issued during the week are announced on the back cover of the daily **Federal Register** as they become available.

A checklist of current CFR volumes comprising a complete CFR set, also appears in the latest issue of the LSA (List of CFR Sections Affected), which is revised monthly.

The annual rate for subscription to all revised volumes is $595.00 domestic, $148.75 additional for foreign mailing.

Order from Superintendent of Documents, Government Printing Office, Washington, DC 20402. Charge orders (VISA, MasterCard, CHOICE, or GPO Deposit Account) may be telephoned to the GPO order desk at **(202) 783-3238** from 8:00 a.m. to 4:00 p.m. eastern time, Monday—Friday (except holidays).

2057. BANK SECRECY ACT AMENDMENTS TO IMPLEMENTING REGULATIONS

Legal Authority: 12 USC 1829b; 12 USC 1951 to 1959; 31 USC 5311 to 5323

CFR Citation: 31 CFR 103

Legal Deadline: None.

Abstract: This regulation is intended to strengthen the enforcement of the Bank Secrecy Act. Among the most important proposals are several complementary measures that address the problem of professional money laundering by adding new recordkeeping and reporting requirements. Additional proposals would require foreign currency dealers to maintain additional records, require banks to obtain signed statements from customers whose transactions they wish to exempt from reporting, and require financial institutions to retain records of certain purchases of more than $3000 in monetary instruments.

Legal Authority: 31 USC 3711; 31 USC 3720A

CFR Citation: 31 CFR 5

Legal Deadline: None.

Abstract: These regulations implement 31 USC 3720A, which authorizes Federal agencies to notify the Internal Revenue Service of past-due legally enforceable debts for the purpose of offsetting the debtors tax refund by the amount of the debt. The regulations affect any taxpayer who has made an overpayment of taxes and who owes a past-due legally enforceable debt to a bureau of the Department of the Treasury.

Legal Authority: 31 USC 6701 to 6724; PL 99-272

CFR Citation: 31 CFR 51

Legal Deadline: None.

Abstract: Congress has repealed the Revenue Sharing Act effective December 31, 1986 or the adjournment sine die of the 99th Congress whichever is earlier. Some regulatory changes have been made but final changes may need to be made in the regulations in order to effectuate this repeal. No alternative to wind-down of the Program or repeal of the Act exists. The elimination of the Program will be a substantial cost-cutting action.

Significance: Agency Priority

Legal Authority: 5 USC 5525; 12 USC 391; 31 USC 321

CFR Citation: 31 CFR 210, (Revision)

Legal Deadline: None.

Abstract: Revision of 31 CFR 210 will expand the Direct Deposit/Electronic Funds Transfer (DD/EFT) program so that payments to meet Federal obligations can be made directly by DD/EFT. These include non-benefit payments such as vendor payments, miscellaneous payments, Internal Revenue Service (IRS) tax refunds, savings bonds, grants and loans. It will also include the payment of discretionary allotments of net pay of Federal employees' salaries by DD/EFT. Electronic funds thus transferred through the Federal Reserve System eliminate the possibility of checks being lost, stolen, or forged. The Federal Government's operating efficiency will be improved, productivity will be increased, and the costs associated with the current methods will be reduced.

Significance: Agency Priority

Legal Authority: 31 USC 6503

CFR Citation: 31 CFR 205

Legal Deadline: None.

Abstract: Revision of 31 CFR 205 will implement a new funding technique for Federal programs. The regulation would require a State to pay interest on Federal funds from the time they are deposited to the State's account until the time those funds are paid out to redeem checks or warrants or make payments by other means. This new "Checks Issued-Interest Remitted" technique was developed in response to statutes in some States that require that funds reside in a bank account prior to the issuance of checks. This revision also provides for the remittance of interest by the Federal Government if a State disburses its own funds for program purposes in accordance with Federal law, regulation or Federal/State agreement.

Significance: Agency Priority

Legal Authority: 12 USC 391; 31 USC 321

CFR Citation: 31 CFR 210, (Revision)

Legal Deadline: None.

Abstract: There are three reasons for this revision of 31 CFR Part 210, which defines the responsibilities and liabilities of the Federal Reserve Banks, financial institutions, and recipients participating in the Automated Clearing House (ACH) payment system. First, changes regarding the enrollment procedure are made to allow the United States Department of the Treasury to devise, test, and implement creative and innovative means of enrollment while improving the Direct Deposit/Electronic Funds Transfer system's flexibility. Second, the problem of fraud in the Direct Deposit Program is addressed. Finally, the overall clarity and arrangement of the regulation is improved. This revision addresses these needs.

Unified Agenda of Federal Regulations

AGENCY: Bureau of Alcohol, Tobacco and Firearms (ATF); Treasury.

ACTION: General notice; Unified Agenda of Federal Regulations of regulatory projects under development, consideration, and review.

SUMMARY: Pursuant to section 5 of Executive Order 12291, entitled "Federal Regulations," ATF is publishing an agenda of proposed regulations that are expected to be issued and of proposed regulations that have been issued and an agenda of existing regulations that are being reviewed under the terms of the Executive Order, within the next six months. The latter agenda also lists regulatory projects identified for review pursuant to the ATF Regulatory Reform Program. Pursuant to section 610 of the Regulatory Flexibility Act (Pub. L. 96-354; 5 U.S.C. 610), ATF is also indicating whether a regulatory project is likely to have a significant economic impact upon a substantial number of small entities.

This general notice is designed to give the public adequate notice of the regulatory activities being contemplated by ATF.

The agenda is based on information available at the present time. The next Unified Agenda of Federal Regulations will be published in the **Federal Register** of October 1987.

FOR FURTHER INFORMATION CONTACT: For information about any particular regulatory project, contact the person listed in the subheading "Agency Contact," for the regulatory project.

2075. NON-GENERIC DESIGNATIONS OF GRAPE WINE HAVING GEOGRAPHICAL SIGNIFICANCE

Significance: Agency Priority

Legal Authority: 27 USC 205

CFR Citation: 27 CFR 4.24

Legal Deadline: None.

Abstract: This proposal expands the list of names officially recognized under 27 CFR Part 4, as being non-generic for the purposes of labeling and advertising of wine. This proposal is the result of petitions from numerous foreign countries for ATF recognition of non-generic wine designations which, in their view, denote distinctive national products. This proposal is also an outgrowth of one of the commitments made by the United States, in the Exchange of Letters of July 26, 1983 with the Commission of the European Communities, to work within the regulatory framework of 27 CFR Part 4, to prevent erosion of non-generic designations of geographic significance. For practical reasons it is being proposed that only "examples" of non-generic designations be listed in Part 4 while a complete list of all non-generic designations be listed in a new Part 12.

Significance: Agency Priority

Legal Authority: 27 USC 205

CFR Citation: 27 CFR 5.22(b)(1)(iii); 27 CFR 19.346(b)

Legal Deadline: None.

Abstract: Current regulations do not provide for distilled spirits plant proprietors to mingle and still designate as straight whiskies of the same type produced at different distilleries or produced by different distillers. This project will allow such whiskies to be labeled as straight as long as the whiskies are produced within the same state. Their only alternative is to leave the regulations as they are and to not allow such whiskies to be mingled and designated as straight. We do not anticipate any extra costs to result from this change in regulations. This change will result in greater flexibility for distilled spirits plant proprietors.

2095. REDUCED PROOF DISTILLED SPIRITS PRODUCTS

Significance: Agency Priority

Legal Authority: 27 USC 205

CFR Citation: 27 CFR 5.22

Legal Deadline: None.

Abstract: ATF is proposing to amend the regulations to provide for reduced proof distilled spirits products similar to "light beer," "light wine" and similar "light products which have become increasingly popular with consumers in recent years. Since 1968, the words "light whisky" have referred to whisky produced by two processes which are different from other American whiskies and the term "light" does not refer to lower alcohol content. However, ATF is considering abolishing "light whisky" as a standard of identity, so that the word "light" can refer only to reduced alcohol content. Unlike wine and beer, distilled spirits products are usually sold at more than one bottling proof (e.g. whisky is frequently sold at 80 degrees, 86 degrees, and 100 degrees proof) with the difference in proof being the only distinction between products which are otherwise identical. Therefore, ATF must carefully consider

labeling to ensure there exists a clear cut difference in the minds of consumers between products at minimum bottling proof or above minimum bottling proof, and those which are reduced in proof.

Semiannual Agenda of Regulatory Actions

AGENCY: Office of the Comptroller of the Currency, Treasury.

ACTION: Semiannual agenda of regulations.

SUMMARY: As required by the Regulatory Flexibility Act and Executive Order 12291, the Office of the Comptroller of the Currency (Office) has prepared this semiannual agenda of its rules and regulations currently under review and scheduled for review. Regulatory actions taken since the publication of the Office's previous semiannual agenda on October 27, 1986 (51 FR 38766) are also included. It is expected that this semiannual agenda will enable the public to be more aware of, and allow it to more effectively participate in, the Office's regulatory activity.

ADDRESS: The mailing address for all contacts: Office of the Comptroller of the Currency, 490 L'Enfant Plaza East, SW., Washington, DC 20219.

FOR FURTHER INFORMATION CONTACT: For general information about this semiannual agenda, contact Nancy Lowther, Financial Analyst, Legislative and Regulatory Analysis Division, (202) 447-1177.

For additional information about a particular item on this semiannual agenda, contact the individual identified as the contact person.

SUPPLEMENTARY INFORMATION: The Office has determined that none of the rulemakings discussed in this semiannual agenda requires a regulatory flexibility analysis; all entries have been determined not to have a "significant impact on a substantial number of small entities," and therefore are not subject to the provisions of the Act. Additionally, none of the rules is a "major" rule as defined by Executive Order 12291. Executive Order 12291 defines a "major" rule as one likely to result in:

(1) An annual effect on the economy of $100 million or more;

(2) A major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or

(3) Significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

DATED: February 18, 1987.

Robert L. Clarke,

Comptroller of the Currency.

2097. FIDUCIARY POWERS OF NATIONAL BANKS AND COLLECTIVE INVESTMENT FUNDS

Legal Authority: Sec 1, 77 Stat 668; 12 USC 92a; 12 USC 481

CFR Citation: 12 CFR 9

Legal Deadline: None.

Abstract: Comments in response to a prior rulemaking Final Rule Docket No. 80-16 (46 FR 71571) published October 29, 1980 included recommendations that additional amendments should be made to 12 CFR Part 9. The Office believes that the issues raised by the commenters can best be addressed through a comprehensive review of its regulations concerning national bank fiduciary powers and collective investment funds. The Office requested comments from the public as to the desirability and feasibility of a comprehensive review of its trust regulations pertaining to collective investment funds, including specific matters which should be addressed. In view of the favorable disposition of litigation impacting on the fiduciary powers of national banks and collective investment funds (Investment Company Institute v. Clarke, 789 F.2d 175 (2d Cir. 1986), cert. denied, 55 U.S.L.W. 3316 (U.S. Nov. 4, 1986); Investment Company Institute v. Conover, 790 F.2d 925 (D.C. Cir. 1986), cert. denied, 55

2100. SECURITIES EXCHANGE ACT DISCLOSURE RULES

Legal Authority: 15 USC 78

CFR Citation: 12 CFR 11, (New Subsection)

Legal Deadline: None.

Abstract: The proposed rule would require that more detailed and meaningful information be provided to shareholders and this Office concerning banks' loan portfolios, including loans to borrowers in foreign countries experiencing liquidity problems, other sources of income and exposure to risks. This will assist shareholders in evaluating proposals for mergers, consolidations, acquisitions and similar matters and will assist the Office in administering and enforcing the Securities Exchange Act of 1934 as it applies to national banks. The Office considered not proposing the additional amendments or proposing them as a general guide rather than a rule. However, the Office determined it was appropriate to propose the additional requirements as amendments to part 11 because the Office believes the proposed requirements will help to clarify the types of disclosures which the Office, shareholders and the public would consider material in analyzing various Exchange Act filings and statements. The effect on small entities will be considered in the development of this rulemaking

2101. INVESTMENT SECURITIES REGULATION

Legal Authority: 12 USC 1 et seq; 12 USC 24(7)

CFR Citation: 12 CFR 1

Abstract: The Office proposes to amend this regulation to provide adequate safeguards for the purchase of mortgage-backed securities by national banks for their own accounts. The proposal will require that issues of such securities, in order to be eligible for purchase by national banks, must satisfy the Office's standards of investment quality and marketability. CFR Citation: 12 CFR 18

Legal Deadline: None.

Abstract: The proposed regulation revises certain disclosure requirements of this Office. It would require all national banks to prepare an annual disclosure statement. This statement would include two consecutive year's comparative financial statements. The information to be disclosed is currently publicly available from the Call Report. The bank would have the option of including a narrative discussion of matters they deem important. The bank would notify shareholders along with the annual meeting notice and depositors and potential depositors via a lobby poster in the main office and each branch. Banks currently subject to 12 CFR 11 may use their F-2 form. The effect on small entities will be considered in the development of this rulemaking.

Significance: Agency Priority

Legal Authority: 12 USC 1 et seq

CFR Citation: 12 CFR 5; 12 CFR 5.1; 12 CFR 5.3; 12 CFR 5.4; 12 CFR 5.5; 12 CFR 5.9; 12 CFR 5.10; 12 CFR 5.11; 12 CFR 5.12; 12 CFR 5.20; 12 CFR 5.21; 12 CFR 5.22; 12 CFR 5.30; 12 CFR 5.31; 12 CFR 5.33

Legal Deadline: None.

Abstract: The Office is engaged in a continuing review of its rules, policies, and procedures governing corporate activities. On December 11, 1986, at 51 FR 44593 the Office made technical revisions to reflect current position and organizational titles and other non-substantive, technical changes including a revision to allow for consistent computation of time for calculating comment periods. The Office anticipates revision of its corporate delegations and merger policies. These proposals are expected to benefit national banks and the Office by removing burdensome and costly regulatory requirements, while maintaining the Office's ability to render an informed decision on the proposed activity. The Office also proposes to make several miscellaneous amendments to this regulation to cause the regulation to conform to recent adjustments to Office procedures for processing corporate filings. The effect

on small entities is considered in the development of each rulemaking.

2110. LENDING LIMITS

Legal Authority: 12 USC 1 et seq; 12 USC 84; 12 USC 93a

CFR Citation: 12 CFR 32

Legal Deadline: None.

Abstract: This regulation implements 12 USC 84 which prescribes the limitations upon the loans that national banks may make to individual borrowers. On April 23, 1986 at 51 FR 15303 the Office adopted a temporary rule which adds Section 32.8 to Part 32 and which provides lending relief to national banks suffering reductions in capital as a result of problems in the agricultural and oil sectors of the economy. This rulemaking requested comment from the public prior to adopting a final rule. Public comment has been received and the temporary rule, with minor modifications, became a final rule. The regulation will not have a significant economic impact on a substantial number of small entities. The effect of the regulation is beneficial rather than adverse, and small entities are generally expected to benefit more than larger institutions.

2111. ● MINIMUM SECURITY DEVICES AND PROCEDURES, REPORTS OF CRIMES AND SUSPECTED CRIMES AND BANK SECRECY ACT COMPLIANCE

Legal Authority: 12 USC 1 et seq; 12 USC 93a; 12 USC 1818; 12 USC 1881 to 1884; 31 USC 5311 et seq

CFR Citation: 12 CFR 21

Legal Deadline: Statutory, January 27, 1987.

Abstract: This regulation was issued as mandated by section 1359 of the Anti-Drug Abuse Act of 1986 to require national banks to establish and maintain a program designed to assure and monitor compliance with the requirements of the Bank Secrecy Act and the implementing regulations promulgated thereunder by the Department of the Treasury at 12 CFR 103. The regulation establishes only those requirements that the Office considers to be the minimum necessary for any compliance procedure. The agency is considering whether to establish more detailed compliance procedures in the near future. The effect on small entities will be considered in the development of any rulemaking.

Semiannual Agenda

AGENCY: Customs Service, Treasury.

ACTION: Semiannual agenda.

SUMMARY: In response to Pub. L. 96-354, the "Regulatory Flexibility Act," and Executive Order 12291, "Federal Regulations," Customs has prepared and is publishing for public information a list of regulations either under development or under review.

FOR FURTHER INFORMATION CONTACT: For additional information regarding the substance of any particular regulatory project described in the agenda, please communicate with the person identified as the "Agency Contact." All agency contact persons are located at U.S. Customs Service Headquarters, the address of which is noted below. Comments or inquiries of a general nature about the agenda itself should be directed to Gertrude A. Bresnahan, Regulations Control Branch, Office of Regulations and Rulings, Headquarters,

TREAS—CUSTOMS

U.S. Customs Service, Room 2426, 1301 Constitution Avenue, NW., Washington, DC 20229 (202-566-8237).

SUPPLEMENTARY INFORMATION:

Background

Public Law 96-354, the "Regulatory Flexibility Act" (RFA) and Executive Order (E.O.) 12291 of February 17, 1981, "Federal Regulations," require semiannual publication, in April and October of each year, or an agenda of regulations which are "likely to have a significant economic impact on a substantial number of small entities" and "major" regulations, respectively. The RFA and E.O. 12291 also require agencies to include in their agendas currently effective rules which are under agency review. Customs agenda includes a brief abstract of each regulatory project ("project") being considered, an indication of whether the project will have an RFA impact, the section(s) of the Code of Federal Regulations affected, the legal authority for the action being taken, the name, title, and telephone number of an agency contact and, where applicable, an approximate timetable of completing action on any project for which Customs has published a notice of proposed rulemaking. In addition, the status of projects referred to in previously published agendas is shown.

The following is the thirteenth semiannual agenda to be published by Customs under the RFA and E.O. 12291. It has been determined that none of the projects listed as being under development meets the standards required of a "major" regulation provided in E.O. 12291.

General statutory authority for the development or review of regulations relating to Customs matters is found in section 301, title 5, United States Code (5 U.S.C. 301), and in sections 66 and 1624, title 19, United States Code (19 U.S.C. 66, 1624). When appropriate, additional specific statutory authority is indicated as the legal authority for the project.

DATED: January 20, 1987.

Harvey B. Fox,

Acting Director, Office of Regulations and Rulings.

Improving Government Regulations; Semiannual Agenda of Regulations

AGENCY: Internal Revenue Service, Treasury.

ACTION: Semiannual agenda of regulations.

SUMMARY: This semiannual agenda lists the regulations determined as of January 31, 1987, that the Internal Revenue Service will be developing from April 1, 1987, through March 31, 1988. The purpose of this semiannual agenda is to give the public adequate notice of regulatory activities of the Internal Revenue Service.

FOR FURTHER INFORMATION CONTACT: Cynthia E. Grigsby, Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, NW., Washington, DC 20224, Attention: CC:LR (202-343-0232), not a toll-free call.

SUPPLEMENTARY INFORMATION:

General

Section 5 of Executive Order 12291 and section 602 of the Regulatory Flexibility Act both require that a semiannual agenda of regulations under development and review be published in the **Federal Register.** The next semiannual agenda of the Internal Revenue Service will be published in the **Federal Register** in October of 1987.

Description

This Semiannual Agenda of Regulations lists all projects within the Internal Revenue Service (I.R.S.) as of January 31, 1987, for the development of regulations to appear in the Code of Federal Regulations. This agenda lists existing regulations under development by the Legislation and Regulations Division, the Employee Plans and Exempt Organizations Division and the Office of Associate Chief Counsel (International) of the Office of Chief Counsel, I.R.S. The following information is provided for each regulation project: The title; priority status; whether the regulation is currently under review; its effect, if any, on small business; the part of the Code of Federal Regulations affected; the legal authority for issuing the regulation; a brief description of the problem to be addressed in the regulation; and a timetable of action taken and to be taken. Under additional information there is provided the control number of the project within the Chief Counsel's Office, and the names and telephone numbers of the drafting and reviewing attorneys.

By direction of the Secretary of the Treasury.

Lawrence B. Gibbs,

Commissioner of Internal Revenue.

Abstract: The Tax Reform Act of 1986 eliminates the requirement that there be a mirrored system of taxation in Guam and the CNMI, and coordinates the tax system of these possessions and of American Samoa with the U.S. tax system. Guam the CNMIN and American Samoa are granted full authority over their own local income tax systems, with respect to income from sources within or effectively connected with the conduct of a trade or business within any of these possessions. This grant of authority is effective, however, only if and so long as an implementing agreement is in effect between the possession at issue and the United States which provides for elimination of double taxation, prevention of evasion or avoidance of U.S. tax exchange of information, and other administrative matters.

Legal Authority: PL 99-514, Sec 1274

CFR Citation: 26 CFR 932

Legal Deadline: None.

Abstract: Prior to the Tax Reform Act of 1986, inhabitants of the Virgin Islands satisfied their U.S. tax liability by filing a return with the Virgin Islands. The Tax Reform Act of 1986 repealed the inhabitant rule to correct an erroneous interpretation of its operation in connection with the Virgin Islands mirror code. Section 1274 of the Tax Reform Act of 1986 clarifies the filing obligations of individuals in the Virgin Islands. Bona fide residents of the Virgin Islands are required to file only one return with the Virgin Islands in which they report worldwide income and identify the sources of income from the Virgin Islands will be required to file two identical tax returns one with the US and one with the Virgin Islands and pay a pro rata amount of tax to each. Regulations are needed to clarify who qualifies as a bona fide resident. It is anticipated that the regulations will provide a facts and circumstances test for determining bona fide resident status. It is unknown what the operational costs will be.

Legal Authority: PL 99-514, Sec 1248

CFR Citation: 26 CFR 1059A

Legal Deadline: None.

Abstract: Prior to the Tax Reform Act of 1986 importers could claim a transfer price for customs purposes that was too low to be consistent with the price they claim for income tax purposes. Section 1248 of the Tax Reform Act of 1986 addressed this problem by enacting Section 1059A of the Internal Revenue Code, under which importers cannot claim a transfer price for income tax purposes that is higher than would be consistent with the value they claim for customs purposes. Regulations will be needed to provide rules for coordinating customs and tax valuation principles. It is anticipated that as a result of Section 1059A of the Internal Revenue Code, some taxpayers will claim higher transfer prices for customs purposes. No estimate has been made of the revenue.

2155. ● INFORMATION WITH RESPECT TO CERTAIN FOREIGN-OWNED CORPORATIONS

Legal Authority: PL 99-514, Sec 1245

CFR Citation: 26 CFR 6038A

Legal Deadline: None.

Abstract: Prior to the Tax Reform Act of 1986 foreign controlled foreign corporations doing business in the US and foreign controlled US corporations are required to report transactions with related foreign corporations. The 86 Act requires such entities to report transactions with all related foreign parties, whether or not corporations. The Act also provides a new definition for the term related parties, and requires information necessary to carry out the installment sales rules, as amended by such Act, to also be reported.

Legal Deadline: None.

Abstract: Prior to the Reform Act of 1986, U.S. taxpayers were able to shift income out of the U.S. by transferring intangibles to Section 936 possessions corporations, contributing intangibles to related foreign corporations in Section 367 transactions or selling or licensing intangibles to related foreign parties at less than arm's-length prices and transactions subject to section 482. Valuing such transfers (at the time of transfer) has proven to be difficult and non-productive. The Reform Act of 1986 provides that payments to be received by the transferor of intangibles must be commensurate with the income from the intangible. Major issue - What portion of the income from the intangible will constitute "commensurate"? Provisions will raise large amounts of revenue.

2254. INCOME TAX—UNRELATED TRADE OR BUSINESS INCOME

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 512(a) Internal Revenue Code of 1986; 26 USC 514(c) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None.

Abstract: The regulation will address the issue of what constitutes real property acquired by a qualified trust. The guidance provided on this issue will determine the scope of the exception under 26 USC 514(c)(9) for such acquisitions from the term acquisition indebtedness. Under 26 USC 514, the existence of such indebtedness on income producing property gives rise to unrelated debt-financed taxable income. The regulation will also address the issue of the proper allocation method to determine fixed indirect expenses connected with the unrelated trade or business use of an exempt organization's property.

2322. TO PROVIDE REGULATIONS RELATING TO BACKUP WITHHOLDING UNDER SECTION 3406

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 3406 Internal Revenue Code of 1986

CFR Citation: 26 CFR 31

Legal Deadline: None.

Abstract: The regulations will provide that a tax equal to 20 percent of any reportable payment is required to be withheld if certain conditions exist. With respect to reportable interest or dividends, backup withholding applies if (1) no number is provided in the manner required, (2) the Service notifies the payor that the payee's taxpayer identification number is not correct, (3) the payee is subject to backup withholding due to a notified payee underreporting, and (4) the payee fails to certify when required that he or she is not subject to backup withholding due to notified payee underreporting. With respect to other reportable payments (such as rents, royalties, nonemployee compensation, broker transactions, or barter exchanges), backup withholding applies if (1) no taxpayer identification number is provided, or (2) the Service notifies the payor that the payee's taxpayer identification number is not correct.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 103 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None.

Abstract: The proposal will clarify the information reporting requirements with respect to private activity bonds. Industrial development bonds must be publicly approved--failure to fulfill this requirement results in loss of tax exemption for the interest on these bonds. Issuers of student loan bonds, charitable use bonds and industrial development bonds are required to supply certain information to the Internal Revenue Service. Failure to comply with this requirement will result in the loss of tax exemption for the bond's interest.

Abstract: The Income Tax Regulations under section 367 will be amended to reflect the changes made to that section by the Tax Reform Act of 1984. Section 367 now provides generally that a foreign corporation will not be considered to be a corporation, for purposes of certain nonrecognitions provisions of the Code, upon the transfer of property to such corporation by a U.S. person. The statute provides certain exceptions to that rule, exemptions to those exceptions, and special rules applicable to certain specified transfers. The regulations will provide guidance concerning the applicability of the general rule and its exceptions and special rules, including guidance concerning transfers of assets for use in the section conduct of a trade or business, stock transfers, transfers of intangible assets, and transfers of branch operations that have operated at a loss.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 408 Internal Revenue Code of 1986; PL 98-369, Sec 147

CFR Citation: 26 CFR 1

Legal Deadline: None.

Abstract: On June 28, 1983, the Internal Revenue Service issued news release IR-83-88 requiring new information reporting by trustees of individual retirement accounts and issuers of individual retirement annuities (including accounts and annuities that are simplified employee pensions). Form 5498, Individual Retirement Arrangement Information, was prescribed in the news release as the information return to be used for this purpose. This regulation project will amend the regulations under section 408 to conform them to the reporting requirements announced in the news release. In addition, section 147 of the Tax Reform Act of 1984 amended section 408 (i) of the Code to require that contributions be identified as to the taxable year to which they apply. This amendment will be included in this regulation period.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 422A Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None.

Abstract: The regulations would provide guidance for taxpayers who either grant or receive incentive stock options. The grant of an incentive stock option to an employee by an employer will not be a taxable event. At the time such option is exercised by the employee no amount of the spread between the fair market value of the stock at exercise and the option price will be included in the employee's gross income. When the stock acquired through the exercise of the option is sold, the entire gain will be treated as capital gain and not ordinary income if certain holding period and employment relationship requirements are met.

CFR Citation: 26 CFR 1

Legal Deadline: None.

Abstract: The regulations would provide guidance to taxpayers for purposes of determining the amount the taxpayer is at risk in certain activities. This guidance is necessary because a taxpayer's deductions are limited to the amount the taxpayer is at risk in the activity. This at risk limit applies to most activities except the holding of real property and certain equipment leasing by closely-held corporations.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 904(f) Internal Revenue Code of 1986; PL 97-248, Sec 211

CFR Citation: 26 CFR 1

Legal Deadline: None.

Abstract: The regulations would provide rules for determining the amount of and recapturing overall foreign losses. An overall foreign loss under any one of the separate limitations on the foreign tax credit may offset the taxpayer's United States tax on United States source income in the year of the loss. The recapture rules provide that a portion of the taxpayer's foreign taxable income under the same limitation in subsequent years is to be recharacterized as United States source income, thereby reducing the taxpayer's foreign tax credit and preventing a double tax benefit from the loss.

Legal Deadline: None.

Abstract: The regulations will establish procedures for taxpayers by which they must notify the Service of a change in foreign tax liability for a taxable year for which they claimed the foreign tax credit. The regulations provide special rules for redetermining the taxpayer's United States tax liability when the dollar value of the foreign currency fluctuates between the time for which the foreign tax credit is originally claimed and the time for which the foreign tax credit is redetermined. In addition, the regulations set forth deadlines for compliance with the notification requirements.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6045 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None.

Abstract: The regulations in this project clarify the definition of the term "commodity" for purposes of broker reporting. Rules are provided for determining whether personal property (including gold and silver) is a commodity. Generally, the term "commodity" is defined as personal property that is deliverable in satisfaction of a regulated futures contract, certain specified personal property that the secretary determines is to be treated as a commodity or any form or quality of or any interest in such personal property. The term "commodity" does not include a security, regulated futures contract, forward contract, or a form of tangible personal property if the gross proceeds from its sale exceed by more than 15 percent its value as a commodity. The rules proposed include alternative methods (the "exact" and "approximate" methods) of tangible personal property valuation.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 31 USC 3720A

CFR Citation: 26 CFR 301

Legal Deadline: None.

Abstract: These proposed regulations will provide rules relating to the reduction of a taxpayer's overpayment of tax (i.e., tax refund) by the amount of any past-due legally enforceable debt owed to a federal agency by the taxpayer. The regulations explain which debts qualify for offset, and the steps a federal agency must make to refer a debt to the Internal Revenue Service.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6621 Internal Revenue Code of 1986

CFR Citation: 26 CFR 301

Legal Deadline: None.

Abstract: The regulations provide guidance to taxpayers subject to the increased rate of interest on substantial underpayments attributable to certain tax motivated transactions. The regulations define tax motivated transaction and accounting methods that may result in a substantial distortion of income. The regulations also provide rules for determining the amount of a tax motivated underpayment and the accrual of interest at the increased rate.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 103(m) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Legal Deadline: None.

Abstract: The proposal would describe the application of new Code section 103 (m) to interest earned on obligations which are exempt from taxation under Federal laws outside the Internal Revenue Code. Section 103 (m) broadens the types of obligations described in section 103 (a) to include obligations on which the interest is tax-exempt under provisions of Federal law outside of the Code. Section 103 (m) provides that interest on obligations described in section 103 (m) is considered to be interest described in section 103 (a) for all purposes of the Code.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 404(d) Internal Revenue Code of 1954; 26 USC 404(b) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Legal Deadline: None.

Abstract: The regulations provide rules for taking a deduction under section 404(d) of the Internal Revenue Code for deferred compensation paid to independent contractors. A deduction is permitted only when there is a corresponding income inclusion by the plan participant. In addition, the regulations provide guidance with regard to the amendment of section 404(b) of the Internal Revenue Code by section 133 of the Revenue Act of 1978, which clarified that a method of compensation or contributions having the effect of a plan deferring the receipt of compensation does not have to be similar to a stock bonus, pension, profit-sharing, or annuity plan to be subject to 404(a) of the Internal Revenue Code. The regulations describe methods of compensation or contributions subject to the section 404(a) rules. The regulations also reflect the amendment of section 404(b) of the Internal Revenue Code by the Tax Reform Act of 1984. That amendment provides that certain deferred benefits shall be treated as deferred compensation for purposes of section 404(a).

2623. TO AMEND SECTION 1.591-1(B), RELATING TO DEDUCTIBILITY OF INTEREST ON SHORT-TERM CERTIFICATES OF DEPOSIT ISSUED BY SAVING AND LOAN INSTITUTIONS

Legal Authority: 26 USC 7805

CFR Citation: 26 CFR 591-1(b)

Legal Deadline: None.

Abstract: This regulation would delete section 1.591-1(b). The deletion is necessary because the subsection no longer applies in any situation. Section 1.591-1(b) states that it will not apply if section 1.163-4(a) applies. Section 1.163-4(a) applies to every situation covered in section 1.591-1(b) except "serial associations", a form of savings institution which has fallen into disuse. The subsection is no longer necessary.

CFR Citation: 26 CFR 1

Legal Deadline: None.

Abstract: The regulations would provide rules for determining the basis of player contracts acquired by a purchaser upon the sale or exchange of a sports franchise. Generally, the purchaser's basis with respect to player contracts is to be determined by reference to the seller's adjusted basis and the gain the seller recognizes from the transfer of the player contracts. Exceptions are provided in the cases of certain corporate one-year liquidations, certain like-kind exchanges and for certain transfers relating to decedents. Furthermore, a presumption is provided that in the sale or exchange of a sports franchise, not more than 50-percent of the consideration will be allocable to player contracts unless the taxpayer can satisfy the Secretary it is proper to allocate an amount in excess of 50-percent.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 2210 Internal Revenue Code of 1954; 26 USC 2002 Internal Revenue Code of 1954; 26 USC 6018 (c) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Legal Deadline: None.

Abstract: Allows estate tax liability for employer securities to be assumed by ESOP's rather than by the executor. To qualify, a qualified amount of employer securities must be acquired by the ESOP from "or on behalf of" the decedent. In addition, the executor must elect, in writing, to assume the attributable estate tax liability on behalf of the ESOP. The ESOP then becomes liable for the estate tax.

Semiannual Regulatory Agenda

ACTION (ACTION)

ACTION

45 CFR Ch. XII

Executive Order 12291, Federal Regulation, Semiannual Agenda of Regulations

AGENCY: ACTION.

ACTION: Publication of semiannual agenda.

SUMMARY: This agenda announces the regulations that ACTION will have under development, revision or review during the next year. The purpose for publishing this agenda is to give notice of any regulatory activity by the Agency in order to allow the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: The public is encouraged to contact the Agency official listed for the particular agenda item. For other information concerning ACTION regulations or this semiannual agenda, contact Robert C. MacKichan, General Counsel, ACTION, 806 Connecticut Avenue, NW., Washington, DC 20525, (202) 634-9333.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12291, Federal Regulation, and the Regulatory Flexibility Act (5 U.S.C. 605), executive agencies are required to publish in the **Federal Register** semiannual regulatory agendas in April and October of each year.

ACTION has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public; and that the regulations will not have a significant economic impact on a substantial number of small entities. Accordingly, no Regulatory Impact Analysis is required under 5 U.S.C. 602.

DATED: March 10, 1987.

Architectural and Transportation Barriers Compliance Board

Semiannual Regulatory Agenda

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD (ATBCB)

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD

36 CFR Ch. XI

Unified Agenda of Federal Regulations

AGENCY: Architectural and Transportation Barriers Compliance Board.

ACTION: Submission of Unified Agenda of Federal Regulations.

SUMMARY: The Architectural and Transportation Barriers Compliance Board submits the following agenda of proposed regulatory activities which may be conducted by the agency during the next twelve months. This regulatory agenda may be revised and/or refined by the agency during the coming months as a result of action taken by the Board. In addition to any regulatory actions, the Board may also consider issuing advisory standards and/or policy statements as part of its statutory responsibilities. When appropriate, these standards and policies will also be published in the **Federal Register.**

ADDRESS: U.S. Architectural and Transportation Barriers Compliance Board, 330 C Street, SW., Room 1010, Washington, DC 20202.

FOR FURTHER INFORMATION CONTACT: For information concerning Board regulations and proposed actions, contact Mr. Nicholas Chiarkas, General Counsel, 202/245-1591 (voice or TDD).

Madeleine Will,

Vice Chairperson, Architectural and Transportation Barriers Compliance Board.

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD (ATBCB)

Proposed Rule Stage

2689. MINIMUM GUIDELINES AND REQUIREMENTS FOR ACCESSIBLE DESIGN

Significance: Agency Priority

Legal Authority: 29 USC 792(b)(7) Rehabilitation Act of 1973, as amended

CFR Citation: 36 CFR 1190

Legal Deadline: None.

Abstract: Specific provisions of the ATBCB Minimum Guidelines and Requirements for Accessible Design have been reserved until sufficient research, information, and/or field experience is obtained. At present the ATBCB is reviewing the sections reserved for leased facilities and detectable tactile surface treatments. In addition to these reserved provisions, the Board has indicated that additional information would be useful on other provisions contained in the regulation and on other access issues. As materials and experience become available in these areas, the Board plans to take the appropriate action to complete or revise those requirements. Information on alternatives being considered for addressing a particular provision, and the potential costs and benefits of the action being proposed will be provided during the rulemaking process. This year, proposed rules will be developed on Detectable Tactile Surface Treatments and Leased Facilities. The last revision to the Minimum Guidelines and Requirements for Accessible Design was published 08/04/82 (47 FR 33862).

Final Rule Stage

2690. ENFORCEMENT OF NONDISCRIMINATION ON THE BASIS OF HANDICAP IN ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD PROGRAMS

Significance: Agency Priority

Legal Authority: 29 USC 794 Rehabilitation Act of 1973, as amended

CFR Citation: 36 CFR 1154

Legal Deadline: None.

Abstract: This final regulation sets forth procedures and policies to assure nondiscrimination on the basis of handicap in programs and activities conducted by the Board. It is patterned on the prototype regulation prepared by the Department of Justice.

2691. COMPLIANCE WITH STANDARDS FOR ACCESS TO AND USE OF BUILDINGS BY HANDICAPPED PERSONS

Legal Authority: 29 USC 794 Rehabilitation Act of 1973, as amended

CFR Citation: 36 CFR 1150

ATBCB **Final Rule Stage**

Legal Deadline: None.

Abstract: The current regulation sets forth procedures to ensure compliance with standards issued under the Architectural Barriers Act of 1968, Pub. L. 90-480, as amended, 42 U.S.C. 4151 et seq. The Board has published an interim rule revising this regulation to provide a 180-day period for informally resolving complaints in place of the current 90-day period. This interim rule is expected to be published as a final rule. Other procedures to streamline the process may be considered in a proposed rulemaking.

Environmental Protection Agency

Semiannual Regulatory Agenda

ENVIRONMENTAL PROTECTION AGENCY (EPA)

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Ch. I

[FRL #3184-4]

Regulatory Agenda

AGENCY: Environmental Protection Agency (EPA).

ACTION: Regulatory agenda.

SUMMARY: EPA revises the regulatory agenda semiannually and it appears in the **Federal Register** each April and October. It provides specific information on the status of regulations that are under development, revision, and review at the Agency. The agenda is published to keep interested parties informed of the progress of EPA regulations.

ADDRESSES: For specific information on any item in the agenda, please contact the person listed with each entry.

If you have any suggestions for improving this publication, or need general information about the agenda, please call or write to Angela Tyler, Regulation Management Staff, Environmental Protection Agency, PM-223, Washington, DC 20460, (202) 382-7205.

If you want to be on the mailing list for future agendas, please call or write to Bridgette Dent, Information and Regulatory Systems Division, Environmental Protection Agency, PM-223, Washington, DC 20460, (202) 382-5475.

FOR FURTHER INFORMATION CONTACT: Angela Tyler, (202) 382-7205.

SUPPLEMENTARY INFORMATION:

Statutes Covered in the Agenda

The statutory areas covered in the agenda are:

Federal Insecticide, Fungicide and Rodenticide Act (FIFRA)
Federal Food, Drug, and Cosmetics Act (FFDCA)
Toxic Substances Control Act (TSCA)
Asbestos Hazard Emergency Response Act (AHERA)
Clean Water Act (CWA)
Marine, Protection, Research, and Sanctuaries Act (MPRSA)
Atomic Energy Act (AEA)
Safe Drinking Water Act (SDWA)
Resource Conservation and Recovery Act (RCRA)
Hazardous and Solid Waste Management Act (HSWA)
Clean Air Act (CAA)
Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)
Superfund Amendments and Reauthorization Act (SARA)
General -- Other Acts (including general grant and procurement regulations and regulations that cut across several program areas)

Congress has passed or reauthorized several statutes for which EPA has responsibility. These include the SDWA amended on June 19, 1986; SARA signed on October 17, 1986; the Asbestos Hazard Emergency Response Act signed on October 22, 1986; and the Clean Water Act reauthorized as the Water Quality Act in February, 1987. Some of the new information presented in this agenda is part of these legislations. Each law is described below.

Safe Drinking Water Act Amendments (SDWAA)

These amendments direct EPA to:

- Set Maximum Contaminant Level Goals (MCLGs); which are non-enforceable health goals, and Maximum Contaminant Levels (MCLs) for 83 specific contaminants and other contaminants found in drinking water which may have any adverse effect on human health, and which is known or anticipated to occur in public water systems;
- Develop National Primary Drinking Water Regulations for the 83 specific contaminants, and any other contaminants found in drinking water;
- Set MCLs as close as is feasible to the MCLG, and propose and promulgate the MCLG with the MCL;
- Set monitoring requirements for at least 25 of the other contaminants found in drinking water, and review the monitoring requirements every three years;
- Set monitoring requirements for contaminants found in drinking water that are not regulated;
- Establish criteria from which States can determine which surface water systems must install filtration; and
- Develop a treatment technique regulation that will require all public water systems to use disinfection.

Superfund Amendments and Reauthorization Act (SARA)

These amendments increase Superfund revenues to $8.5 billion, and strengthen the EPA's authority to conduct short-term (removal) long-term (remedial) and enforcement actions. The amendments also strenghten State involvement in the cleanup process and the Agency's commitment to research and development, training, assessments, and public participation. SARA also establishes a number of new authorities. The largest of the new authorities is the Community-Right-To-Know program. This program establishes requirements for Federal, State, and local governments and industry regarding emergency planning and reporting on hazardous and toxic chemicals. This program will also help to increase the public's knowledge and access to information on the presence of hazardous chemicals in their communities and releases of these chemicals into the environment.

Asbestos Hazard Emergency Response Act (AHERA)

Under AHERA, EPA is directed to promulgate regulations which provide a framework for addressing asbestos problems in public and private schools. The statute sets deadlines of 180 days after enactment for EPA to issue proposed rules and 360 days for issuance of final rules. EPA must develop regulations which include requirements for: inspecting all school buildings for asbestos-containing materials (ACM); identifying circumstances requiring response actions; describing appropriate response actions; implementing response actions; establishing a periodic surveillance program for ACM; establishing an operations and maintenance program for friable ACM; preparing and implementing asbestos management plans by local educational agencies; and transporting and disposing waste ACM from schools.

Water Quality Act (WQA)

The major provisions of the Water Quality Act are to:

- Establish a construction grants phase-out program to end funding after fiscal year 1990;
- Create State revolving loan funds for municipal systems;
- Extend deadlines for compliance with Best Available Technology Economically Achievable (BAT) and Best Conventional Technology (BCT) effluent guidelines, pretreatment, and other deadlines;

- Create statutory authority for setting alternative effluent limitations based on fundamentally different factors (FDF);
- Preclude backsliding from existing permit requirements except in a few narrowly defined situations;
- Require States, or EPA, take specific steps to establish and meet water quality standards (WQS) for individual toxic pollutants, where BAT controls are not sufficient;
- Require States, or EPA, to develop programs for controlling nonpoint sources (NPS) and establishes a matching grants program of implementing controls;
- Establish a phased approach to the control of stormwater discharges;
- Require EPA to identify toxic pollutants in sewage sludge and issue regulations to control them;
- Provide EPA new authority for administrative penalties for violations and increase court-assessed civil and criminal penalties for violations;
- Set stricter criteria for larger municipalities seeking waivers from the secondary treatment requirements for publicly-owned treatment works' (POTWs) discharges to marine waters; and
- Specifically authorize a National Estuary Program whereby EPA may convene management conferences to develop comprehensive conservation and management plans; and provide for grants to aid plan development and implementation.

Organization of the Agenda

The agenda is organized by statutory area, in the order that they appear in the previous section on statutes covered. In a few cases, the agenda combines regulations with differing statutory authorities that have closely-related subject matter. For example, the Fuel Economy Test Procedures regulation under the Energy Policy and Conservation Act appears together with mobile source regulations under the CAA.

The regulations are ordered numerically, by section number of the authorizing legislation. For example, all water regulations under section 402 appear before those under section 405.

Within each statutory area the entries are divided into four categories: (1) Prerule Stage; (2) Proposed Rule Stage; (3) Final Rule Stage; and (4) Completed Actions (regulations that EPA is deleting from the agenda because the Agency has completed, withdrawn, or postponed them indefinitely). Detailed information on each of these sections is presented below.

Appendix A includes a list of abbreviations of terms used in this document.

I. Prerulemakings

Prerulemaking actions are those activities underway at EPA that are intended to determine whether, or how, to initiate rulemaking. These activities would occur prior to proposed rulemaking, and include anything that influences or leads to rulemaking. These activities include advance notices of proposed rulemaking; significant studies or analyses of the possible need for regulatory action; requests for public comment on the need for regulatory action; or important regulatory policy proposals.

This section also includes existing EPA regulations: (1) That are now under review, or (2) whose review will begin before EPA publishes the next agenda. The purpose of such reviews is to determine whether the Agency should revise the rule, rescind it, or leave it unchanged. When finished, these reviews will appear in the completed section of the agenda. If EPA decides to review or rescind the regulation, the action will appear in the following agenda with an entry in the proposed rule section, and will state the timetable for completing the revision or rescission.

For each regulation under review, the agenda provides the title, a short abstract, legal authority, CFR reference, any analysis EPA is preparing, contact person, and the schedule for completing the review. It also indicates the "review authority," which in many cases is different from the regulation's statutory authority. EPA reviews regulations under various mandates, and some reviews satisfy more than one of these mandates. The principal mandates are:

Executive Order 12498 is intended to establish annually the Administration's Regulatory Program. It defines priority activities that the Agency will work on during the upcoming year. Its purpose is to minimize duplication and conflict among regulatory activities across different agencies and enhance public understanding of the Administration's regulatory objectives.

Executive Order 12291 establishes the general policy that EPA should review its regulations to ensure that the costs of these regulations are justified by their benefits.

The Regulatory Flexibility Act requires that EPA review existing regulations that have a significant economic impact on a substantial number of small entities, including small businesses, small organizations, and small governments, at least once every ten years. EPA invites public comment on the need to revise the list of regulations EPA is reviewing under the Regulatory Flexibility Act.

Reviews under the RFA are identified by a "Yes" in the "small entity" category. When the Agency completes reviews of regulations with a significant impact on small entities, the agenda entry includes an abstract that announces the Agency's decision of whether to revise, rescind, or leave the regulation unchanged. This announcement complies with the RFA and EPA's July 16, 1981 plan (46 FR 36930) for reviewing regulations under the Act.

The Paperwork Reduction Act requires EPA to review its information collection activities to determine that the Agency needs and will actually use all of the information that will be collected. The Agency should make sure that it will manage the information as efficiently as possible. EPA must also ensure that the information to be collected is of high quality, appropriate for its intended use, and does not already exist at EPA or at some other Federal agency. In addition, the Act requires EPA to review the cost of collecting the information, so that it will be held to a minimum for both the respondent and EPA.

II. Proposed and Final Rules

Regulations are generally listed in the agenda once they are within a year of scheduled publication as a notice of proposed rulemaking (NPRM) or final action. Very important regulations under development will usually appear even if the scheduled publication dates are more than a year away.

Proposed and final rules appear as: (a) Actions that will create new CFR parts, subparts, or subsections; or (b) actions that revise or amend already existing CFR parts, subparts, or subsections. The word "revision" will appear in parentheses after the title of each regulation undergoing revision. All regulations appearing in the agenda for

the first time are marked with bullets (●).

This section includes all "significant" EPA regulations. Some are top priority regulations under development that:

- Are subject to Executive Order 12498; or
- The Agency has designated for priority development or revision.

However, the listings exclude: (a) Specialized categories of actions (such as EPA approvals of State plans and other actions that do not apply nationally); and (b) routine actions (such as pesticide tolerances and minor amendments to existing rules).

For each proposed and final regulation, the agenda includes:

- The title
- The priority classification (if applicable)
- The legal authority
- The CFR reference
- Legal deadline
- A short abstract
- An analysis section (if the Agency is preparing a Regulatory Impact Analysis [RIA] and/or a Regulatory Flexibility Analysis [RFA])
- A timetable of existing and scheduled actions
- A reference to small entity impacts
- An Agency contact, and
- An additional information section

The additional information section includes the FTS phone number for the Agency contact. It also includes the Start Action Request (SAR) number, which is assigned to the regulation for internal tracking purposes.

III. Completed Actions

These are actions that appeared in the last agenda, but which EPA is deleting because they are completed or are no longer under consideration. The information given on these regulations and reviews of regulations is less detailed than for those that are still under consideration. Generally, entries include: (1) The date and **Federal Register** citation, if any, of the last action on the regulation, and (2) an explanation of why the Agency is deleting the regulation from the agenda.

DATED: April 16, 1987.

John M. Campbell,

Acting Assistant Administrator for Policy, Planning, and Evaluation.

2692. ● CERTIFICATION OF PESTICIDE APPLICATORS

Legal Authority: 42 USC 136/FIFRA 4

CFR Citation: 40 CFR 171

Legal Deadline: None.

Abstract: This action is intended to determine the necessity of revising existing regulations on certification of pesticide applicators. The current standards and requirements may need to be updated to clarify definitions and to reflect changes in technology and current needs in State programs.

Timetable:

2693. ● PESTICIDE APPLICATOR CERTIFICATION FEES FOR EPA ADMINISTERED PROGRAMS

Legal Authority: 31 USC 9701/FIFRA 4

CFR Citation: 40 CFR 171.12

Legal Deadline: None.

Abstract: This rule is intended to implement a program for assessing fees for certification and training of commercial and private applicators who apply restricted use pesticides. Fees will be collected in States with Federally-administered pesticide certification and training programs, and will cover the costs of administering such programs.

Abstract: FIFRA requires that pesticides be classified for either general use or restricted to trained, certified pesticide applicators. This rule would classify certain active ingredients in termiticides for restricted use based on the hazards of misuse. Classification for restricted use permits the continued use of certain pesticides which, if used without restrictions, may have adverse effects on human health and the environment.

Legal Authority: 7 USC 136 /FIFRA 3; 21 USC 346; 21 USC 348; 21 USC 371

CFR Citation: 40 CFR 160

Legal Deadline: None.

Abstract: This action will expand the scope of the FIFRA Good Laboratory PracticeS (GLPs) to include 1) additional types of testing not covered by the current 40 CFR 160 and certain changes from the recent FDA GLP regulation amendments. Specifically, environmental fate, certain other chemistry tests, ecological effects and efficiency are among the types of tests to be added.

2697. RESTRICTED USE RULE FOR GROUNDWATER CONTAMINATING PESTICIDES

Significance: Regulatory Program

Legal Authority: 7 USC 136 /FIFRA 3

CFR Citation: 40 CFR 162.30

Legal Deadline: None.

Abstract: This rule will provide a scheme for identifying pesticides which may pose an unacceptable hazard because of a tendency to leach into groundwater. Options for mitigating the hazard of pesticides having the potential for leaching into groundwater will be developed as well as criteria for classifying them for restricted use. Restricted use pesticides generally may be applied only by state certified applicators. Other restrictions on conditions or locations of use will be considered when application by skilled persons may not be sufficient to prevent pesticides from posing a hazard due to its tendency to leach into groundwater.

Abstract: This action is intended to develop regulations to allow the sale of restricted use pesticides to persons who are not certified under special circumstances as set forth by Congress in 1978. Regulatory development will be coordinated with the review of state plans under FIFRA Section 4 to determine both need and compatibility with State authorities and programs.

2699. ● EXPERIMENTAL USE PERMITS (REVISION)

Legal Authority: 7 USC 136 /FIFRA 4

CFR Citation: 40 CFR 172

Legal Deadline: None.

Abstract: This proposed revision will amend the existing regulations (40 CFR 172) pertaining to Experimental Use Permits (EUPs) to incorporate the policies set forth in the Office of Science and Technology Policy, which were published in the Federal Register on June 26, 1986 (51 FR 23313). The existing regulations exempt prospective registrants from the requirement of obtaining an EUP if they propose to conduct tests which will involve less than 10 acres of land and less than one surface acre of water. The proposed revision would require them to notify EPA if tests are to involve genetically altered or manipulated microorganisms or nonindigenous pathogenic microorganisms and will describe certain data required to be submitted at the time of notification so that the Agency may determine whether an EUP will be required.

2703. GENERAL LISTING OF PESTICIDES AS ACUTE HAZARDOUS WASTES

Legal Authority: 42 USC 6921 /RCRA 3001

CFR Citation: 40 CFR 261

Legal Deadline: None.

Abstract: This rule will change the way pesticides are designated as acute hazardous wastes under RCRA. Currently, some pesticides are listed by name and are regulated at all concentrations. Others are not listed, and therefore are unregulated, although equally toxic. Also, currently some products that are mixtures of ingredients are not regulated. This rulemaking will designate a pesticide product (including mixtures) as an acute hazardous waste if the product as a whole meets the hazardous waste criteria. At the same time, products now regulated at low concentrations will be eliminated from regulation because they do not as a product meet the acute criteria. The criteria will conform as closely as possible to existing FIFRA acute toxicity designations.

Abstract: FIFRA Section 6(a)(2) requires that registrants report to EPA additional factual information regarding unreasonable adverse effects of their products. In September 1985, EPA revised its 1979 section 6 (a)(2) enforcement policy by publishing a notice which expanded upon the types of factual information which must be reported and established uniform timeframes for compliance. In response to comments received on this notice, the Agency is revising it to clarify the types of information which registrants must report to EPA.

Significance: Regulatory Program

Legal Authority: 31 USC 9701 /Independent Offices Appropriation Act of 1952

CFR Citation: 40 CFR Not applicable

EPA—FIFRA **Final Rule Stage**

Abstract: Under the authority of the Independent Offices Appropriation Act (IOAA) of 1952, the Agency is proposing to establish user fees for processing pesticide registration actions which constitute special services to registrants. The Agency is also considering establishing fees for other special services such as re-registration. The proposed registration fee system would place all or part of the burden of payment for the Agency's services on those who benefit from the service rather than on the Agency.

2716. RULEMAKING CONCERNING CERTAIN MICROBIAL PRODUCTS ("BIOTECHNOLOGY")

Significance: Regulatory Program

Legal Authority: 15 USC 2604 /TSCA 5; 15 USC 2607 /TSCA 8

CFR Citation: 40 CFR 704; 40 CFR 720; 40 CFR 721

Legal Deadline: None.

Abstract: Under the authority of the Toxic Substances Control Act, the Agency is proposing three separate regulatory actions for manufacturers, importers, and processors of certain microbial products of biotechnology. Under section 5, the Agency is proposing to amend its definition of "small quantities solely for research and development" contained in the Premanufacture Notification (PMN) Rule, thereby requiring persons to submit PMNs prior to testing new microorganisms in the environment. EPA also is proposing significant new use notification requirements under section 5(a)(2), which would require persons to notify the Agency of new environmental applications of certain pathogens. In addition, the Agency is proposing section 8(a) reporting requirements for persons who are using microorganisms in the environment but are not subject to PMN or SNUR notification requirements. The primary objective of these actions is to ensure the receipt of information on all current and future commercial uses of microorganisms in the environment, and to obtain data for use in evaluating the biotechnology programs and the biotechnology industry.

Additional Information: In addition to the three regulatory actions scheduled for November, 1987, the Agency has requested information which will permit the Agency to make the necessary statutory findings to propose a section 5(h)(4) exemption to PMN requirements. The exemption would reduce regulatory requirements for biotechnology-related products of low risk.

2717. PROCEDURAL RULE FOR EXPEDITED NEW CHEMICAL FOLLOW-UP

Significance: Regulatory Program

Legal Authority: 15 USC 2604 /TSCA 5

CFR Citation: 40 CFR 721

Legal Deadline: None.

Abstract: This rulemaking would establish criteria and procedures by which certain chemicals could be administratively added to or withdrawn from a list of chemicals subject to section 5(a)(2) of TSCA. This would reduce the time and resources required to regulate individual chemicals under the new chemical follow-up program. This rulemaking would also establish reporting requirements under sections 8(a) and 8(d) for manufacturers and processors of certain chemicals that meet the criteria mentioned above.

Significance: Regulatory Program

Legal Authority: 15 USC 2605 / TSCA 6

CFR Citation: 40 CFR 747

Legal Deadline: None.

Abstract: The formulation of water-based metalworking fluids with nitrite in combination with alkanolamines may present an unreasonable risk to machinists due to the formulation of nitrosamines, particularly n-nitrosodiethanolamine (NDELA). Recent studies indicate that NDELA is a potent animal carcinogen. EPA may either propose to prohibit the intentional addition of inorganic nitrites to water-containing metalworking fluids that contain amines, refer occupational risks to the Occupational Safety and Health Administration under section 9(a) of TSCA, or initiate other actions.

Significance: Regulatory Program

Legal Authority: 15 USC 2605 / TSCA 6; 15 USC 2608 / TSCA 9

CFR Citation: 40 CFR 765

Legal Deadline: None.

Abstract: As described in the Federal Register on May 23, 1984, the Agency has been investigating regulatory options for the reduction of three categories of exposure to formaldehyde: 1) residents exposed to formaldehyde emissions from wood products used in

the construction of manufactured nomes: 2) similarly exposed residents of conventional homes: 3) apparel manufacture employees exposed to formaldehyde released from treated fabrics. Because OSHA proposed a standard in December 1985 that applies to all occupational exposure, EPA has terminated its investigation with respect to apparel manufacturing employees. Investigation of risks from exposure to formaldehyde emissions from wood products is being conducted in consultation with HUD and CPSC. This investigation may lead to the initiation of various control alternatives, including section 9 referral to other agencies and/ or section 6 regulations.

Significance: Regulatory Program

Legal Authority: 15 USC 2605 / TSCA 6; 15 USC 2608 / TSCA 9

CFR Citation: 40 CFR 754

Legal Deadline: None.

Abstract: EPA, in consultation with the Consumer Product Safety Commission, Occupational Safety and Health Administration and Food and Drug Administration, is developing a comprehensive and integrated strategy for a regulatory investigation of methylene chloride and five other chlorinated solvents. In some csses, these chlorinated solvents are competitive and can be easily substituted for each other in a number of uses. The integrated effort is being conducted to reach general agreement on the risks associated with te solvents and to avoid ineffective risk management actions that may occur due to solvent switching or pollutant transfer among media which could be caused by piecemeal regulation. Data are being gathered for six solvents (methylene chloride, perchloroethylene, trichloroethylene, methyl chloroform, carbon tetrachloride, and CFC-113) and their potential substitutes. This regulatory investigation is focused on four major use categories: dry cleaning, metal degreasing, paint stripping and aerosol application. The investigation will determine whether coordinated regulatory controls are needed to eliminate or reduce exposure to these solvents.

Significance: Regulatory Program

Legal Authority: 15 USC 2605 /AHERA

CFR Citation: 40 CFR 763

Legal Deadline: None.

Abstract: On October 22, 1986, the Asbestos Hazard Emergency Response Act (AHERA) of 1986 (Public Law 99-519) was signed into law. Under AHERA, EPA is directed to promulgate regulations which provide a framework for addressing asbestos problems in public and private schools. The statute sets deadlines of 180 days after enactment for EPA to issue proposed rules and 360 days for issuance of final rules. EPA must develop regulations which include requirements for: the inspection of all school buildings for asbestos-containing materials (ACM); the identification of circumstances requiring response actions; descriptions of the appropriate response actions; the implementation of response actions; the establishment of a periodic surveillance program for ACM; the establishment of an operations and maintenance program for friable ACM; the preparation and implementation of asbestos management plans by local educational agencies; and the transportation and disposal of waste ACM from schools.

Legal Authority: 15 USC 2605(e)(3)(B) / TSCA 6(e)

CFR Citation: 40 CFR 761

Legal Deadline: None.

Abstract: Under EPA's regulations on the disposal of PCBs, spills, leaks and other uncontrolled discharges of PCBs constitute the illegal disposal of PCBs. Because such discharges of PCBs are considered to be violations of the PCB disposal regulations, EPA requires the cleanup of contamination resulting from such discharges. This action is directed toward establishing nationwide standards under TSCA for the cleanup of PCB spills. EPA will propose amendments to the PCB recordkeeping requirements to require owners of fluid containing PCBs to maintain records of cleanup. At the same time, EPA will publish for public comment, a TSCA enforcement policy for the clean up of PCB spills.

Significance: Regulatory Program

Legal Authority: 15 USC 2625 /TSCA 26(B)

CFR Citation: 40 CFR 700

Abstract: Section 26(b) of TSCA authorizes EPA, by rule, to require the payment of a fee from any person required to submit data under section 4 or 5 of TSCA. The fee may not exceed $2,500 or, in the case of a small business concern, $100. EPA intends to propose a rule under this authority to require fees for Agency review of premanufacture notices (PMNs) and PMN exemption notices and applications for new chemical substances, and significant new use notices for new and existing chemicals.

Abstract: Subpart A of part 721 of 40 CFR contains general provisions for Significant New Use Rules (SNURs). The Agency has received comments requesting that the general provisions be modified to revise its hazard communication provisions to make them more compatible with OSHA's Hazard Communication Standard; and to allow manufacturers and processors to seek Agency approval, outside the context of a PMN submission, for risk management measures which are equivalent to those described in a SNUR. Legal Authority: 15 USC 2604 /TSCA 5

CFR Citation: 40 CFR 721

EPA—TSCA

Final Rule Stage

Abstract: When the Agency determines that in the absence of adequate safety data, the uncontrolled manufacture, distribution, use or disposal of a PMN substance may present an unreasonable risk, it may issue a proposed order under section 5(e) to limit the aforementioned activities. However, section 5(e) orders apply only to the PMN submitter. Once the substance is placed on the TSCA chemical inventory, other persons are free to manufacture or process the substance without controls. Therefore EPA, by rule, designates manufacture or processing of the substances for use without the specified controls as a significant new use. These SNURs ensure that the original submitter is not at a competitive disadvantage and that no uncontrolled activities will occur without an opportunity for prior Agency review.

2734. SECTION 8 (A) PRELIMINARY ASSESSMENT INFORMATION RULES

Legal Authority: 15 USC 2607a / TSCA 8(a)

CFR Citation: 40 CFR 712

Legal Deadline: None.

Abstract: These rules add chemicals to the list of chemicals and designated mixtures subject to the requirements of the TSCA Section 8(a) Preliminary Assessment Information Rule - (40 CFR Part 712). These chemicals are identified by OTS, other EPA offices, and other Agencies, as well as chemicals recommended by the Interagency Testing Committee (ITC) on the TSCA Section4(e) priority list. Manufacturers and importers are required to submit exposure-related data (EPA Form No. 7710-35) on the chemicals. These data will be used to monitor the levels of production, import and/or processing of these substances and the avenues of human and environmental exposure to these substances. It will also support risk assessment and test rule decisions.

Significance: Regulatory Program

Legal Authority: 15 USC 2607(a) / TSCA 8(a)

CFR Citation: 40 CFR 712

Legal Deadline: None.

Abstract: This rule will contain a comprehensive list of questions for industry reporting which will provide necessary information to complete chemical assessments. Each time EPA needs information on a chemical, the Agency will amend the rule to add the chemical. Not all questions will be selected for each chemical added to the rule; only the most relevant questions will be selected for each chemical. The information obtained by this rule will be used by EPA and other Federal Agencies to support assessments of and rulemaking on chemical substances.

Significance: Regulatory Program

Legal Authority: 42 USC 6939 / Sec. 3018(b) RCRA

CFR Citation: 40 CFR 400ff; 40 CFR 122

Legal Deadline: Statutory, August 1987. Eighteen months after submission to Congress of the Domestic Sewage Study required by RCRA Sec. 3018(a). Submitted 2/8/86.

Abstract: Regulations are to be promulgated to ensure that hazardous wastes discharged to publicly owned treatment works are adequately controlled to protect human health and the environment. The ANPRM presented a spectrum of possible approaches and solicited the best ways to implement the recommendations of the Congressionally-mandated study of the RCRA domestic sewage exclusion. The study supports primary reliance on the CWA pretreatment program for regulation of aqueous hazardous waste discharged to sewers.

Significance: Regulatory Program

Legal Authority: 33 USC 1251 /CWA 402

CFR Citation: 40 CFR 400

Legal Deadline: None.

Abstract: EPA will evaluate additional categories of industrial discharges for hazardous or toxic pollutants; identify subcategories based upon production processes, pollutants, and applicable technologies; and determine the extent of the environmental problem and the practicality and efficiency of issuing effluent guidelines. Potential industrial categories for analysis will be selected based on requests from the EPA regional offices, states, and municipalities and from results of internal studies. Examples of industrial categories which will be evaluated include: hazardous waste treaters; solvent, barrel, and waste oil reclaimers; hospitals; equipment manufacturers; transportation sources; industrial laundries; and several others. Regulations for these industries, if appropriate, will be based on complex engineering and economic studies to determine wastewater characteristics and treatment capabilities of each industrial category and subcategory.

Legal Authority: 33 USC 1311(b)(1)(B) /CWA 301(b)(1)(B); 33 USC 1314(d)(1) /CWA 304(d)(1)

CFR Citation: 40 CFR 133

Legal Deadline: Judicial, 00/00/00. As soon as possible

Abstract: In this amendment the Agency will propose a mechanism for permit adjustments for treatment plants served by Combined Sewer Systems similar to that which was recently promulgated (June 3, 1985) for separate sewer systems. The existing regulation requires 85% removal of BOD5 and suspended solids (65% for equivalent treatment) from treatment plants served by combined sewers during dry weather flow conditions. Problems exist in meeting these requirements when plants experience less concentrated influents.

Significance: Regulatory Program

Legal Authority: 33 USC 1401 et seq /MPRSA

CFR Citation: 40 CFR 220 to 229

Legal Deadline: None.

Abstract: These amendments are necessary to clarify the existing regulations, incorporate program experience, and respond to statutory amendments and the results of two lawsuits. Those lawsuits are the City of New York decision (543 F. Supp.), which involved the consideration of the need for ocean dumping and availability and impacts of land-based alternatives, and NWF v. Costle decision (629 F. 2d 118), which involved dredged material issues. Significant impacts on small entities (i.e., small business and small governmental jurisdictions) seem unlikely. Legal Authority: 33 USC 1412 (c) /MPRSA 102(c)

CFR Citation: 40 CFR 234

Legal Deadline: None.

Abstract: In response to the need to provide for the safe disposal of hazardous wastes, the Agency has proposed regulations governing at-sea incineration of hazardous wastes (50 FR 8222, February 28, 1985). Incineration of liquid wastes at-sea is a potential method to help solve the nation's hazardous waste problem. Designation of sites for incineration-at-sea is a necessary step in making this technique for waste disposal available. An incineration-at-sea site for the Gulf of Mexico was designated in 1976 and redesignated in 1982. The Agency is planning to designate additional sites in the North Atlantic and Pacific.

2754. GUIDELINES FOR CLASSIFYING GROUNDWATER UNDER THE EPA GROUNDWATER PROTECTION STRATEGY

Significance: Regulatory Program

Legal Authority: None

CFR Citation: Not applicable

Legal Deadline: None.

Abstract: In August 1984, EPA issued Groundwater Protection Strategy to provide clear objectives to guide the Agency's efforts to protect groundwater. The strategy incorporated views of State and local governments, industry, a broad-cross section of public-interest groups, and other Federal agencies who had been invited to comment on the development of the strategy. One of the major factors toward the development of the strategy was the need to achieve greater consistency among the many EPA programs in protecting groundwater and the need to take into account its value and vulnerability in developing protection and cleanup approaches. Some EPA programs tended to factor in groundwater considerations to a greater extent than other programs. These differences were creating confusion among those subject to these regulations, and among State and local officials who were implementing EPA programs. Now EPA is looking at a rational basis for decisionmaking through these guidelines. The Agency plans to publish both draft and final guidelines.

Abstract: EPA has promulgated final BPT, BAT, NSPS, PSES and PSNS effluent limitations and standards for the pharmaceutical manufacturing point source category. Additionally, the Agency will promulgate NSPS regulations to control the discharge of conventional pollutants from new source direct dischargers. BCT limitations have been established based on the final BCT cost test methodology (51 FR 24974). The Agency will also finalize BAT and NSPS regulations to control the discharge of the nonconventional pollutant, COD, at a later time.

Legal Deadline: None.

Abstract: The Agency will promulgate BPT for subcategories A through F (promulgated as interim final on May 18, 1976 and subcategory G proposed November 29, 1979). NSPS regulations for four subcategories will also be promulgated, as proposed on November 29, 1979. All seven subcategories of the gum and wood chemicals industry (proposed in 1979), have been excluded from toxic pollutant control under authority of the NRDC/EPA settlement agreement (Paragraph 8). Therefore, BAT and pretreatment standards for new and existing sources (proposed in November 1979) will be withdrawn. The Agency will publish guidance describing wastewater treatment alternatives, and the bases for the exclusion of BAT and pretreatment standards.

Abstract: EPA will collect new wastewater data from rubber processing facilities for nine subcategories as part of a staged regulatory review now scheduled to run from FY 87 through FY 90 since data obtained from the Organic Chemicals/Plastics and Synthetic Fibers project will be examined for technology transfer opportunities. In addition, lead limits for three subcategories were studied and revisions to these limits will also be made. Rubber reclaimers, covered by subparts H and I, have been re-examined for BCT, BAT, and NSPS regulations; national regulations will not be issued.

Abstract: In response to settlement agreements, the Agency will promulgate amendments to the regulations previously issued on 3/8/84 (49 FR 8742). The first portion of these amendments is in response to a settlement agreement (11/27/85) affecting the primary and secondary aluminum subcategories. The proposed amendments for this segment include regulations for BAT, pretreatment, and new source standards to limit the discharge of pollutants from facilities in these subcategories. In response to a separate settlement (6/26/85), EPA promulgated amendments for the primary tungsten subcategory. These amendments addressed limitations for BPT, BAT, pretreatment and new source standards to limit the discharge of pollutants from facilities in this subcategory.

Significance: Regulatory Program

Legal Authority: 42 USC 300 /SDWA 1412

CFR Citation: 40 CFR 141

Legal Deadline: Statutory, December 19, 1987.

Abstract: EPA plans to establish regulations specifying criteria that States will use to determine which surface water systems will be required to install filtration. The regulations will also address performance criteria for filtration systems. The basis of the regulations is protection from potential disease caused by Giardia, viruses, and other pathogens. MCLGs and MCLs/ monitoring requirements will also be set for microbiological contaminants, such as total coliforms and turbidity.

Legal Authority: 42 USC 300 /SDWA 1412

CFR Citation: 40 CFR 141

Legal Deadline: Statutory, January 1, 1988. Statutory, January 1, 1988

Abstract: A list of contaminants that may require regulation under the SDWA will be published. The Agency will then set Primary Drinking Water Regulations for any contaminant that may have any adverse effect upon the health of persons and which is known or anticipated to occur in public water systems. MCLGs and MCLs/Monitoring will be established for at least 25 of the contaminants on the list by January 1, 1991. Also, the Agency will determine which contaminants it will replace from the eighty-three contaminants that the SDWA lists for regulation. Seven substitutions are allowed. Those replaced will be put on the list of unregulated contaminants.

Legal Deadline: Statutory, November 8, 1986.

Abstract: EPA has made a decision (11/19/86, 51 FR 41900) not to adopt the proposed standards (11/29/85, 50 FR 49212) to control recycled used oil. Furthermore, the 11/19/86 notice delineates the Agency's intention to pursue different strategies to control used oil which is to be recycled and use oil bound for disposal. Used oil bound for disposal will be regulated either under section 6 of TSCA or under a RCRA disposal listing. The 11/19/86 notice sets out schedules for both the TSCA and RCRA regulatory development strategies. The notice states that although some controls on recycling may be promulgated in the interim, comprehensive recycling management rules will not be issued until the disposal controls, under either TSCA or RCRA, are issued. The Agency does not have a more specific schedule for proposing these recycling regulations.

Significance: Regulatory Program

Legal Authority: 42 USC 6991 /RCRA 9003

Abstract: This regulation will establish, under Subtitle I of RCRA (as amended by SARA), requirements for demonstrating financial responsibility for taking corrective action and compensating third parties for bodily injury and property damage caused by releases from underground storage tanks (USTs) containing hazardous substances. An ANPRM is being developed to help gather data (e.g., frequency of releases from such USTs, costs of corrective action and third-party damages, and the regulated community's financial condition and use of financial assurance mechanisms) needed for the development of a proposed rule.

Significance: Regulatory Program

Legal Authority: 42 USC 6941 to 6949 /RCRA 4001-4009

CFR Citation: 40 CFR 261

Legal Deadline: None.

Abstract: Based on the mining waste Report to Congress submitted 12/31/85, comments on the report, and other available information, EPA has determined that regulation of mining waste under Subtitle C of the Resource Conservation and Recovery Act (RCRA) is not warranted at this time (51 FR 24496). Instead, EPA plans to develop a program for mining waste under Subtitle D of RCRA, working with the States to determine the specific nature of their current mining waste activities and their future plans to administer such programs. Significance: Regulatory Program

Legal Authority: 42 USC 6925 /RCRA 3004 and 3005

CFR Citation: 40 CFR 270

Legal Deadline: None.

Abstract: This regulation will amend RCRA procedures (codified at 40 CFR 270.41 and 270.42) for modifying hazardous waste management permits. The rulemaking provides EPA, authorized states, and permittees more flexibility in modifying permits, particularly where modifications will increase public and environmental protection or facilitate compliance with new regulations. At the same time, the regulation will provide for improved public participation in the permit modifications. The rule is being developed through regulatory negotiation with representatives of EPA, the states, industry, and public interest groups. RIN 2050-AA37 has been combined with this action.

CFR Citation: 40 CFR 257

Legal Deadline: Statutory, March 31, 1988.

Abstract: The Hazardous and Solid Waste Amendments of 1984 (HSWA) require EPA, by November 8, 1987, to submit a report to Congress on the adequacy of the RCRA Subtitle D Criteria in protecting human health and the environment from ground-water contamination from solid waste disposal facilities and on the need for additional authorities to enforce the Criteria. EPA is revising the criteria for Subtitle D facilities that may receive hazardous household waste or small quantity generator waste. The revisions monitoring, location restrictions, and corrective action, as will include ground-water monitoring location restrictions, and corrective action requirements.

Significance: Regulatory Program

Legal Authority: 42 USC 6924 / RCRA 3004, 3005

CFR Citation: 40 CFR 266

Legal Deadline: Statutory, November 8, 1986.

Abstract: Burning of hazardous waste in boilers for the purpose of heat recovery is currently exempt from regulation under RCRA. The Hazardous and Solid Waste Amendments of 1984 require the Agency to develop technical standards for the burning of hazardous waste fuels. This regulation will establish standards for controlling emissions of organic compounds, metals, and hydrogen chloride from boilers and industrial furnaces that burn hazardous waste.

Legal Authority: 42 USC 6924 / RCRA 3004; 42 USC 6925 / RCRA 3005

CFR Citation: 40 CFR 264; 40 CFR 265

Legal Deadline: Statutory, May 8, 1987.

Abstract: This action amends the interim status and permitting rules for new land disposal units (surface impoundments, waste piles, land treatment units, and land fills) and expansions of existing units. This requires double liners, leachate collection systems, leak detection systems, leak response and repair, and construction quality-assurance plans.

Significance: Regulatory Program

Legal Authority: 42 USC 6924 /RCRA 3004

CFR Citation: 40 CFR 264.18

Legal Deadline: None.

Abstract: Section 3004(o)(7) of RCRA requires EPA to promulgate additional standards for the location of hazardous waste treatment, storage, and disposal facilities. Two location standards (floodplain and seismic restrictions) already exist at 40 CFR Part 264.18. Additional standards will specify criteria for the acceptable location of new and existing treatment, storage and disposal facilities.

Abstract: EPA will develop a rule that will identify the circumstances under which a unit that ceases to receive hazardous wastes may continue to accept solid wastes. Current regulations require that closure of a unit begin after the last receipt of hazardous wastes. The Agency intends to prepare amendments which will address subsequent use of a unit for solid waste management and coordination with other closure activities of a hazardous waste facility.

Significance: Regulatory Program

Legal Authority: 42 USC 6924 /RCRA 3004(u)

CFR Citation: 40 CFR 264; 40 CFR 270

Legal Deadline: None.

Abstract: These regulations set forth the technical and procedural requirements for conducting corrective action to clean up significant releases to air, surface water, ground water and soil at solid waste management units at operating, closed, or closing RCRA facilities. The regulations will be used to define the structure of the program, and the requirements for implementing remedial action, remedy selection and corrective measures. Significance: Regulatory Program

Legal Authority: 42 USC 6924 / RCRA 3004

CFR Citation: 40 CFR 264

Legal Deadline: None.

Abstract: EPA previously promulgated regulations for detecting contamination of groundwater at hazardous waste disposal facilities under the Resource Conservation and Recovery Act of 1976 (RCRA). The statistical methods for evaluating the groundwater data have been criticized by industry for a number of reasons. EPA is proposing revisions to the regulations. Legal Authority: 42 USC 6901 /RCRA 3004

CFR Citation: 40 CFR 264; 40 CFR 265

Legal Deadline: None.

Abstract: The Agency is considering further revisions to the financial responsibility requirements for liability coverage for third- party bodily injury and property damage resulting from accidental occurrences at hazardous waste treatment, storage, and disposal facilities. The revisions under development are intended to provide relief for hazardous waste facility owners and operators who have encountered difficulties in obtaining insurance and cannot otherwise meet liability coverage requirements. Other instruments, such as a nonparent corporate guarantee, are being analyzed for inclusion in this rulemaking. See related action in the final rule section of this Agenda.

Abstract: This action responds to a petition submitted to EPA by the Hazardous Waste Treatment Council (HWTC). It establishes state-wide permitting procedures for mobile hazardous waste treatment units and modifies hazardous waste delisting procedures, so that hazardous waste treatment residues could be delisted as part of the permitting process. In addition, the petition response will solicit comment on HWTC's request that EPA exempt certain treatment technologies from the requirements for hazardous waste management.

CFR Citation: 40 CFR 280

Legal Deadline: Statutory. New and Existing Petroleum Tanks (02/08/87), New Chemical Tanks (08/08/87), Existing Chemical Tanks (08/08/88)

Abstract: This regulation will establish, under Subtitle I of RCRA, requirements for release detection, prevention, and correction at all underground storage tanks holding petroleum and other regulated substances. Because of the large size of the regulated community, this rule could impact a significant number of small business entities and a Regulatory Flexibility Analysis would be conducted by EPA. Promulgation of this rule, will, for the first time, establish national requirements for the storing regulated substances, including petroleum products, in underground tanks. It will not apply to underground tanks storing non-petroleum hazardous wastes, which are currently regulated under Subtitle C of RCRA. these regulations will: include performance standards for new tanks; address the design, construction, installation, compatibility, leak detection; and specify response actions to releases.

Significance: Regulatory Program

Legal Authority: 42 USC 6991(b) /RCRA 9003

CFR Citation: 40 CFR 280

Legal Deadline: Statutory, February 8, 1987.

Abstract: This regulation will establish, under Subtitle I of RCRA, requirements for owners and operators to demonstrate financial responsibility for taking corrective action and compensating third parties for bodily injury and property damage caused by sudden and nonsudden accidental releases arising from operating an underground storage tank containing petroleum. These requirements are applicable to all owners and operators, excluding Federal and State entities. The Agency is proposing aggregate levels of coverage for multiple tanks and will allow a variety of mechanisms to provide evidence of financial responsibility.

Legal Authority: 42 USC 6921 / RCRA 3001

CFR Citation: 40 CFR 261

Legal Deadline: Statutory, March 8, 1987. Statutory, November 8, 1986 for adding additional characteristics; March 8, 1987 for revising the extraction procedure.

Abstract: The EPA is proposing to amend its hazardous waste identification regulations by introducing a new extraction procedure to be used in the Toxicity Characteristic and by expanding the Toxicity Characteristic to include approximately 38 additional organic toxicants.

Legal Authority: 42 USC 6921 /RCRA 3001; 42 USC 6922 /RCRA 3002; 42 USC 6924 /RCRA 3004

CFR Citation: 40 CFR 262; 40 CFR 265

Legal Deadline: None.

Abstract: The storage or treatment of hazardous waste in tank systems raises considerable concern regarding potential risk to human health or the environment posed by migration of the waste. The purpose of this action is to develop a comprehensive regulatory strategy for the specific tank systems used by certain small quantity generators to accumulate waste prior to off-site shipment.

Legal Authority: 42 USC 6924 / RCRA 3004; 42 USC 6925 / RCRA 3005

CFR Citation: 40 CFR 270

Legal Deadline: None.

Abstract: This regulation amends EPA's hazardous waste management permitting regulations by establishing a class permit application form for use by facilities whose only activity subject to RCRA permitting consists of storing hazardous wastes in containers that have been generated on-site. Promulgation of this rule would expedite the permitting process for this class of facility. This is the first of several RCRA class permits the Agency plans to issue.

2831. FINANCIAL RESPONSIBILITY FOR CORRECTIVE ACTION FOR CONTINUING RELEASES AT HAZARDOUS WASTE MANAGEMENT FACILITIES

Significance: Regulatory Program

Legal Authority: 42 USC 6901 /RCRA 3004, HSWA 206

CFR Citation: 40 CFR 264

Legal Deadline: None.

Abstract: The current RCRA regulations require owners/operators of hazardous waste management facilities to demonstrate financial responsibility for the costs of closure and post closure (if applicable) activities. The HSWA also requires that owners/ operators seeking a RCRA permit demonstrate financial responsibility for completing corrective actions for known, continuing releases. EPA plans to write implementing regulations modifying financial instruments in the current hazardous waste regulations for use in providing assurance for the completion of corrective action for known releases. This rulemaking also seeks comments on whether financial responsibility for corrective action as necessary and desirable (not associated with an already identified release) should be undertaken separately or in combination with this requirement.

Legal Authority: 42 USC 6901 / RCRA 3004

CFR Citation: 40 CFR 264; 40 CFR 265

Legal Deadline: None.

Abstract: The Agency is authorizing use of a corporate guarantee as a mechanism for providing liability coverage for bodily injury and property damage resulting from accidental occurrences at hazardous waste treatment, storage, and disposal facilities. The corporate guarantee, though restricted to parent corporations of hazardous waste facility owners and operators, enables more firms to comply with liability coverage requirements because it is an additional mechanism to insurance and the financial test. Legal Authority: 42 USC 6924 / RCRA 3004

CFR Citation: 40 CFR 260 to 271; 40 CFR 122 to 124

Legal Deadline: None.

Abstract: The purpose of this rule is to expand and elaborate on specific portions of the Final Codification Rule which was effective on July 15, 1985. The Final Codification Rule codified those requirements specified by the 1984 amendments to RCRA which were effective immediately or shortly after enactment. More specifically, this rule addresses such areas as corrective action for prior releases from solid waste management units, and permit modifications and post-closure permits.

Significance: Regulatory Program

Legal Authority: 42 USC 6924 /RCRA 3004

CFR Citation: 40 CFR 268

Legal Deadline: Statutory, July 8, 1987.

Abstract: This rule establishes treatment standards and associated effective dates for a group of hazardous wastes known as the California list (i.e., liquid hazardous waste containing PCB's and liquid and solid hazardous wastes containing halogenated organics, certain metals, free cyanides, or corrosives). This rule implements the HSWA provisions for those wastes known collectively as the California list, establishing effective dates and treatment standards as necessary. 2836. DEVELOPMENT OF CORRECTIVE ATION PROGRAMS AFTER PERMITTING HAZARDOUS WASTE LAND DISPOSAL FACILITIES

Legal Authority: 42 USC 6901 /RCRA 3004

CFR Citation: 40 CFR 270

Legal Deadline: None.

Abstract: Proposal would amend existing RCRA permit application regulations under 40 CFR 270.14(c)(7), (c)(8)(iii) and (c)(8)(iv). These regulations currently require owner/operators of land disposal facilities with ground water releases to submit plans for a corrective action program in the Part B application. The proposal would allow development of the corrective action program after issuance of the permit. The amendment would serve to expedite permit issuance, thereby applying Part 264 standards earlier and within Congressionally mandated timeframes. As corrective action plans for non-land disposal facilities can be submitted after permit issuance, the rule would also allow concurrent development of corrective action plans for all units at the facility.

Abstract: This rule establishes minimum technology requirements for new hazardous waste landfills and surface impoundments or extensions to existing landfills and surface impoundments for double liner and leachate collection systems. This rule will establish standards for these systems enabling unit owners and operators to design and construct systems that will protect human health and the environment.

2849. REVIEW OF NAAQS FOR NITROGEN DIOXIDE

Significance: Regulatory Program

Legal Authority: 42 USC 7408 / CAA 108; 42 USC 7409 / CAA 109

CFR Citation: 40 CFR 50

Legal Deadline: Statutory, December 31, 1980. Statutory, Review by December 31, 1980 and at 5-year intervals thereafter.

Abstract: In June 1985, EPA completed its review of the existing annual primary and secondary NO2 NAAQS. At that time, EPA announced that it was deferring a decision on the need, if any, for a separate short-term primary standard pending the results from additional research focused on reducing the uncertainties associated with short-term health effects. In the previous Regulatory Agenda, EPA indicated that it would consider expediting the normal review schedule if the results of these ongoing studies warranted setting a separate short-term primary NO2 standard. While some of the studies are still underway, those which are complete report inconclusive and mixed results. In fact, efforts to replicate findings from earlier studies showing short-term effects have been unsuccessful. Thus, at this time, EPA does not plan to expedite the NO2 review process, but will proceed on the normal review cycle which would result in a revised Criteria Document and Staff Paper by mid-1990.

Abstract: During the recent review of the carbon monoxide (CO) National Ambient Air Quality Standards (NAAQS) (50 FR 37484, Sept. 13, 1985), it was found that the existing scientific data had shortcomings which need to be addressed through through further research. Therefore, EPA plans to carefully follow several ongoing studies on the health effects of CO. Once these studies are completed, a review will be conducted and if the results warrant a change in the CO standards, the Agency will expedite the normal review period.

Abstract: EPA is reassessing the health and welfare information that has become available since the last revision of the standard. EPA plans to publish a proposed rule on 02/00/88. Legal Authority: 42 USC 7410/CAA 110; 42 USC 7491/CAA 169

CFR Citation: 40 CFR 51.300-307

Legal Deadline: Judicial, August 31, 1987.

Abstract: Section 169 of the Clean Air Act requires EPA to remedy existing and prevent future visibility impairment in certain national parks, wildernesses, and international parks. In 1980 EPA promulgated these regulations for 36 states. On July 12, 1986 EPA published Federal promulgation of SIPs to cover visibility new source review and monitoring. Under a settlement agreement EPA must propose federal promulgation of SIPs to cover the remaining elements for those states which do not submit adequate SIPs. Unless states submit revised SIPs to EPA by August 31, 1987, EPA must publish the Federal promulgation of the SIPs within 6 months of the close of the comment period on the proposal. Under settlement agreement, EPA can delay action on remedying existing impairment until August 1988.

Abstract: The scope of the SOCMI reactor processes NSPS includes all reactor processes (other than air oxidation reactor processes) used to manufacture 173 synthetic organic chemicals produced in quantities of at least 100 million lb/yr. These large-volume chemicals account for about 90 percent of the total domestic chemical production from the SOCMI. Furthermore, production of these large-volume chemicals is expected to have the greatest impact on nationwide VOC emissions, since the magnitude of emissions from reactor process units are generally proportional to chemical production rates.

2872. NESHAP: CHROMIUM—ELECTROPLATING

Legal Authority: 42 USC 7412 / CAA 112

CFR Citation: 40 CFR 61

Legal Deadline: None.

Abstract: EPA issued a notice of intent to list chromium or hexavalent chromium under Section 112 (50 FR 24317). We are further assessing the public health risks of chromium

compounds. A preliminary assessment performed by EPA has identified chromium electroplating as a source category which emits significant quantities of chromium to the atmosphere and for which the proposal of national emission standards may be warranted. We are presently investigating in detail alternative feasible control options, and the economic, energy, and environmental impacts, and the effect on public health risks that would result from their application. If EPA decides, based on these investigations, that emission standards are warranted, chromium or hexavalent chromium will be listed under Section 112, and standards will be proposed.

Abstract: This action initiates a comprehensive research effort by EPA to assess issues related protection of the stratosphere, as directed by Part B, Section 157 of the CAA. The plan proposed that EPA enhance its research and analysis, participate in a series of domestic and international workshops related to stratospheric ozone, and arrive at a decision by November, 1987 whether additional regulation, either domestic or international, of stratospheric perturbants, is necessary. The plan also served as a basis for a settlement agreement between EPA and NRDC in a suit now pending before the DC Circuit Court.

Abstract: In-use motor vehicle evaporative hydrocarbon emissions greatly exceed their applicable EPA emissions standards. A major reason is that the volatility of commercial gasoline is substantially greater than that of the certification test fuel specified by EPA. Significance: Regulatory Program

Legal Authority: 42 USC 7521 / CAA 202

CFR Citation: 40 CFR 86

Legal Deadline: None.

Abstract: In March 1985 the EPA promulgated NOx and PM emission standards for heavy-duty vehicles and engines. The rulemaking included a provision for emissions averaging for the final stages of standard implementation in order to mitigate the economic impact of the stringent standards. EPA realized that the averaging mechanism could provide more benefits to manufacturers with a broader product line. In order to address this issue, EPA included in the final package a provision to study the potential for mitigating this uneven distribution of benefits through an emissions credit trading program. The study was expanded to include the concept of 'banking' emissions credit. The study has been completed and a technical workshop was held and made available to the public; in January 1987. EPA is analyzing the comments received from the public and from the workshop.

Abstract: EPA is considering revising the particulate emission standards for light-duty diesel trucks with a loaded vehicle weight equal to or greater than 3751 pounds. The standard would be relaxed for the 1987-1990 model years, allowing manufacturers to devote their resources to developing particulate trap oxidizer technology. Then in 1991, the standard would be tightened to 0.13 grams per mile which is twice as stringent as the current applicable standard.

2880. SMALL-VOLUME MANUFACTURERS CERTIFICATION PROCEDURE (REVISION)

Legal Authority: 42 USC 7525 / CAA 206

CFR Citation: 40 CFR 86

Legal Deadline: None.

Abstract: This action will result in amended rules to provide for certification of emissions compliance by small-volume manufacturers, including commercial importers importing vehicles into the United States. By a separate action, the Manufacturers Operations Division is considering revising its rules for nonconforming vehicle importation. This action is appropriate to improve the certification regulations and assure compliance with the exhaust emission standards, especially in light of the expected increase in certification of imported vehicles if importation rules are amended. Current rules for small-volume manufacturers were not intended to specifically apply to conversion of previously manufactured but uncertified configurations. However, increasingly large numbers of manufacturers who import vehicles for resale have applied for EPA certification as an alternative to individual vehicle importation. This will primarily impact small businesses involved in importing motor vehicles. The likely impact of these changes will be increased costs to these businesses.

2883. FUEL AND FUEL ADDITIVES: PREVENTATIVE ACTION PROGRAM TO PREVENT SELF-SERVE FUEL SWITCHING

Legal Authority: 42 USC 7545 /CAA 211; 42 USC 7601(a) /CAA 301(a)

CFR Citation: 40 CFR 80.22; 40 CFR 80.23

Legal Deadline: None.

Abstract: This action will develop a voluntary "Preventative Action Program" to be used by gasoline retailers to help prevent self-serve fuel switching. Retailers will be afforded an affirmative defense to allegations of "allowing" fuel switching if they have effectively implemented this program. This action would also change the language of the fuel switching regulation to prohibit fuel switching in all vehicles designed to use unleaded gasoline, and not just those that still have an "unleaded only" label or fuel inlet restrictor.

Significance: Regulatory Program

Legal Authority: 42 USC 7545 / CAA 211

CFR Citation: 40 CFR 79; 40 CFR 80

Legal Deadline: None.

Abstract: Trap oxidizers, the use of which may be required to meet 1991 and later model-year heavy duty diesel particulate standards, may require the use of low sulfur diesel fuels. In promulgating the particulate standard, EPA promised to examine the need for low-sulfur fuel. In addition, fuel sulfur and aromatics content have been shown to have a direct effect on particulate emissions. This action will determine the costs and benefits of improving diesel fuel quality.

Legal Authority: 42 USC 2003 / EPCA 503

CFR Citation: 40 CFR 600

Legal Deadline: None.

Abstract: In January 1982, the United States Court of Appeals for the Sixth Circuit issued an order requiring EPA to initiate rulemaking to establish procedures for determining what, if any adjustments were due for the 1980-85 Corporate Average Fuel Economy (CAFE) test results. Adjustments for light-duty vehicles have been finalized. This rule will address the need for adjusting test results of light-duty trucks. Specifically, a supplemental proposal will consider further whether the adjustments in CAFE made for light-duty vehicles should be made for light-duty trucks.

2886. TREATMENT, STORAGE, AND DISPOSAL FACILITY AREA SOURCE AIR EMISSIONS - RCRA STANDARDS

Significance: Regulatory Program

Legal Authority: 42 USC 6924/RCRA 3004, 3007

CFR Citation: 40 CFR 264, Subparts I,J,K,L,M,N

Legal Deadline: Statutory, May 1987.

Abstract: The purpose of this action is to investigate the magnitude of the area non-combustion source air emissions from hazardous waste treatment, storage, and disposal facilities and to develop standards for monitoring and control as needed. Area sources include surface impoundments, landfills, waste piles, land treatment operations and waste water treatment facilities. Pollutants to be considered by such standards would include volatile organic compounds, particulate matter, specific toxic substances, or a combination of these. The mandate for standards development under RCRA is to protect human health and the environment.

Abstract: These guidelines were promulgated on September 9, 1986. However, a supplemental proposed rule was also published on that date which includes: (1) addition of specific version of the Rough Terrain Dispersion Model (RTDM) as a screening model; (2) modification of the downwash algorithm of the Industrial Source Complex (ISC) model; (3) addition of the Offshore and Coastal Dispersion (OCD) model to Appendix A; and (4) addition of the AVACTA II model to Appendix B. Legal Authority: 42 USC 7522 / CAA 203

CFR Citation: 40 CFR 85

Abstract: EPA is considering various options for improving the effectiveness and administration of EPA's present regulation concerning the importation of nonconforming vehicles. Nonconforming vehicles are ones which have not been demonstrated to conform with Federal emission requirements. The regulatory revision options range from requiring that only certificate holders may import the vehicles (thereby bearing responsibility for their emission performance) to continuing the approach in the current regulation with various improvements, to elimination of importation of such vehicles (with minor exceptions). EPA is also considering elimination of any personal use exceptions.

Abstract: EPA will propose these amendments to require the use of unleaded gasoline in all emissions and fuel economy testing of gasoline fueled light-duty vehicles, light-duty trucks, motorcycles and heavy-duty engines. EPA believes that leaded fuel is no longer needed for new gasoline fueled vehicles or engines. The proposal is consistent with EPA's proposal to eliminate the use of leaded fuel in motor vehicles.

Legal Authority: 42 USC 7541(b) /CAA 207(b)

CFR Citation: 40 CFR 85

Legal Deadline: None.

Abstract: The U.S. Court of Appeals for the D.C. Circuit has directed EPA to amend the aftermarket parts certification regulations. There were four specific areas which the Court directed EPA to revisit. EPA was directed to develop better procedures for determining adequate grounds for manufacturer denial of a warranty claim; reconsider inclusion of specialty parts into the certification system; improve the procedure for resolution of warranty cost claims by vehicle manufacturers' against certified parts manufacturers; and labeling for certified parts.

Legal Authority: 42 USC 7545 /CAA 211; 42 USC 7601(a) /CAA 301(a)

CFR Citation: 40 CFR 80

Legal Deadline: None.

Abstract: EPA is examining information relevant to a total ban on the use of lead in gasoline. The Agency is considering a set of alternatives ranging from no regulatory action to a ban as soon as January 1, 1988. This rule, if promulgated, will have an impact on many refineries, including small refineries. A regulatory flexibility analysis will fully consider the effect of this action on small entities.

2920. HAZARD RANKING SYSTEM FOR UNCONTROLLED HAZARDOUS SUBSTANCE RELEASES

Significance: Regulatory Program

Legal Authority: 42 USC 9605(8)(A) /CERCLA 105(8)(A)

CFR Citation: 40 CFR 300, Appendix A

Legal Deadline: Statutory. Deadline of 4/88 required by SARA

Abstract: This action revises the Hazard Ranking System (HRS) which is Appendix A of the National Contingency Plan. The HRS is a system for determining the relative severity of risks among releases of hazardous substances. The HRS is the primary mechanism for establishing the National Priorities List under CERCLA. SARA requires that the HRS be amended to assure, to the extent feasible, that it accurately assess relative risk to public health and the environment. SARA specifically requires that the HRS take into consideration natural resource damages that may affect the human food chain as well as potential air contamination. The HRS must also appropriately assess human health risks associated with contamination of surface waters for drinking or recreation.

Abstract: Superfund Amendments and Reauthorization Act 1986 requires that EPA develop grant regulations for technical assistance for citizen groups. Under Section 117(e) groups of individuals may apply for the technical assistance grants only at NPL sites. The grants are limited to $50,000 per site and the grant recipient is required to contribute a 20% match. These limits may be waived.

CFR Citation: 40 CFR 302

Legal Deadline: Statutory. Legislation imposes a 12/31/86 deadline for proposal and a 4/30/88 deadline for the final rule.

Abstract: EPA is adjusting the statutory one-pound reportable quantity (RQ) for radionuclides pursuant to Section 102 of CERCLA. Radionuclides consist of approximately 1,800 radioactive isotopes whose release represents differing degrees of potential harm to human health and the environment. The Agency has decided to propose individual adjusted RQs for 757 radionuclides, and an RQ of one curie for all of the remaining radionuclides.

Abstract: The Accidental Release Information Program (ARIP) will require

facilities having repeated or severe accidental releases to submit to EPA information on what caused the releases and what prevention measures will be taken as a result of the releases. The proposed rule will effect small entities to the extent that they have large on frequent releases. At this point, the terms "repeated", "severe", "large", and "frequent" are under discussion.

Abstract: This action revises the National Priorities List (NPL) for uncontrolled hazardous waste sites in the National Contingency Plan (NCP). CERCLA requires that the NPL be revised at least annually. Periodic revisions will allow EPA to include sites on the NPL with known or threatened hazardous substances releases and to delete sites that have been cleaned up. CFR Citation: 40 CFR 100; 40 CFR 117; 40 CFR 300; 40 CFR 302

Legal Deadline: None.

Abstract: In the May 25, 1983 NPRM (48 FR 23552) that proposed to adjust certain reportable quantities (RQs) for releases of hazardous substances, EPA explained the Agency's interpretation of each of the types of releases exempted by the definition of "federally permitted release" in Section 101(10) of CERCLA. Because of the amount of time that has passed and additional analysis undertaken since that NPRM, this action reproposes regulations to clarify the statutory language in Section 101(10) of CERCLA.

Legal Authority: 42 USC Undetermined /SARA 120

CFR Citation: 40 CFR Undetermined

Abstract: This section of SARA requires that EPA, in consultation with the General Services Administration promulgate rules which will require the disclosure of the type and quantity of any hazardous substances that have been stored, released or disposed of on federally owned land when such land is sold or otherwise transferred from the federal domain. These regulations also require that: (1) the agencies holding such land provide, at the time of transfer, a convenant warranting that all remedial actions necessary for protection of human health and the environment have been taken; and (2) any additional action found to be necessary after the transfer will be undertaken by the U.S.

Legal Authority: SARA Sec 126

CFR Citation: 29 CFR 1910

Legal Deadline: Statutory, January 17, 1988.

Abstract: The Superfund Amendments and Reauthorization Act of 1986 (SARA) required the Secretary of Labor, within one year of the date of enactment, to promulgate standards for the health and safety protection of employees engaged in hazardous waste operations. The Secretary is also required to issue interim final regulations within 60 days after enactment of SARA. These interim final rules were published on December 19, 1986. SARA requires the Administrator of EPA to promulgate identical standards. The EPA standards apply to employees of State and local governments in each State (currently 26) that does not have in effect an approved State Plan under section 18 of the Occupational Safety and Health Act of 1970.

2940. DENIAL OR RESTRICTION OF DISPOSAL SITES (REVISION)

Significance: Regulatory Program

Legal Authority: 33 USC 1344 /CWA 404(c)

CFR Citation: 40 CFR 231

Legal Deadline: None.

Abstract: This action will revise EPA's existing 404(c) regulations, in effect since October 9, 1979. It will establish the procedures to be used when EPA is considering the use of Section 404(c) of the CWA to prevent the discharge of dredged or fill material into a defined area of the waters of the United States. Section 404(c) gives the Administrator authority to prohibit or withdraw the specification of a site as a disposal site or to deny or restrict use of a disposal site. Prior to 1983, we have taken only one 404(c) action. Since that time, we have initiated nine such actions. In the preamble to the 404(c) regulations, we indicated that we would do an evaluation of these regulations within four years of the effective date. We delayed this evaluation in order to carefully consider our recent experiences with these regulations. This review is completed, and we plan to revise the regulations to reflect our findings.
